PREFACE

THE *Yearbook* was first published in 1914. Before its advent the official University Calendars were the only authentic sources of information regarding the personnel, organization, regulations, and recent activities of universities. When British universities were few and university men took but little interest in the affairs of any except their own, the Calendars sufficed, but there are now 67, and each takes a growing interest in the others. The Calendars constitute a library of no mean dimensions—some 50,000 pages—and hardly anywhere except at the Universities Bureau are they all accessible. Much of their contents is of strictly local interest. In the *Yearbook* an attempt is made to extract from each of these bulky volumes such information as is likely to prove of interest to members of other Universities and Colleges, to Government Departments, Clubs, schoolmasters, and the public generally. It would be impossible to present a conspectus of this kind in a volume of manageable dimensions without resorting to the use of abbreviations and other devices for saving space. It is hoped that abbreviation has not been pressed beyond the limits of intelligibility.

In chapters introductory to the sections dealing with the Universities of Great Britain and Ireland, of Canada, of Australia, of South Africa, and of India, is collected such information regarding their history, regulations, and practice as they share in common. Each section comprises three parts.

(1) A directory of the officers and members of the staff of the University. Much trouble has been taken in preparing these directories to ascertain the sources of the various degrees held by teachers, since such information gives in a small space the educational history of their holders. If no name of a university follows a degree, it may be assumed that the degree was conferred by the university upon whose staff the teacher is serving.

With the exception of honours conferred by H M the King, titles other than degrees are omitted, unless they throw light upon the standing of their holders in the subjects which they profess. It is, for example, of interest to learn that a medical teacher of a university overseas holds diplomas of the Royal Colleges, whereas the addition of the letters M R C S, L R C P, to the name of a teacher in the

United Kingdom who is also M D cannot be said to convey information of importance

(2) Under the heading "General Information," an account is given of the equipment in libraries, museums, laboratories, etc., of the university, the degrees, diplomas, and certificates which it confers, its composition fees, scholarships open to graduates, residential accommodation, extra-mural work, publications, etc

(3) The accounts of the universities which hold good with modifications from one issue to another are followed by reports of events of outstanding interest which occurred during the past academic year. They include statistics of the numbers of students in attendance and degrees conferred. These annual reports will be of great importance to future historians of the universities. In the present issue a comparison of student enrolments and degrees conferred in 1912-13 and 1922-23 is given. See Appendix XXIX.

Appendices may be classified as (a) Summaries of regulations for the diplomas of the Medical Colleges and other Associations and Institutions of the United Kingdom, and the conditions governing admission to various professions and careers for which university studies are a fitting preparation, (b) admission of students from abroad into the universities of the United Kingdom, (c) lists of inter-university scholarships and fellowships, and grants for research, (d) brief accounts of universities in foreign countries, (e) lists of professional schools of the universities of the United Kingdom and the distribution of subjects in which these universities may be said to specialize, (f) university extension lecturers.

In the present issue appear for the first time an account of the new University of Nagpur, Appendices XXIX and XXX, and a General Index. The London section has been rearranged on what will, it is hoped, be found a more convenient plan.

THE UNIVERSITIES BUREAU OF THE EMPIRE

At the final, Delegates', meeting of the Congress of 1912 it was resolved that steps be taken for the formation in London of a Bureau of Information for the Universities of the Empire. From its inception until November 1919 the Bureau was, by the great courtesy of the Director, allowed the use of a room in the Imperial Institute. In the spring of 1919 the Government offered a non-recurrent grant of £5000 to enable the Committee to secure and furnish premises suitable for the wide activities which the Bureau had developed, on condition that the Universities of the Empire undertook to provide funds adequate to its maintenance. The Committee thereupon purchased the lease of No. 50 Russell Square. Offices in this building have been let to—

UNIVERSITIES were the outcome of the great intellectual revival which affected Europe in the twelfth and thirteenth centuries. Shortly after the Schools of Bologna and Paris had developed into what we now term Universities, similar seats of learning arose at Oxford and Cambridge, the nucleus of organization being, as at Paris, a corporation of masters—not, as at Bologna, a corporation of students—and many of the students being boys of fourteen or even younger. Instruction was in the form of lectures by licensed teachers. To the Seven Liberal Arts of the mediæval schools (the “trivium”—GRAMMAR, LOGIC, and RHETORIC, and the “quadrivium”—ARITHMETIC, GEOMETRY, MUSIC, and ASTRONOMY) the Universities added the three higher “Faculties” of PHILOSOPHY, LAW, and MEDICINE in order to provide complete preparation for the learned professions. The Scottish Universities, except Edinburgh, were founded in the fifteenth century, but the country had not been greatly influenced by the Revival of Learning, and although the earliest Reformers were in touch with continental scholars, and some attempts were made to introduce the New Learning into the schools and universities, the mediæval scholastic tradition remained paramount in St Andrews and Glasgow until the seventeenth century. Aberdeen was more receptive to *renaissance* influences. The University of Edinburgh originated in a College established by the Town Council in 1583. Trinity College, Dublin, was founded by Queen Elizabeth in 1591 on the lines of the Oxford and Cambridge colleges.

After the Reformation a demand arose in England for education of a more secular type, but the Acts of Uniformity (1559 and 1662) and similar measures stereotyped the schools and universities as clerical and theological institutions, and by the latter half of the eighteenth

century the teaching in the Universities had become mainly traditional and formal, and they were rapidly losing their hold on the national life

Readjustment to modern conditions took place in the course of the nineteenth century. Already in 1779 Protestant Dissenters, and in 1791 Roman Catholics, had been emancipated from the ban against their following the teaching profession, and the few Denominational tests retained by the older Universities until 1871 were then abolished. Oxford in 1800 established a system of written examinations for the bachelorship, and Cambridge in 1824 the classical Tripos. Soon afterwards both Universities instituted non-classical Honours examinations. The University Commissioners of 1850 and 1877 made provision at Oxford and Cambridge for the endowment of the teaching of modern subjects and the throwing open of scholarships to students of such subjects, removed practically all obligations to take orders in the Church of England, and did much to make the Universities accessible to all classes of the community.

Meanwhile the foundation in 1828 on a strictly undenominational basis of what has now become University College, London, provided a teaching institution of University rank free from all restriction of tests. The University of Durham obtained its charter in 1837. In its original conception it followed closely the lines of Oxford. It was partly endowed out of the funds of the Sec and Chapter of Durham. The Colleges in which the other English Universities originated were founded as follows: Owens College, Manchester, 1851; Yorkshire College, Leeds, 1874; University College, Bristol, 1876; Firth College, Sheffield, 1879; Mason College, Birmingham, 1880; University College, Liverpool, 1881. Created to minister to local needs and supported largely by local benefactions, they were naturally closely associated with local industries and from the first laid stress upon the study of mathematical, scientific, and modern subjects. The Royal College of Science and the Royal School of Mines originated in a Technical School formed in 1851 in connexion with a Museum of Practical Geology. They, together with the City and Guilds (Engineering) College, founded in 1881, became integral parts of the Imperial College of Science and Technology which was established in 1907 with the declared purpose of giving the highest specialized instruction and providing for research in the various branches of science, especially in its applications to industry. A University of Wales was projected early in the fifteenth century and the project was revived in Cromwell's time, but it did not materialize until 1893. The constituent colleges at Aberystwyth, Cardiff, and Bangor were founded in 1872, 1883, and 1884 respectively. They are thoroughly indigenous to the Principality, much of the funds having been collected in very small sums from workpeople at the doors of churches and chapels. The two modern Irish Universities both date from 1909. In 1850 a Royal Charter was granted to the then recently established Queen's Colleges of Belfast, Cork, and Galway, constituting them a Federal University which was absorbed in 1880 in the Royal University. University College, Dublin, representing the Catholic University established by the Irish Bishops

in 1854, became with the Cork and Galway Colleges in 1909 constituents of the National University of Ireland, while Queen's College, Belfast, became the Queen's University of Belfast

WOMEN were first admitted to Degrees by the University of London in 1878 Bedford College had already been founded in 1849, the three other colleges for women in connexion with the University of London were founded, Westfield in 1882, Holloway in 1886, and King's in 1902 Of the Cambridge colleges Girton originated at Hitchin in 1869, and was removed to the near neighbourhood of Cambridge in 1873, Newnham was founded in 1880 The colleges at Oxford were opened, Lady Margaret in 1878, Somerville in 1879, St Hugh's in 1886, and St Hilda's in 1893 Cambridge admitted women informally to Tripos examinations in 1872 and adopted, October 1921, a proposal that it should take power to confer on them by diploma Titles of Degrees Oxford admitted them to examinations in 1884 and to degrees and full membership in 1920 Women have been admitted to the Universities of Scotland since 1892, Durham since 1896, Dublin since 1904, and to all the modern Universities from their foundation

Unlike those of most other countries, the Univs of the United Kingdom have been, since their origin, independent of State control Another distinguishing characteristic of British Univs, as compared with those of the Continent of Europe, has from the earliest days been the provision of halls of residence, or COLLEGES, in which students live as members of a community, with the privileges of social intercourse and subject to the mutual influence which corporate life exerts

ADMISSION AS AN UNDERGRADUATE Before inserting a student's name in *matricula* all Univs exact evidence that the applicant's intellectual equipment fits him to undertake a course of study for a degree

Matriculation examinations covering the usual subjects of education in a secondary school are held by the Univs of Durham, London, Wales, Belfast, Dublin, Ireland (NUI), and the Joint Board of Manchester, Liverpool, Leeds, Sheffield, and Birmingham Analogous exams are held by Oxford ("Responsions"), Cambridge ("Previous Examn"), and the Scottish Univs Entrance Board ("Preliminary Examn"), and these must be passed (or exemption on the ground of having passed equivalent exams must be obtained) by all students proceeding to degrees, though not necessarily before entering upon courses of study in the Univs Many of the Oxford and Cambridge Colleges make the passing of Responsions or the Previous or equivalent exams a condition of admission to the College Bristol has discontinued its matric examn as superfluous in view of the institution of the School Certificate and Higher Certif exams (v *infra*), and the admission to them of candidates not presented by schools Durham has followed Bristol's example so far as the Colleges at Newcastle are concerned

A Matriculation Examination for persons of mature years has been instituted by the above-mentioned Joint Board (v App XXI), and

Belfast Wales permits matriculation of persons of 23 or more years of age on special recommendation by a constituent College. See also p 95

School Examinations—England In 1918 there came into operation a scheme originated by the Board of Education in consultation with all the Univs of England for co-ordinating Secondary School exams. Under this scheme the following are recognized by the Board as approved—

I As "First Examinations," suitable for pupils about the age of 16, the standard being such that a Pass with Credit in the three main groups of School subjects (English subjects, Foreign Languages, Mathematics and Science) would entitle a candidate to admission to a Univ,—The "School Certificate" exams of the Oxford and Cambridge Schools Exams Board, of the Oxford Delegacy of Local Exams and the Cambridge Local Exams Syndicate (formerly known as "Senior Local" exams), of the Univs of Bristol and Durham, and of the Northern (Birm, Leeds, Liv, Manc, Sheff) Univs Joint Matricn Board, "The Central School" examn of London, and the School Certificate examn of the Central Welsh Board

II As "Second Examinations," suitable for pupils about 2 years older, framed on the assumption that the candidate has, after the stage marked by the first examn, followed a more specialized course,—The "Higher Certificate" exams of the Oxford and Cambridge Schools Exams Board, Bristol Durham, the Northern Univs Joint Board, London, Oxford (Delegacy for Local Exams) Cambridge (Syndicate for Local Exams), and the Central Welsh Board

With a view to securing equality of standard and the acceptance of the certificates by Univs and Professional Bodies, the Board of Education exercises a co-ordinating authority with the help of a "Secondary School Examinations Council" composed of 23 representatives of the Examining Bodies, County Councils Assocn, Assocn of Municipal Corporations, Assocn of Education Committees, and Teachers' Registration Council. Provision is made for ensuring that teachers in the Schools are brought into touch with the Examining Bodies (supplied in all cases by the Univs), that a School is examined, if it so desires, on its own syllabus, unless the Examining Body considers it inadequate, and that estimates of the merits of their candidates in each of the subjects offered by them if submitted by Head Masters and Head Mistresses are taken into account in the award of certificates

Schools are not required as a condition of recognition for grants to take these exams, but Schools on the grant list entering pupils for them under conditions approved by the Board receive an additional grant in respect of the examn fees of each pupil so entered. Schools are warned against determining their organization or curriculum exclusively or principally with reference to the requirements of any examn. The arrangement of organization or curriculum for the purpose of preparing any pupils or Form for any examn not approved by the Board is expressly forbidden.

Among the functions of the Secondary School Exams Council is

negotiation with Univs. and Professional Bodies for the acceptance of the examn certificates as exempting the holders from certain other examns. They are now accepted, subject to various qualifications, by all English Univs. and by a number of professional bodies (v. Appendices), as exempting from entrance examns. The "Second Examinations" are also recognized by many Univs. for exemption from Intermediate Exams. and for admission to Honours courses, etc.

Wales. The School Certificate of the Central Welsh Board showing a pass with credit at one and the same examn. in all the required subjects of the matricn. examn. is accepted by the Univ. for matricn., so, also, are certifs. of the other First Examns. (except Durham's), the Scotch Educn. Dept's Leaving Certif. (Higher Grade), and the Intermediate Examn. (Senior Grade) of the Ministry of Educn. for Northern Ireland.

Scotland. On December 31, 1918, there came into operation Ordinance No. 70 (General No. 3) of the University Courts of the four Scottish Univs. as to Admission for purposes of graduation. This defines the normal test of fitness as "the production of evidence duly attested by a competent authority of the satisfactory completion of a suitable course of secondary education," and sets up an Entrance Board to regulate the application of this principle. This Board, which has superseded the Joint Board of Examiners for the Scottish Univs., will provide by "General Regulations" for the recognition of Group Certifs. of the Scotch Education Dept. and, in the case of Schools in Scotland not regularly presenting candidates for these certifs., other evidence of completion of suitable courses. It will similarly provide for the recognition of Leaving or other certifs., in the case of applicants from outside Scotland. The admission of applicants who, owing to exceptional circumstances, have not been able to fulfil the normal conditions will be provided for by "Special" Regns. In the meanwhile, the Preliminary Examn. Regns. of the Joint Board are continued (vide p. 220).

Ireland. The Senior Grade examn. of the Intermediate Education Board of Ireland is accepted, subject for subject, in lieu of the matricn. examns. of Dublin, Nat. Univ. of Ireland, and (subject to special conditions in respect of Maths.) Belfast. Belfast and the N. U. I. also accept, subject for subject, the Scottish Leaving Certif. (Higher or Hons.), the Higher Certif. of the Ox. and Camb. Schools Examn. Board, and (Belfast only) the Bristol School Certif. For admission to the Univ. of Dublin the Senior Lecturer is now allowed to recognize examns. as "equivalent" to the Senior Grade Intermediate, and does so recognize the Scottish Leaving Certificate and others.

ADMISSION OF STUDENTS FROM THE KING'S DOMINIONS OVERSEAS AND FROM FOREIGN COUNTRIES. Certificates which would qualify for admission to Univs. outside the United Kingdom are accepted as satisfying, in whole or in part, the matricn. requirements of the Univs. of the United Kingdom. Intending students should apply for information to the Registrar of the Univ. in which they desire to be

matriculated A summary of existing regulations is given in Appendix XXIII

The NUMBER OF FULL-TIME STUDENTS in Universities and University Colleges in receipt of Treasury Grant is given in the Returns published by the University Grants Committee for the year 1921-22 as 36,783, including 10,889 women The returns do not include the students of the Irish Universities, Oxford, Cambridge, Guy's Hospital Medical School and some other schools of the University of London, and University College, Exeter If the figures for these institutions are added a total of 54,000 is obtained—smaller, by 1000, than the total for 1920-21 The total may be distributed as follows Oxford and Cambridge (including 1400 women), 10,800, London, 10,900, North Midlands (Birmingham, Leeds, Liverpool, Manchester, and Sheffield Universities, the Manchester College of Technology and University College, Nottingham), 9,650, the rest of England, 3750, Wales, 2850, Scotland, 11,400, Ireland, 4650 The Grants Committee classify the 36,783 full-time students included in their tables Medicine, including Dentistry, 11,612, of whom 2595 were women, Arts, Theology, Law, Music, Commerce, Economics, and Education, 12,057 (6252 women); Pure Science, 6146 (1851 women), Engineering, Applied Chemistry, etc., 6960 (191 women). The above statistics do not include the students of the institutions other than Universities and University Colleges in which professional education of university grade is given in Theology, Teaching, Agriculture, Mining, etc., nor students reading privately for the external degrees of the University of London, for the Bar, etc Another consideration which makes difficult comparison with statistics of other countries is that the work of the higher forms of many of our secondary and "public" schools corresponds with the earlier stages of the work done in Colleges and collegiate departments of Universities elsewhere, *e.g.* in America In the United States of America in 1920 there were 334,000 men and 188,000 women in 670 universities, colleges, and professional schools. In many of these institutions the enrolment of part-time students constitutes a very large proportion of the total

NATIONAL UNIONS OF STUDENTS of England and Wales and of Scotland Vide p. 19

TERMS. The academic year is divided into three terms, which run from about Oct 1 to the middle of Dec, middle of Jan to end of March; middle of April to end of first week in July.

FEES are charged by all Universities. They vary somewhat in the different Univs., but are, on the average, for Arts £30, for Science £36, for Engineering or for Medicine £30 to £60 per annum in English Univs In Scottish, Welsh, and Irish Univs. the fees are lower.

CONFERENCES In May 1917 representatives of the Universities and University Colleges met in Conference to devise measures for the further encouragement of Post-graduate Study and Research. It was resolved that it was desirable that a degree should be instituted carrying the title of Doctor, obtainable by graduates of British and foreign Univs after a course of advanced study and research The conditions and regulations for such a degree were further considered at

adjourned meetings held on May 10, 1918, Jan 24, 1919, and March 14, 1919. The resulting legislation is summarized on p 14. Interchange of Teachers and Students, the Tenure of University Offices, Superannuation and Provision of Pensions, and other matters have been considered by Conferences specially convened at various times.

In May 1918 Mr Balfour summoned at the Foreign Office a Conference of representatives of all the Universities for the purpose of putting before them a proposal that on the invitation of the Govt of the U.S a Universities' Mission should be sent to America. At this meeting Mr. Balfour took the opportunity of pressing upon the Univs the desirability of establishing a representative body to which matters of interest to the Univs might be referred by Govt Departments. He urged the necessity of the creation of "an organ of expression" which would voice the desires and aspirations of the British Univs. and represent them in their relations with the Univs of other nations. At a subsequent meeting Conference resolved that "it is desirable in the interests of the Univs and of the nation that steps be taken to promote co-operation and mutual consultation among the Univs of Great Britain and Ireland, and, further, that the Vice-Chancellor or Principal of each Univ. or a deputy appointed by him, together with the Executive Committee of the Universities' Bureau, be appointed a Standing Committee to consider any matters of common interest arising out of the proceedings of this Conference or submitted to it by the Govt and to report from time to time to the Conference."

The Standing Committee of Vice-Chancellors has dealt with such matters as the presentation of the case for Increased Grants to Univs and Univ Colleges, leading to the Deputation to the President of the Board of Education and the Chancellor of the Exchequer which was received in Nov 1918, the relations of the Univs and Univ Colleges to national schemes for the Promotion of Research, the question of controlling the number of students in professional and other subjects, the Recognition of the Special Army Education Certif, as qualifying for matriculation, Fees for Courses of Undergraduate and for Post-graduate Study and the possibility of adopting a uniform scale in each of the several Faculties of all Univs of the U.K.; the relations of the Univs to Training Colleges for Teachers; qualification for admission to courses leading to the Ph D degree, recognition of foreign school-leaving certificates as qualifying for matriculation, salaries of teachers, recognition of records of students from Australia, Canada, and S Africa, specialization in certain subjects of study by certain Universities*, the mutual recognition of Matriculation examns. and Degree courses of study.

PROCEEDINGS OF THE STANDING COMMITTEE OF VICE-CHANCELLORS AND PRINCIPALS IN 1923. Amongst the more important matters dealt with were. Income-tax on funds invested for provision of pensions, Inhabited House Duty on hostels and other legal liabilities of Universities, the replenishing of the library of the Univ of Tokio, conference in connexion with the British Empire Exhibition, recognition of Indian University Degrees and Examns.

* Vide Appendix XXVII.

At the ANNUAL CONFERENCE of the Univs of Great Britain and Ireland held on May 12, 1923, the subjects discussed were (1) the financial outlook of the Universities, (2) Music as a University subject, (3) the Universities and training for administrative and municipal life, (4) Labour and the Universities. The President of the Board of Education, Rt Hon Edward Wood, was present, and took part in the discussion. An abridged report of the proceedings was printed. Copies are obtainable from the Universities Bureau, 50 Russell Square, price 1s.

The SECOND CONGRESS of the Univs of the Empire met in Oxford on July 5 to 8, 1921. All members received, and upwards of 300 accepted, offers of hospitality, either from a College or from a resident member of the Univ, for the four days during which Congress was to sit. Including members of the Univ of Oxford, who attended without enrolment, and those who returned to London and other places for the night, the attendance numbered about 550. The 18 Home Univs and 36 of the Univs overseas were represented, the visitors from overseas numbering 100. Subjects discussed "The Universities and the Balance of Studies," Chairman, the Marquess Curzon of Kedleston, Chancellor of the Univ of Oxford, "The Universities and the Teaching of Civics, Politics, and Social Economics," and "The Universities and Secondary Education," Chairman, Mr A J Balfour, Chancellor of the Univ of Cambridge and of the Univ of Edinburgh, "The Universities and Adult Education," Chairman, Viscount Haldane, Chancellor of the University of Bristol, "The Universities and Technological Education," Chairman, the Marquess of Crewe, Chancellor of the Univ of Sheffield, "The Universities and Training for Commerce, Industry, and Administration" and "The Universities and the Training of School Teachers," Chairman, Dr J C Irvine, Principal, in the place of the late Lord Balfour of Burleigh, Chancellor of the Univ of St Andrews, "University Finance," Chairman, Sir Robert Stout, Chancellor of the Univ of New Zealand, "The Universities and Research," Chairman, Lord Robert Cecil, Chancellor of the Univ of Birmingham, "Interchange of Teachers and Students," Chairman, Lord Kenyon, Pro-Chancellor of the Univ of Wales.

INTERNATIONAL CONFERENCES. Following the Mission to America already referred to, the British Univs in May 1919 accepted an invitation to appoint a delegation to visit the Univs of France as guests of the French Republic. In the autumn of 1919 a similar invitation was accepted from the Belgian Govt. In July 1920, 17 Professors of English, and in July 1921, 32 Professors of History, from many parts of the U S A and the British Dominions overseas, met their colleagues of the Universities of the U K in conference at the invitation of the University of London to discuss methods of research and teaching and to elaborate plans of co-operation. The Conference of 1921 synchronized with the opening of the University of London Institute of Historical Research. A Conference of British and Swiss Universities was held at

Bâle in 1922 By invitation of Columbia University a Conference of British and American teachers of English was held in New York in June 1923

INTERCHANGE OF TEACHERS AND STUDENTS between the Univs of the King's Dominions overseas and of foreign countries and the Univs of the U K In May 1919 a Committee was established for the purpose of promoting interchange This Committee was discharged in March 1922 and replaced by another consisting of the Interchange Correspondents of the Bureau in the various Univs

PARLIAMENTARY GRANTS TO UNIVS AND UNIV COLLEGES Prior to 1889 the English Univs and Univ Colls were dependent for their incomes upon endowments, subscriptions and students' fees In that year a Treasury Grant of £15,000 p a was made to the English Univ Colls and the College at Dundee At the same date each of the three Welsh Univ Colls was receiving £4000 p a, and the Scotch Univs a statutable Grant of £42,000, to which was added in 1892 under the Education and Local Taxation Account (Scotland) Act an annual Subsidy of £30,000 Between 1826 and 1895 sums amounting to £380,000 were contributed by Government towards the cost of enlarging the buildings of the Scottish Univs In Ireland the Queen's Colleges of Belfast, Cork, and Galway were established in 1845, the three buildings costing a total of £100,000 Each College received a Government Grant of £7000 p a The Queen's Univ was established in 1850, as an examining body Its annual Subsidy, vaying with the estimates, never exceeded £5000 In 1879 the Queen's Univ was replaced by the Royal Univ, also an examining body, but differing from the Queen's Univ in that students other than those of the Queen's Colls were admitted to its exams It also gave fellowships, scholarships, and prizes Until 1883, when, in accordance with the Act of Parliament by which it was established, it obtained its income of £20,000 p a out of funds released by the disestablishment of the Church of Ireland, its expenses were met in the same way as in the case of the Queen's Univ

In 1896 two Commissioners were appointed by the Treasury to inspect the equipment and report upon the work of the 12 Univ Colls in England and at Dundee participating in the Grant (£15,000 p a) of 1889 and 2 which were claimants for Grants In recognition of their increased activities and of additional support received from rates and private benefactions the total Grant was increased to £25,000 p a In their Report on the Univ of Birmingham (into which the Mason College had been transformed in 1900), the 11 other Univ Colls to which Grants had been assigned, and 3 claimants the two Commissioners appointed in 1901 submitted evidence of growth qualifying for increased financial aid, but owing to the South African War no action, with the exception of the addition of the Univ Colls of Reading and Southampton to the list, each receiving £1000, was taken by the Treasury until 1905, when the total Grant was increased to £100,000 In Jan 1906 a Permanent Committee was appointed by the Treasury "to advise the Department as to the distribution of the Grant in aid of Colleges furnishing Education of a Univ Standard" The Committee

forthwith proceeded to appoint two inspectors to report upon the 14 Univs and Univ Colls receiving Grants and 3 claimants. By this time, in addition to Birmingham, Leeds, Liverpool, Manchester and Sheffield possessed Univs, to each of which £2000 p a had been granted towards the cost of exams and the giving of degrees. The Univ of London also received £8000 p a.

In 1909-10 the Grant to the English Univs and Univ Colls and to Dundee was raised to £150,000. In 1907 a Treasury Committee was appointed "to inquire and report upon the University of Wales and its constituent Colleges" (The present Secretary to the Bureau was one of the two Commissioners in 1901 and again in 1906 and a member of this Committee). Following the issue of the Committee's Report in 1909 the Grant to the 3 Welsh Colleges was increased to £25,000. In 1919 the Advisory Committee was dissolved and the Univ Grants Committee appointed "to inquire into the financial needs of Univ Education in the United Kingdom and to advise the Government as to the application of any Grants that may be made by Parliament towards meeting them". The total Grant was increased to £1,000,000. Including Emergency Grants to Cambridge, Oxford, and Trinity College, Dublin, the sums assigned in 1920-21 were Annual Grants £909,240 (including Ireland £111,000), Non-recurrent Grants £304,000 (including Ireland £67,000). The total Grant for 1921-22 was £1,500,000, and in addition a sum of £500,000 was provided to assist the Institutions to provide retrospective superannuation benefit for their staffs, the grant for 1922-23 for Great Britain only was £1,169,000, which is also the amount of the estimate for 1923-24.

THE VARIOUS DEGREES CONFERRED BY THE UNIVERSITIES

THE older Universities have developed out of the Univs of the Middle Ages under the compulsion of internal forces, with very little influence from outside. The historical continuity of their evolution and their individual independence account for certain customs and usages in which they differ one from another and from Univs in other lands. Their titles of degrees afford an illustration of this. A Univ of the Middle Ages was a Guild of learned men. Teaching was the craft of the Guild, whose fellowship carried with it the right to teach. An admitted aspirant for fellowship was termed a bachelor. The members of the Guild recognized his apprenticeship after submitting him to certain tests or, as we should term them, exams. After gaining some experience in teaching, and successfully maintaining a thesis in public disputation, the bachelor attained to his degree. Admitted

into the Guild, with its *jus ubique docendi*, he was known indifferently as doctor, master, or professor. Still following this ancient usage, the degree in Scotland is the mastership, M A. In Oxford, Cambridge, and Dublin, where the examn for the bachelorship grew to be the determining test, the mastership, which carries with it all the privileges of membership of the Guild, or Senate, follows without further examn after an interval of two or three years, but in no case less than six years from matricn. For convenience in standardizing the attainments of their alumni, modern Univs have divided the degree into stages—usually described as the “first” and “higher” degrees—Bachelorship, Mastership, and Doctorate. The conferment of a first degree now marks the satisfactory completion of a three or four years’ Univ course.

At Oxford, Cambridge, Dublin, and in the Scottish Univs the Faculty of Arts is not subdivided. Except in Scotland, where the mastership (M A) takes the place of the bachelorship, B A is the “first degree,” whether the course leading to it be literary or scientific. In Trinity College, Dublin, it is necessary to secure the B A before proceeding to any other degree (except in music). In Scotland, as alternatives to the M A, the student may take as his “first degree” the B Sc, pure or applied (the standard being that of M A with Honours), the B L, or the B Com. At St Andrews the B Phil or the B Litt may be taken either conjointly with, or after, the M A. At Cambridge there is no B Sc. At Oxford there are special degrees, B Litt and B Sc (v. *infra*).

At all other Univs a course in Arts leads to the B A, in Science to the B Sc, in Commerce to the B Com, and similarly to other titles in other departments of knowledge.

Each of the Faculties of Theology, Law, Medicine, and Music has its own bachelor’s degree.

The signatures of the titles of degrees vary. In the following list the more usual signature is placed first.

Bachelor of Arts. B A

Bachelor of Science. B Sc, Sc B Dub

Bachelor of Science in its various applications. B Sc (Engineering), B Eng Liv, Sheff, B A I Dub, B Sc (Metallurgy), B Met Sheff, B Sc (Mining), B Sc (Mining Engineering) Glas, B Sc Tech, B Sc (Applied Chemistry), B Sc (Naval Architecture), B Sc (Veterinary Science), B V Sc Liv, B Sc Agr, B Agr Bris, Agr B Dub, B Agr Sc N U I, B Sc (Forestry), Agr B (Forestry) Dub, B Sc (Horticulture), B Sc (Estate Management), B Sc (Economics), B Sc (Public Health), B Hy Durh, B Sc (Pharmacy)

Bachelor of Commerce. B Com, B Comm N U I, B Com Sc Belf

Bachelor of Architecture. B Arch

Bachelor of Dental Science. B D S, B Ch D, Leeds, B Dent Sc Dub

Bachelor of Education. B Ed (of the Scottish Univs, two years after a first degree)

In Theology the title of the first degree is B D. In Law it is LL B,

B C L Ox Durh , B L or (open only to graduates in Arts) LL B the Scottish Univs In Medicine the signature of the title is M B , B M Ox , in Surgery, Ch B , B Ch Camb Dub Ox Wales, B S Durh Lond , in Obstetrics, B A O Dub N U I In Music, Mus B , B Mus Birm Durh Ox Wales

The Primate's Degrees Under powers conferred before the Reformation by the Pope, the Primate has the right to confer degrees. He has, on an average, conferred two doctorates in recent years

Honours Degrees

In all Univs of the United Kingdom the first degree in Arts (or Science, if a separate faculty) may be obtained as an ordinary degree, or with Honours

At Oxford the Honours Schools (B A) are in Litæ Humaniores, Mathematics, Natural Science (including Engineering), Jurisprudence, Modern History, Theology, Oriental Studies, English Language and Literature, Modern European Languages, and Philos , Politics and Economics

At Cambridge (Triposes), in Anthropology, Classics, Economics, English, Geography, History, Law (B A and LL B), Mathematics, Mechanical Science, Modern and Mediæval Languages, Oriental Languages, Moral Science, Natural Science, Theology

In Scotland (M A), in Celtic, Classics, Economic Science, English (Aberdeen, Geography), History, Latin and English, French, Italian, or Celtic, Mathematics and Natural Philosophy, Mental Philosophy, Modern Languages (St Andrews, Natural Science), Sanskrit, Semitic Languages

At Dublin (Moderatorships), in Mathematics, Classics, Mental and Moral Philosophy, Experimental Science, Natural Science, History and Political Science, Modern Literature, Legal and Political Science, Engineering Science, Celtic Languages, Oriental Languages

At London, B A Hons in Classics, Latin, Greek, Mathematics, Anthropology, Archæology, English, French, German, Celtic, Italian, Spanish, Portuguese, Dutch, Scandinavian Langs , Russian, Polish, Czech and Slovak, Serbo-Croat and Slovene, Indo-Aryan, Arabic, Persian, Hebrew and Aramaic (including Syriac), Chinese, Philosophy, Psychology, History, Sociology, Geography, B Sc Hons , Mathematics, Astronomy, Physics, Chemistry, Geology, Botany, Zoology, Physiology, Human Anatomy and Morphology, Psychology, Anthropology, Statistics, B Sc Hons (Economics), B Sc Hons (Engineering), B Sc Hons (Mining), B Sc Hons (Metallurgy), B D Hons , LL B Hons , M B , B S Hons , B D S Hons

In other Univs Honours are obtainable in a variety of the subjects named above and others

Recognition of Study at other Universities

UNDERGRADUATES The Univs of Bristol and Leeds accept attendance for 1 yr at any Univ requiring residence as a qualification for a

degree At London any person who has passed the external Intermediate examn before registering as an Internal student may take the Final Examn after a 2 yrs' course and qualify for a degree in the subsequent year At Oxford members of certain Affiliated Colleges of the United Kingdom, and of certain approved home, colonial, and Indian Univs, who have attended lectures for at least 2 yrs and attained a prescribed standard, are allowed to count the first term kept by residence as their fourth term At Cambridge a similar privilege is allowed to students of "Affiliated Institutions" At Dublin students who have spent 2 yrs in Arts studies at certain Univs (see list on p 288) and have passed the examns belonging to that period are given credit for the first academic year At Durham a similar concession is made to students of science In the Scottish and certain other Univs attendance at lectures and examns passed in other Univs may be recognized by the Board of Studies, or Senate, after consideration of each case As regards Belfast, see p 281

GRADUATES The remission to graduates of any other Univ (or of an approved Univ) of 2 yrs of the 4 yrs' course is made by the Univ of Dublin, of 1 yr of the 3 yrs' course by the Scottish Univs and by the Univs of Bristol, London, and the N U I At Oxford graduates of a home Univ and others, being over the age of twenty-one, who can satisfy the Education Committee that they have received a good general education, are eligible to apply for admission to an approved course of special study and research for the degree of B Litt or B Sc, and, if successful, may supplicate for the degree after completing 2 yrs of residence At Cambridge graduates suitably qualified are admitted as Research students and may, after the satisfactory completion of a 2 yrs' course and the submission of a dissertation, obtain the degree of M Litt or M Sc At Dublin a graduate of any approved Univ who possesses a degree the equivalent of Moderatorship may, after 1 yr of advanced study and research, present himself for examn for the degree of Sc B Certain Univs which have not adopted ordinances to that intent are prepared to consider applications from graduates of other Univs who desire to read for higher degrees for remission of standing or exemption from examinations

Higher Degrees

M A At Cambridge a Bachelor of Arts may, without further examn, proceed to the M A at the close of the 6th yr after the end of his first term, at Oxford in the twenty-first term after matriculation, at Dublin 3 yrs after passing the B A examn At Durham and Sheffield graduates in Honours (Durham—1st or 2nd class) of 3 yrs' and 1 yr's standing respectively are admitted to the Mastership without further examn, other graduates must pass the M A examn Other Univs exact a further period of study from their own graduates, followed by the presentation of a thesis, or an examn, or both, of 1 yr at Birmingham, Leeds, Sheffield, and the N U I, of 1 yr from graduates with Honours, and 2 yrs from others, at Bristol, Manchester, and Wales, of two years from all graduates at Liverpool and London Graduates

of approved Univs can obtain the Mastership after 1 yr of advanced study and research at Birm, Belf, and the NUI, after 2 yrs at Bris, Leeds, Liv, Lond, Manc, Sheff, Wales. At London a thesis is required from Internal students in all branches, except Mathematics, in which it is optional, and an examn. At Leeds, Liverpool, and Manchester persons who have not graduated can obtain the MA degree after a course of advanced study and research extending, usually, over 3 years.

M Sc This degree is not conferred by Oxford, Dublin, or the Scottish Univs. At other Univs it can be obtained by graduates of the Univ under conditions similar to those for the MA. At Durham, by graduates, B Sc, of 2 yrs' (Sheffield 1 yr's) standing who took first or second class Honours, without further test. At Leeds, by graduates, B.Sc., with Honours, of 1 yr's standing (other Bachelors of any Faculty of 2 yrs' standing), after research (thesis required). At Liverpool, by graduates, B Sc, with Honours, after 1 yr's higher study (thesis required). At London, by Internal students of 1 yr's or 2 yrs', by External students of 1 yr's standing from B Sc with thesis (optional in Mathematics) and examn. At Manchester, by graduates, B Sc, of 1 yr's standing after thesis and examn (at the discretion of the Faculty). At Cambridge the degree is conferred upon Research students (v p 53). In other Univs which confer the degree, graduates of approved Univs can obtain the M Sc on terms similar to those for the MA, at Durh after 2 yrs' advanced study in the Univ.

Other titles of Mastership conferred by various Univs—M Litt, M Com, LL M, M Mus, MAO, M Ch, Ch M, M Ch Orth, M D S, M V Sc, M H (Hygiene), M Eng, M Sc Tech, M Met, M Arch, M Ed.

Ph D All the Univs of the United Kingdom now confer the degree of Philosophiæ Doctor. Candidates entering upon a course of advanced study and research for this degree must be at least 21 (Oxford—22, Brist, Liv, Durh, Wales, Dub—no minimum age), must ordinarily be graduates either of the Univ or of some other approved Univ, must have pursued their studies at a Univ or Univs for a period of at least 3 yrs (Oxford—4, London—2, Dublin—not specified), must produce evidence of fitness for the proposed course of study and research. The course for the degree extends over 3 yrs, except in special cases in which, on the ground of the candidate's previous training and attainments, it may be reduced to 2. At its termination the student must submit a dissertation and may be required to qualify also by examn. The degree is granted in any faculty in which the Univ is prepared to receive advanced students.

A candidate for the degree of Ph D, as an External student of the Univ of London, must have graduated in the Faculty of Theology, Arts, Science, Engineering, or Economics in this University not less than 2 academic yrs previously.

Litt D and *Sc D* The Doctorate in Letters or in Science is conferred upon Masters of Arts or Science (Wales and Dublin, Bachelors

or Masters) distinguished by their contributions to the advancement of learning or science. The claim to the degree must be based either upon a special thesis, as at London, or upon published works. In certain Univs the Faculty may require the applicant to appear for examn. An applicant for the Doctorate must be of 3 yrs' standing from graduation at Dublin, N U I (for D Sc Pub Health), 4 yrs' at Manchester, London (for D Sc and External D.Lit), 5 yrs' at Birmingham, Sheffield, N U I (for D Litt, D Litt Celt, D Sc), and the Scottish Univs, 6 yrs' at Belfast, Durham (for D Sc), Leeds, Liverpool (5 yrs from M A or, for D Sc, from M Sc or Ph D), Bristol, Cambridge, 7 yrs' at Oxford, London (for Internal D Lit), 10 yrs', Univ of Wales (3 yrs from M A, 2 yrs from Ph D), Durham (for Litt D).

Graduates of other Univs who have been admitted to the degree of M A or M Sc (Oxford M A, B Sc, or B Litt, Dub B A) can proceed to the Litt D or Sc D under the prescribed regulations. In Scotland Honours graduates of approved Univs of 5 yrs' standing who have spent the equivalent (4 terms) of two winter sessions in research at a Scottish Univ, have submitted a satisfactory thesis or published work, and have, if required, passed an examn, are admitted to the Doctorate. At Bristol the degree of D Sc can be obtained without previous admission to the M Sc. At London and Manchester a candidate for the Doctorate may be specially exempted from the examn for M A or M Sc.

D Hy (Durh) 2 yrs from B Hy, examn, thesis.

Degrees in Divinity

B D is conferred after examn in the Scottish Univs and the Univs. of Durham, London, Manchester, and Wales, after examn and submission of a thesis at Dublin, after examn and the submission of a dissertation and published works at Cambridge (examn may be omitted) and at Oxford. At London the course must extend over 3 yrs, subsequent to matriculation. In Scotland a candidate must be M A of a Scottish Univ who has taken a theological course in a specially recognized institution, or a graduate of an approved Univ who has taken a complete theological course of at least 2 yrs in the Univ conferring the degree, at Dublin, a B A of 3 yrs' standing, at Durham, a man of 25 yrs of age, who is either a graduate of 2 yrs' standing or the holder of the Diploma in Theology, in Wales, a graduate who, subsequent to graduation, has studied for 3 yrs at one of the Associated Theol Colls of the Univ, at Cambridge, a candidate must be M A. or LL M, at Oxford, a candidate must be a M.A. or must be 26 yrs of age, have followed a course of study in Christian Theology extending over 6 terms, and resided at the Univ during 6 terms.

D D In Scotland the degree is conferred *honoris causa tantum*. At London it is conferred upon B D's who took Honours in at least one subject, on presentation of a dissertation, followed by an examn,

if the examiners so desire. At other Univs it is conferred in consideration of published works, or a dissertation (and, at Oxford, a *viva voce* examn, if the judges so desire). The requisite standing is, at Cambridge and London, 5 yrs from B D, Dublin, 8 yrs from B A, Durham, 10 yrs from B A, Manchester, 4 yrs from B D (or 6 yrs for B D's of other Univs who have studied for 2 yrs at Manchester), Oxford, 14 yrs from matricn, or, if he was admitted to the degree of B D as a graduate of another Univ, the candidate must have attained the age of 33, Wales, 6 yrs from B D.

Degrees in Medicine and Surgery

M B, Ch B The regulations for these degrees are practically uniform. Preliminary examinations satisfying the requirements of the General Medical Council (see Appendix XI) Registration as a medical student by the G M C is recommended. Satisfactory attendance during at least 5 yrs at courses of study and hospital practice. Four examns (in some Univs grouped as three or two). All examns must be passed at the Univ granting the degree, with the exception of the first, in Chemistry, Physics, and Biology, from which a candidate may be exempted if he has passed an equivalent examn at the Univ, or elsewhere (Scottish Univs, Birmingham, Bristol, Dublin for S African students only, Durham, London, Oxford Senior Students, Sheffield). Study in the Univ for at least 3 yrs, except for the degrees as an External student of the Univ of London, who must study for 1 yr in a Univ of the United Kingdom, or for 2 yrs, Scottish Univs, Leeds, Liverpool, Manchester, for 1 yr College of Medicine, Newcastle-on-Tyne (Durham). The Univs of Oxford and Cambridge exact 3 yrs' residence, but allow students to do any or all of their medical work at other recognized medical schools. At Oxford, Dublin, Univ of Wales, candidates must graduate B A (or B Sc, Wales) before admission to a medical degree.

M D Candidates must be M B, Ch B of, usually, 2 yrs' standing (Oxford, 10 yrs from matriculation. Cambridge, M B of 3 yrs', or M A of 4 yrs' standing, Sheffield, M B of 1 yr's standing, Dublin, of M A standing, N U I, M B of 3 yrs' standing). A dissertation is compulsory in almost all Univs, followed by an examn, unless the examiners pronounce the dissertation to be of such merit as to render further examn unnecessary.

Ch M Regulations similar to those for M D.

D Ch (Durh) Candidate must have devoted, subsequently to having obtained a registrable qualification, 3 yrs (including one at least in the Univ and 6 months at least abroad) to the study of Surgery and ancillary subjects.

Degrees in Dentistry and in Veterinary Science are obtainable under somewhat similar conditions

Degrees in Law

LL B (or *BCL*), obtainable with Honours or as an ordinary degree. In the Scottish Univs candidates must have graduated *MA*, at Dublin, Durham (*BCL*), National University of Ireland, *BA*. At Durham candidates must be of 4 yrs' standing from *BA*. In Wales the course extends over 3 yrs for a pass degree and 4 yrs for an Honours degree. At Belfast graduates of this or of some other Univ are eligible for the degree after a 1 yr's course in Law, at Oxford, after a 2 yrs' course, if they obtain Honours in the *BCL* examination. At Sheffield a graduate of a Univ of the United Kingdom who has attended for 1 yr the intermediate course and for 1 yr the Final course in Law and for 2 yrs studied in a recognized institution, may be a candidate for the degree. In the majority of Univs there are two exams, Intermediate and Final. For *BLV* p 241

LL M. Cambridge, Leeds, Liverpool, Manchester, Sheffield, Wales. By standing for graduates in Law with Honours, except at Leeds and Manc, where a dissertation must be presented. For others, after examn or (Camb) dissertation, or both (Wales). Liverpool requires 2 yrs of approved study.

LL D (or *DCL*). By the Scottish Univs the Doctorate is awarded only *honoris causa tantum*. Other Univs, unless the degree be awarded *honoris causa*, require the submission of a thesis, dissertation, or published works, and may require attendance at an examn, in Dublin a candidate may elect to undergo examn in lieu of offering a thesis, etc. The requisite standing for the Doctorate is, at London, 2 yrs from Honours *LL B*, Dublin, 3 yrs from *BA*, Manchester, 4 yrs from *LL B*, National Univ of Ireland and Sheffield, 5 yrs from *LL B*, Oxford (*DCL*), 5 yrs from *BCL*, Cambridge and Liverpool, 5 yrs from *LL M*, Leeds, 6 yrs from *LL B*, Durham (*DCL*) and Wales, 10 yrs from graduation or 3 yrs from *LL M*.

Degrees in Music

The degrees of *Mus B* (or *B Mus*) and *Mus D* (or *D Mus*) are conferred by the Univs of Cambridge, Dublin, Durham, Edinburgh, London, Manchester, Oxford, and Wales, *B Mus* and *M Mus* Birmingham, *Mus M* Cambridge and *M Mus* Wales.

Mus B. At Birmingham, Cambridge, Dublin, Edinburgh, London, Manchester, and Wales, students must pass the same Entrance examn. (Matriculation, Previous, or Preliminary) as students in Arts, with, at Birmingham, where the degree is an Honours degree, an examn in theory and in execution. At Durham they are admitted on a *testamur* as Students of Music. At Oxford they must pass either Responsions or the Preliminary for Students of Music, in which, if two of the three languages, French, German, Italian, are taken, neither Greek nor Latin is obligatory. In Wales a student must attend an intermediate class in Arts or Science in addition to the Music course. Residence is not

obligatory at Dublin, Durham, or Oxford At Edinburgh students must study Music in the Univ for one whole winter session As a rule, the course extends over 3 yrs with two, or three, examns, including an exercise for the Final examn

Mus M Conferred 3 yrs (Wales—2 yrs) after the *Mus B* for original work and dissertation (Birmingham), after examn and exercise (Cambridge, Wales)

Mus D Conferred at Cambridge on graduates not less than 30 yrs of age, in recognition of distinction as Composer, in Wales (*D Mus*) on *B Mus* of 10 yrs' or *M Mus* of 3 yrs' standing on consideration of original compositions, at Edinburgh on *Mus B*'s of 3 yrs' standing, after examn as Composer, Executant, or Theonist or Historian (Dissertation), and also *honoris causa tantum*, at Dublin on *Mus B*'s after further examn or practical test, at London on *Mus B*'s of 2 yrs' standing, Oxford 3 yrs', Manchester 4 yrs', Durham and NUI 5 yrs', after exercise and examn

NATIONAL UNIONS OF STUDENTS

A NATIONAL UNION OF STUDENTS of the Univs and Univ Colleges of England and Wales was formed in Feb 1922 "to represent the students of this country nationally and internationally," and to promote their educational and social interests in entire independence of all political or religious propaganda. They are affiliated to the *Confédération Internationale des Étudiants*. They maintain correspondence with students' unions in foreign countries, and have been specially active in promoting foreign travel of English students and their intercourse with students abroad. *Address*—The University Union, Malet Street, London, W C 1.

NATIONAL UNION OF STUDENTS OF SCOTLAND Each Students' Representative Council appoints annually an Inter-Academic Committee. The four Committees form the Executive Committee of the N.U.S., under the presidency of the President of the S.R.C. Conference. The N.U.S., which is affiliated to the *Confédération Internationale des Étudiants*, charges itself with the collection and distribution of information concerning student activities, literature, and travel within Scotland and abroad. Its office is, S.R.C. Office, The Univ., Edinburgh, to which all communications should be addressed.

MIDLAND INSTITUTE Students are admitted to Intermediate Arts examn as Internal students

SALTLEY TRAINING COLLEGE Students taking the 4-yr course are admitted to the Intermediate Arts examn as Internal students

HANDSWORTH AND LICHFIELD THEOLOGICAL COLLEGES Students can take the 2nd and 3rd yrs for the B A in their own Colls

GENERAL INFORMATION

The Univ, a development of the Mason College founded by Sir Josiah Mason in 1880, was incorporated by Royal Charter in 1900. The Charter prescribes instruction in all branches of a liberal education, and such instruction especially as may be of service in the manufactures, commerce, and industrial pursuits of the Midlands. Arts, Medicine, and the Biological departments are still housed in the buildings of Mason College in the centre of the city. Other buildings have been erected and equipped at a cost of £750,000 at Bournbrook on a site of 40 acres.

LIBRARY, about 75,000 vols. **MUSEUMS**, Anat, Dent, Geol, Zool. **LABORATORIES** Chemical (with special organic, phys, electro-chem, analytical, and public health depts), Engin, Metallurgy, and Mining (exceptionally well equipped and including coal-mining research lab, expl coal-mine and oil-boring plant, petroleum engineering being a speciality), Brewing, Power-station supplying whole Univ with lighting, heat, and power. A small **OBSERVATORY** is attached to the dept of Physics. **HOSPITALS** (600 beds) available for clinics—General, Queen's, and many special.

FACULTIES Arts (including Music), Science (Pure and Applied), Medicine (including Dentistry and Public Health), Commerce. *Departments of Education* (training for teaching in primary and secondary schools), Legal Studies, Social Study, Industrial certificates. *University Research Committee*

MATRICULATION See Appendix XXI

DEGREES, ETC B A, B Mus, M A, M Mus, D Phil, D Litt, B Sc (in Pure Science, or in Engineering—Civ, Elec, or Mech, Metallurgy, or Mining), M Sc, D Sc, M B, Ch B, B Sc (Pub Hcalth), B D S, M D, Ch M, M D S, B Com, M Com, Ph D (in any Faculty), LL D (Honorary).

No degree can be obtained without attendance upon prescribed courses in the Univ extending over at least 3 academic yrs after matric except in the case of graduates of other Univs, who are, under certain conditions, admitted to the 1-yr courses for the M A and M Sc and to 2 yrs' courses for the B Sc (courses in technical subjects), B Com (one year may in exceptional cases be taken elsewhere), Ph D (v p 14), M D, or Ch M.

B A Honours schools in Classics, French, German, Engl Lit, Hist, Social and Polit Sc, Philos, Maths, Music

In the B Com courses one-third of the student's time may, if he chooses, be devoted to work in Applied Science

The B Sc with Honours requires 3 yrs after the Intermediate standard has been reached. The B Sc courses in Engineering cover 4 yrs. Those in Mining involve practical work underground. Graduates of Oxford who have obtained the Ox Dipl in Scientific Engin and Mining are eligible, subject to certain provisos, for the B Sc in Engin, Mining, or Metall after 2 yrs' study in Birmingham

Med students may spend their final yr at any school or schools of Med recognized by the Univ, and the Senate may recognize exams passed therein as exempting from the 1st Med examn. They may obtain the B Sc as well as their Med degree by devoting 6 yrs after the pre-medical year instead of 5 to study in the Univ

Candidates for the B Mus (Honours) must have passed the matricn or an equivalent examn and an examn in the Rudiments of Music, and power of performance on some musical instrument

The M A, M Com, and M Sc involve at least 1 yr of study after completing the course for the bachelorship

The M A may be taken in Educn and in Music as well as in the ordinary Arts subjects

The D Phil or D Litt, M Mus, and D Sc may be taken 3 yrs after the M A, B Mus, or M Sc

Advanced Standing Candidates who pass at entrance certain exams ordinarily taken after the first year of a degree course may take the final examn for the B A at the end of their second year and the M A at the end of their third year. Certain exams of other approved Univs and Examining Bodies are accepted as qualifying for such advanced standing

Diplomas Art Instructor's (2 yrs' course), for students of the Municipal School of Art, *Brewing* (3 yrs' course), Brewing Special for graduates (1 yr), Graduates' *Commerce* (1 yr course), open to graduates of any Univ who have passed an adequate test in accounting, *Mining*, *Social Study* (1 yr or, Higher Dipl, 2 yrs' course preparatory for public administration, charity organization, factory welfare, trade union official work, etc), Secondary, Primary, or Continuation School *Teachers'* (1 yr course), for graduates of a Univ of the U K or others equally qualified, *Dental Surgery* (4 yrs subsequent to passing a recognized Pre-Dental examn), *Public Health* (1 yr course) not less than 2 yrs after obtaining registrable qualification in Med, Surg, and Midw.

An *Industrial Certificate* class has been instituted under the control of a joint board of Univ and Trade Union representatives. This class provides two full days' instruction to members of Trade Unions, nominated by their Unions, in English Literature, Modern History, Economics, and Elementary Science. The work is organized by a special tutor, appointed and paid by the Univ. The class is held in all three terms of the Univ session, and at the end an Industrial certificate is awarded after examn. The class is a new departure, as it is not based on the principle of evening work but on full-time day work, and the instruction is provided by members of the Univ Staff. Evening classes are not provided by the Univ, this work being left to the Birm and Midland Inst, Munic Tech Sch, etc

RESEARCH A joint standing committee of lay members of council and academic members of senate co-ordinates research work in all faculties, formulates policies of research, obtains funds, and co-operates with Gov agencies and external bodies. Trust Funds (Spencer and Holcroft) amount to £10,000

FEES Matricn, £2 Tuition for B A, £75, B Sc, £75-£96, Engin, £221, Mining, £146-£198, Metall, £129-175, Med, including Hospl fees, £170 Exams, Interim and Final, for first degree, £10, except in Med, £20, and Engin, £12 10s Laboratory research fees average about £20

SCHOLARSHIPS for advanced students Walter Myers (Travelling), £150 for 1 yr, renewable, for research in Path or Clin Med, open to graduates in Med and Surg of Birm (who have also obtained the B Sc), London, Ox, or Camb, 10 Scientific Research, tenable for 1 yr (6 of £96 and 4 of £50 each), are offered annually

RESIDENCE For women there is a Hostel—Univ House, Edgbaston Park Rd (Warden), with grounds of 2½ acres, for 70 men students—Chancellor Hall, Augustus Road, Edgbaston The cost of board and lodging is from £2 2s upwards a week

An **APPOINTMENTS BOARD** (Secy —The Registrar) has been established

UNIVERSITY EXTENSION work includes Lectures and Tutorial Classes in the city and neighbouring towns

GENERAL INFORMATION

University College, Bristol, founded in 1876, was dissolved in 1909 on the incorporation by Royal Charter of the Univ of Bristol. The main buildings, including a large extension estimated to cost about £500,000, temporarily stopped by the war, but now being proceeded with, a new building for the accommodation of the Physics department at a cost approaching £200,000, and other projected additions, when complete, will cover a site of 16 acres near the centre of the city on high ground adjoining residential districts. The Municipal Museum and Art Gallery adjoin.

The TECHNICAL COLLEGE OF THE SOCIETY OF MERCHANT VENTURERS provides accommodation for and maintains the Faculty of Engineering of the University. Dean of the Faculty—Prof J Wertheimer, B A, D Sc, F I C.

LIBRARIES, 45,000 vols. LABORATORIES Scientific, Medical, and Engineer-
ing, all equipped for purposes of research. Agri-Horticultural station at Long

Ashton with Expt fruit plantations 268 acres devoted to research in fruit-culture, cider-making, plant diseases and their treatment, etc. Fruit and vegetable preservation research station at Chipping Campden, controlled by the Univ on behalf of the Ministry of Agt, for instruction and experimentation on a semi-commercial scale. Hospitals available for clinical study, 2 General (618 beds), Children and Women (108), Eye (40), in all 766 beds.

MATRICULATION In common with all other English Univs, Bristol holds School and Higher School Certificate Exams, at which candidates may qualify for matricn. It also recognizes, subject to certain conditions, School Certifs and Higher School Certifs approved as such by the Bd of Educn, Senior and Higher Certifs of the Centrl Welsh Boaid, Scottish Leaving Certif in Higher or Honours grade, Special Army Educn Certif, Matricn Examn of any Univ of the U K, Responsions of Oxford, Previous Examn of Cambridge, and graduation in any approved Univ, as qualifying for matricn. The Senate may also declare eligible for matricn a candidate educated outside the U K on proof of having passed equivalent exams, or, if from an Oriental country, of sufficient education and ability to follow instruction given in English.

DEGREE COURSES B A, B Sc, B.Sc. in Engineering—3 yrs, including at least 2 in the Univ, Honours in Arts and Pure Science—4 yrs, except for those who enter with Higher School Certif, on an evening class curriculum—6 yrs (Engineering 5 yrs), by research in case of a graduate of another Univ—2 yrs, "Sandwich" Scheme of Training for Engineers, including 30 mos in works—5 yrs, M B, Ch B—5 yrs, after passing a Prelim Science examn in Chem and Physics, B D S—5 yrs, including at least 3 in the Univ, B Agt—5 yrs.

Instruction given in Theological subjects in the Associated Colleges to undergraduates of the Univ by the Principal or teachers mentioned above is, for the purpose of the B A degree, deemed to be given in and by the Univ.

HIGHER DEGREES M A, D Litt, M Sc, D Sc (in Pure Sc or Engineering), Ch M, M D, Ph D (see p 14). Graduates of other Univs are placed practically on the same footing as graduates of Bristol as far as regards facilities for proceeding to all these except the Medical Degrees. Candidates who graduate with Honours in Science may take the M Sc one yr later. Otherwise the Mastership is not granted within 2 yrs after graduating. The M D may be taken 2 yrs after graduating in Med, the D Litt 4 yrs after the M A, and the D Sc 4 yrs (3, if devoted to original work in the Univ) after the M Sc.

DIPLOMAS Education (post-graduate) 1 yr, L D S 4 yrs, D P H (for fully registered medical practitioners of 1 yr's standing), 9 months, D V S M (for M R C V S of 1 yr's standing), Engineering 3 yrs (or evening classes 5 yrs).

CERTIFICATES Testamur in Educn, 1 yr, Continuation School Teachers' Certif, 1 yr, Testamur in Social Study, 2 or (Higher Testamur) 3 yrs, Engineering Apprentices, 2 yrs.

GENERAL INFORMATION

The SENATE, consisting, generally speaking, of all Masters of Arts and Masters of Laws who have retained their membership of the Univ by the fulfilment of prescribed formalities and payment of proper dues, has full power to legislate for the Univ subject to the Univ Statutes, and allows degrees, appoints most of the Univ officers, and elects the 2 members who represent the Univ in the House of Commons

The executive authority of the Univ rests in theory with the Chancellor, but as he is by custom a non-resident officer, it devolves in practice upon his deputy, the Vice-Chancellor, who is appointed every year from among the Heads of Colleges With the Vice-Chancellor is associated a Council of 16 members known as the *Council of the Senate*, which is elected under certain restrictions by (practically) the resident part of the Senate—known as the *Electoral Roll* This Council, besides its executive position, has also an important position in respect of legislation, as no Grace can be put to the Senate unless it has first received the sanction of the Council The Univ appoints *Syndicates* to administer various departments of Univ business and *Special Boards of Studies* to superintend Univ teaching and exams in the various subjects of study The system of teaching as a whole is under the supervision of a *General Board of Studies*, on which all the more important subjects of study are represented All proposals involving the spending of money are submitted by the Council to the *Financial Board*

The COLLEGES are corporate bodies distinct from the Univ. They possess and manage their own property, they are self-governing and elect their own officers, and for nearly all purposes they are independent of Univ control The connexion between them and the Univ, however, is of the most intimate kind The Univ is in part supported by contributions from them, and without any formal agreement to that effect the Univ and the Colls. do as a matter of fact recognize each other's regulations Nearly all the members of the Univ belong to the Colls, and all the members of the Colls belong to the Univ. The work of teaching is divided between the Univ. Profs, Lectrs, etc, and the more numerous body of College Lectrs

MATRICULATION is effected by signing in a register following upon admission as a member of a Coll or as a Non-Collegiate student, the Univ does not require any examn to be passed before Matricn., but an applicant for admission to a Coll must, in general, satisfy its authorities by passing the Coll Entrance examn. or otherwise that his attainments are sufficient to enable him to pass the Univ examns. in due course, and ultimately to proceed to a degree. In effect the *Previous* examn (*v. infra*) takes the place of the Matricn. examn of other Univs.

For admission as a member of a Coll or as a Non-Coll. student application should be made to the proper officer, namely, the Senior Tutor, Christ's, Cai, St John's, the Tutor, Clare, Cath, Corp, Down, Magd, Pet, Sid, one of the Tutors, Trin or Trin H, the Provost or Tutor, King's, the President, Queens', the Bursar, Selwyn, the Master of any of the other Colls, the Censor, Fitzwilliam Hall (Non-Coll students). It is important for those who wish to have rooms in Coll to apply for admission a long time beforehand.

As regards *Colonial and Foreign students*, see Appendix XXIII

ADMISSION TO ADVANCED STANDING I* A graduate with First Class Honours (or equivalent record) † or—provided that he passed, when qualifying for his degree, in English, 2 other languages, one of which is either Latin or Greek, and Maths—with Second Class Honours (or equivalent record) ‡ of an approved university at which he has attended classes not less than 3 years, will be accepted as an *Affiliated Student*, and will then be entitled to (1) be exempt from the Previous Examin, (2) reckon the first term kept by residence as the 2nd, 3rd, or 4th term for the purposes of all provisions respecting the standing of candidates for (a) Tripos exams, or for degrees in Medicine, Surgery, or Music, and (b) Degrees other than the ordinary B A Degree or Degrees conferred under the regns for Research Students, (3) secure such a degree in certain circumstances on one part or section of a divided Tripos.

DIPLOMAS. In addition to degrees, which are for the most part conferred only on its own members, the Univ grants 5 Diplomas which are open to other persons—in Geog, in Psych Med, in Pub Health, in Med Radiology and Electrology, and in Tropical Med and Hygiene, and 8 which are almost entirely restricted to members of the Univ—in Agric, Anthrop, Class Archaeol, Education, Forestry, Horticulture, Hygiene, and Oriental Languages, the diplomas in Anthrop and Orient Langs being open to non-members in certain exceptional circumstances only Among overseas Mental Hospitals recognized for clinical work for the Dip Psych Med are the Pretoria and the Gladesville (Sydney) *Certificates*, open to members of the Univ only, are conferred in Architecture (open to graduates only) and in certain foreign languages A *Divinity Testimonium* is granted on proof of diligent attendance at 6 courses of lectures

The Diploma in Hygiene, established in 1921 in response to a communication from the League of Red Cross Societies at Geneva, is intended for *foreigners*

who possess a qualification to practise medicine or surgery which, though not registrable in Great Britain, is recognized by the authorities of their own countries. The full course must extend over 9 months. The requirements are similar to those demanded for the English D P H except that no detailed knowledge of English public health laws is required.

The Univ makes provision for training candidates for the Higher Civil Services, Probationary Vice-Consuls, Indian Civil Service selected candidates, candidates for administrative appointments in Tropical Africa and other branches of the Civil Service and for service under the Govts. of Egypt and the Sudan. To meet the wants of Civil Service candidates a series of lectures supplementary to the courses for regular Tripos candidates has been arranged by the Board of ICS Studies, and by a Committee of Associated Colls. Detailed information may be obtained from the Director of Civil Service Studies, appointed by this Committee (G P Moriarty, M A, 1 Mill Lane), and from H. A Roberts, M A, Univ Offices, St Andrew's St, who is Secy to the Board of ICS Studies, Foreign Service Students Committee, Director of Studies for the General Consular Service, and Appointments Board.

A system of MILITARY INSTRUCTION has also been organized by the Univ. The Board of Milit Studies (Secy—Hon I M Campbell, D S O, 11111 H) are in direct communication with the War Office and responsible for the nomination of Camb Univ candidates for Regular commissions in H M Forces.

The TRAINING OF TEACHERS is under the management of the Teachers Training *Syndicate*, established in 1878 (Secy—F E E Harvey, M A, address—Warkworth House).

Exams for the Univ's *Certificate of Proficiency*, held in June and Dec, are open to students of certain colleges, and to teachers who have had at least a year's experience in an approved Secondary School, if their attainments are satisfactory.

Students of the *University Training College* (Principal—C Fox, M A, Ch1 address—Warkworth House) devote their first 3 yrs to reading for the B A degree, the 4th to professional training. Several scholarships and exhibitions are offered to intending schoolmasters who have been Bursars, Student Teachers, or Pupil Teachers.

There is also a Post-graduate Training Coll for Women. Principal—Miss M H Wood, M A Lond, Litt D Dub, Girton, address—Wollaston Rd.

Candidates are trained for HOLY ORDERS at Ridley Hall, founded in 1879 (Principal—A J Tart, D D Joh), or at the Clergy Training School, Westcott House, founded in 1881 (Principal—Rev Canon B K Cunningham, M A Trin). These and other similar instutns—the Westminster Coll, founded 1844 (Principal—J Skinner, D D Aberd, M A Joh, Presbyterian), Cheshunt Coll, founded 1768 (Resident Tutor—Rev E W Johnson, B D, Undenominational), and St Edmund's House, founded in 1896 (Principal—Rev T F McNulty, M A, Roman Catholic)—are not directly or definitely concerned or connected with the Univ. Cheshunt and Westminster Colleges were moved from Cheshunt and London in 1905 and 1899 respectively.

RESEARCH STUDENTS. Each application for admission must be accompanied by (i) a diploma or other cert of graduation at a Univ, (ii) a statement as to the course of research which the applicant desires to pursue, together with evidence of qualification, attainments, and previous study, (iii) a cert of declaration that the applicant has attained the age of 21 yrs. In exceptional cases requirement No (i) may be dispensed with. The application is not granted unless it appears (a) that the course of research can con-

veniently be pursued within the Univ, and (b) that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course

A Research student pursues his course under direction and supervision, prescribed by the Degree Committee of the Special Board of Studies concerned. If he wishes to obtain a degree elsewhere he may, after he has pursued his studies in the Univ for not less than 2 terms with regularity and industry, receive a *Certificate* to that effect signed by the V C. After a course extending over 2 yrs and residence in the Univ for at least 6 terms (Cambridge graduates, 3 terms) after admission as research students, the M Sc or M Litt may be obtained. For the Ph D (v p 14) 3 yrs are ordinarily required, including 2 (in special cases 1) in the Univ. In exceptional cases a course extending over 2 yrs instead of 3 may be accepted.

UNIVERSITY SCHOLARSHIPS open to graduates number about 57, and are worth about £5600 p a. In almost every instance they are open only to persons who have graduated in or are members of this Univ, and in some cases only to those who have kept a certain number of terms. For details see *Students' Handbook* (price 7s 6d, Univ. Press), which also gives details of *Entrance Scholarships*.

APPOINTMENTS (1) The University Appointments Board is concerned with appointments of all kinds (Secy—H A Roberts, M A, Univ Offices, Educational Secy—R. S Goodchild, M A), (2) the Scholastic Agency is concerned with scholastic appointments only (Director—Prof. W J Lewis, office at Mineralogical Museum).

WOMEN From 1872 women were informally admitted to Tripos exams in the Univ, and from 1881 have been formally admitted to the *Previous* examn, the Tripos exams, and certain exams in Med and Music. They were subsequently admitted to the courses and exams for the Diplomas in Agric, Horticulture, Forestry, and Geog, and for the Training of Teachers, and were made eligible for Certifs of Research. Finally in Oct 1921 a Grace admitting them to titular degrees was passed. Women students must reside either at Gtuton or at Newnham or within the precincts of the Univ under the Regulations of one or other of these colleges.

The UNIVERSITY LIBRARY contains over 900,000 vols, including many early printed books, and over 10,000 MSS. and 100,000 maps. It is entitled under the Copyright Act to a copy of every book published in the U K., and a large number of foreign books and periodicals are acquired by purchase. Each Coll. and Pub Hostel has a library. Some are interesting survivals of mediæval rooms kept in the state in which they were originally arranged. There are also many departmental libraries, such as the Class Archæol; the Seeley Memorial (works on Hist and Comp Politics originally collected by John Symonds, Regius Prof. of Mod. Hist. from 1771 to 1807, and added to by his successors); Economics, Law (Squire Law Library), Mod Langs, Moral Sciences, Bendall (Sanskrit, etc), Pathological School, Music collections in the Fitzwilliam Museum and Museum of Archæol., Conchol. and Ornithol. (in Museum of Zool), Robertson Smith (Oriental books), Selwyn Div. School. The Library of the Philos Soc maintains a special relation to all the Scientific Depts. and is very rich in sets of Journals and Scientific Transactions. The Balfour Library contains a large collection of books and periodicals on biological subjects. The annual budget of the Univ. library is about £14,000.

MUSEUMS of Art and Archæology. The Fitzwilliam (Director and Marlay Curator—S. C. Cockerell, M.A.) contains a large and valuable collection of

paintings, drawings, engravings, Egyptian and Greek antiquities, ceramics, coins, illustrated MSS, autographs and early printed books, the Museum of Class Archæol. (Curator—A. B. Cook, M.A. Qu.) contains a collection of casts illustrating the history of Greek sculpture.

The Museum of Ethnol. and Archæol. (Curator—L. C. G. Clarke, M.A. Trin. H.) has a large and increasing collection, including Saxon urns and ornaments, casts of Central American monuments, Egyptian stone implements, unique Fijian collection, and numerous others resulting from scientific expeditions by Cambridge men.

The "Museums of Science" include museums, laboratories, lecture-rooms, class-rooms, and workshops for Agric., Bio-Chem., Bot., Chem., Engin. (including Engine-room, Elasticity, Elec., and Hydraulic Labs., and drawing office), Exper. Physics, Hum. Anat., Ethnol., Forestry, Medicine, Mineralogy (collection very largely increased in recent years and one of the best in the country), Physiol., Psychol., Zool. and Comp. Anat. The Zool. Lab., in addition to providing for the ordinary work of the Dept. and for research, affords peculiar facilities for the study of diseases of animals and of economic entomology. The Museum of Zool. includes very complete series of vertebrates and invertebrates, the fishes obtained by Charles Darwin during the voyage of H.M.S. *Beagle*, a series of invertebrata from Naples, valuable collection of Polyzoa, extensive collection of marine animals from Pacific and Indian Oceans, and an important collection illustrating heredity, protective resemblance, and mimicry [Supt.—C. F. Cooper, M.A. Trin., Strickland Curator (Birds)—H. Gadow, M.A., F.R.S. (King's); Curator in Entom.—H. Scott, Sc.D. Trin.] The Sedgwick Museum of Geol. includes a fine collection of British and foreign building stones lately added to the Economic section. In addition to the labs of the School of Agric. there are Field Labs. covering about 10 acres, provided by means of Govt. grants for an Inst. for Research in Animal Nutrition; also a Univ. Farm of 200 acres and Plant-breeding Farm of 230 acres. The Botanic Garden has excellent facilities for study. The Molteno Institute for research in Parasitology, and a Low Temperature Station for research in Bio-Chemistry and Bio-Physics were established in 1921.

The OBSERVATORY (Director—Plumian Prof. of Astr.), about a mile from Cambridge, has a meridian circle of $8\frac{1}{2}$ in. aperture; the Northumberland equatorial 12 in. aperture; the Sheepshanks photographic equatorial $12\frac{1}{2}$ in., a number of smaller instruments, and a good library. The Solar Physics Observatory standing close to the older Obs. has the Newall telescope (25 in.), McClean coelostat and spectrograph, Huggins telescopes, etc. The Univ. has taken over charge (for the Govt.) of the Solar Physics Obs. formerly at South Kensington, receiving a grant-in-aid.

The CAMBRIDGE LOCAL EXAMINATIONS, instituted in 1858, are conducted at various places throughout the country and in the Colonies. Copies of the Regns. regarding the Junr. Local and School and Higher School Certificate exams. and the exams. (designed for teachers of not less than 20 yrs. of age) for Certifs. of Proficiency in Religious Knowledge and in English, may be obtained from the Secy. for Local Exams., Syndicate Buildings.

UNIVERSITY EXTENSION Lectures are delivered and classes in connexion with them held by a staff of about 40 itinerant lecturers in various towns in different parts of England, including places so distant as Southport, Newcastle, Gt. Yarmouth, and Exeter, under a system initiated in Cambridge in 1873. The characteristic features of the method of teaching adopted are (1.) the Lecture presenting the subject in broad outline, (2.) the Class, held for about an hour before or after the lecture, at which questions are given out by the

lectr., (iii) the short essays written on these questions, and (iv.) the examn. The grades of certifs are *Terminal*, awarded after a course of ordinarily 12 lectures; *Sessional*, for courses extending over not more than 2 yrs. and including at least 22 lectures; the *Vice-Chancellor's*, awarded to students who obtain Terminal or Sessional certifs. satisfying certain conditions and submit a satisfactory essay; and *Affiliation* certif, obtainable only at affiliated centres (Exeter, Leicester, and Southport) under special conditions. A *Travelling Library* is provided by the Syndicate for each course. The work is under the management of the Local Examns and Lectures Syndicate, and full particulars can be obtained from the Secy for Lectures, Syndicate Buildings (Rev. D. H. S. Cranage, Litt.D)

GENERAL INFORMATION

The Univ. was established by Act of Parliament in 1832 and reconstituted in two divisions in 1908. The College of Medicine, founded in 1832, became associated with the Univ. first in 1852, and more closely, as "The University of Durham College of Medicine," in 1870. Armstrong College was founded in 1871 as the Durham College of Physical Science, and assumed its present name in 1904. The Vice-Chancellorship is held in rotation by a representative of the Durham Colleges, College of Medicine, and Armstrong College for 2 years.

The Univ. has no teaching staff apart from those of the Durham Colls., the Coll. of Medicine, and Armstrong Coll. The Council of the Durham Colleges, the Coll. of Medicine, and Armstrong Coll. have respectively full power and authority to regulate teaching and discipline, and to provide for the appointment of all their teachers and other officers.

GENERAL INFORMATION

University College, Liverpool, founded by Royal Charter 1881, was admitted into the Victoria University, Manchester, in 1884. In 1903 the University of Liverpool was established by Royal Charter and the College was absorbed in it

LIBRARY, MUSEUMS, ETC. The library of the Univ contains about 95,000 vols., and includes the Rylands collection of early works on Geog and Astron., over 100 incunabula, and the final sheets of the "Constitutiones" of Clement V., printed at Mainz in 1460. In addition there are twenty-three Class Libraries in the Faculty of Arts and External Departmental Libraries for the Medical and Science Departments. **MUSEUMS AND LABORATORIES** Anat, Archæol (including a unique Hittite collection), Archit, Bact, Bio-Chem, Bot, Chem, Physical and Electro-Chem, Electricity (Applied), Embryol and Genetics, Engin (including facilities for aerial motor and propeller testing and other wind experiments), Geol, Hygiene, Laryngology, Materia Medica, Expl Med, Trop Med (including museum, animal houses, and specially warmed glass insectarium, and research labs at Liverpool, Sierra Leone and Manaos), Obst and Gynæc, Oceanog, Ophth, Path, Physics, Physiol and Histol, Surg Path, Tidal Research, Toxicology, Vet Anat and Path, Zool. The Port Erin (Isle of Man) Marine Biol Lab has been transferred to the Univ. by an Act of Tynwald. **HOSPITALS** available for Clinics, 4 general and 6 special, containing 1140 beds, which together constitute the clinical school. The trade of the port ensures frequent importations of infection. Special wards for Trop Diseases. Expeditions to Tropical countries organized for investigation or advice. Suitably qualified persons may enter the Laboratories for research work at prescribed fees.

FACULTIES Arts (with Schools of Archit, Social Studies, Local History and Records, Russian Studies, Departments of Civic Design, Commerce, and Educn), Science, Medicine (with Schools of Dent Surg, Hygiene, Trop Med, Vet Sc), Law, Engineering

GENERAL INFORMATION

[NOTE. *The University authorities desire that it should be clearly understood that they can accept no responsibility for any information concerning exams or procedure except such as is contained in their own official Regns These can always be obtained on application at the Univ. offices.*]

Central offices—South Kensington, S W 7 Telegraphic address—University, Southkens, London. Telephone—Kensington 7000.

The Univ. was constituted by Royal Charter in 1836 as a body empowered to grant degrees to students of approved institutions after examination, and, until 1900, its work was confined to the examination of students. The system whereby entrance to its exams was restricted to students of certain affiliated Colleges was abolished, except for exams in Medicine, in 1858. In 1878 its degrees were thrown open to women, London being the first of the Univs of Great Britain to adopt this policy.

In 1900 the Univ. was reconstituted so as to strengthen the ties between it and the institutions engaged in Higher Education within a radius of 30 miles. The Senate is empowered to admit as *Schools of the University* institutions situated within the administrative county of London and not carried on for the private gain or profit of the owners which provide education of Univ. standard, and is required to obtain reports at prescribed intervals on the efficiency of such schools. A special form of recognition may be given to an institution within the same area founded for research or the cultivation of any special branch of science or learning, and the Lister Institute of Preventive Medicine and the School of Oriental Studies have been admitted in this category. The Senate has power also to recognize as Teachers of the Univ. any members of the teaching staff of public educational institutions within a radius of 30 miles, whether Schools of the Univ. or not. Matriculated students of Schools of the Univ. or studying under such *Recognized Teachers* are eligible under certain conditions for registration as *Internal Students*, and are allowed, after pursuing Approved Courses of Study, to enter for the "Internal" exams. of the Univ. *External Students* may pursue their studies where and how they please, and are admitted, without any conditions as to attendance at Approved Courses, to exams for degrees in all subjects except Medicine, Mining, and Architecture. The exams for Internal and External students are in some cases separate, in others identical, but the statutes require that "the degrees conferred on both classes of students shall represent as far as possible the same standard of knowledge and attainments."

Since the reconstitution of the Univ, its two original colleges, University Coll. in 1905 and King's Coll. in 1908, have been incorporated in it, the Senate, which is the supreme Univ. body, taking over the responsibility for their administration.

LIBRARIES. The Libraries belonging to and connected with the Univ.

contain in the aggregate about half a million volumes, distributed over every branch of knowledge. The Univ. Library in the Central Building, S. Kensington, contains about 100,000 volumes and pamphlets. It provides well-equipped special collections to promote research work and also serves as a lending library from which students can borrow expensive works for home study. It includes the Goldsmiths' Library of Economic Literature (45,000 vols.), which is restricted to purposes of research and reference. The British Library of Political Science at the London School of Economics has 160,000 vols. There are, in addition, large departmental libraries in the several Colleges and various collections of books on special subjects, too numerous for mention. Access can also be obtained to the library of the British Museum, the largest in the world, with 2½ million printed books, the Record Office, and numerous other collections. Full particulars are given in *The Libraries of London: a Guide for Students* (v *infra*—Publications).

MUSEUMS Among the many Museums which, in addition to those belonging to the Schools and Institns of the Univ., are accessible to students in London are the British Museum (Antiq and Nat Hist); Horniman (Anthrop and Zool); London, Parkes (Sanitary Science); Practical Geol., Roy. Archit Soc's, Roy Coll. of Surgeons', Science, S Kensington (Mech., Nav, and Struct Engin, Phys, Maths, Chem, Physiol, Geol, and Biol); Sir John Soane's (Art and Antiquarian); Victoria and Albert, S. Kensington (Archit and Sculpture, etc.).

LABORATORIES The most important are mentioned in the sub-sections relating to the several colleges. The following are not attached to any college.

The Brown Animal Sanatory Institutions, 149 Wandsworth Rd., Vauxhall, S W 8. Superintendent—F W Twort, M R C S, L R C P. Established in 1871 for "investigating, studying, and, without charge beyond immediate expenses, endeavouring to cure maladies, distempers, and injuries, any quadrupeds or birds useful to man may be found subject to." It contains a Hospital, in which the diseases and injuries of animals are treated, and a Laboratory, where the investigation and study of diseases of animals are carried on. Both In- and Out-Patients are treated. Clin students may be admitted to the Vet Depts, and Research students are received in the Lab.

The Institute of Historical Research, Malet St., W C 1, is the University Laboratory of History, devoted exclusively to post-graduate and research work. It is situated close to the British Museum, and consists of a systematically planned series of seminar libraries, provided with the books containing or describing the main sources of mediæval and modern history (especially those whose manuscript originals are in the Record Office and other London Archives). It is open not only to every professor, reader, or other teacher of history in the Univ., and his research students, but to historians, archivists, and teachers and research students from other Univs, approved by the Committee. *Chairman of Committee*, A F Pollard, M.A., Litt D., F.B.A., Prof of Engl Hist., *Secretary and Librarian*, H. W. Meikle, M.A., D.Litt., Advisor to External Research Students in History.

FACULTIES Theology, Arts, Laws, Music, Medicine, Science, Engineering, Economics and Political Science.

Standing Committees of the Senate The more important are—The Academic Council, the Council for External Students, the Board to Promote the Extension of Univ. Teaching, the Matricn Board, the Establ and Genl. Purposes, Finance, Library, and Scholarships Committees. There are 26 other Committees besides the 42 Boards of Studies.

The B Sc and D Sc are granted in the Faculties of Science (including Pure Sc, Agric, Hortic, Vet Sc, and, for External students, Estate Management, and, for Internal students, Household and Social Science—B Sc only), Engineering, and Economics, the M Sc in Science (including Agric, Vet Sc, and, for Internal students, Hortic and Household and Social Science), and, for Internal students, Engineering and Economics

ADMISSION. The Univ. holds 3 times a year in London and twice a year in certain Provincial centres a Matricn. examn open to all persons of 16 yrs. of age and upwards The examn. can also be held by special arrangement in any of the British Colonies or Dominions Candidates are required to pass on one and the same occasion in 5 subjects English, Maths, Latin or Greek or a scientific subject, 2 other subjects of which one must, if neither Latin nor Greek is chosen for 3rd subject, be a language. The General School examn (v p. 101), if passed in a combination required for Matricn, is equivalent to the Matricn examn, and several other examns are also accepted on conditions as exempting from it, namely, those numbered 2, 6, 7, 8(a), 8(b), 9, 10, 12, 19, in Appendix xx, and Matricn examns of the Univs of Adelaide, Melb, and W Aust

STUDENTS FROM OTHER UNIVERSITIES—The graduates of any of the Univs. of the United Kingdom and of some overseas Univs * can also claim exemption Other students of 19 yrs of age and upwards who present certificates of Matricn in Colonial Univs or Indian or foreign certifs from educational authorities indicating an education equivalent in their own country to that required in England for the Matricn examn may apply for *examination under Statute 116* (in lieu of taking the Matricn examn) with special reference to the line of study they propose to follow This examn, which it has been the practice to hold four times a year, is held in London only Students who do not propose to proceed to a degree are not required to pass any Univ. examn, but must submit evidence that they are sufficiently advanced in their studies

PERSONS OVER 25 YEARS OF AGE who in virtue of professional qualifications or otherwise are specially qualified to proceed to a Degree course may apply for examn under Statute 116 See the preceding paragraph

EXTERNAL students preparing for the Bachelorship undergo Intermediate and Final examns. at intervals prescribed in the Regns, and approximating (except in Med, Dental Surgery, and Vet Sc) to 3 yrs in all Copies of all Regns. may be obtained gratis and post free from the External Registrar.

EXAMINATIONS IN THE OVERSEAS DOMINIONS. Certain of the examns of the Univ. for External students are held not only in London and at Provincial centres within Great Britain, but also in certain of the overseas Dominions of the Empire. In India only the examns in the Faculty of Theol. are thus

* Namely the following In Canada—Alb, Dal, King's, McG, McM (B A. only), Manit, Montreal, Queen's, Tor., Vict, Australasia—Adel, Melb. Qld, Syd, Tas, W A (Arts, Sc, Agr., Eng), N Z; S Africa—Cape, Cape Town, S Afr, Stell, India—Aligarh, All, Benares, Bom. held, but the Matricn. examn. and the examns. in Theol., in Arts, in Laws, and in Economics have been held at 70 Colonial centres. In Ceylon the Univ. examns in Science and Arts have also been held under special arrangement; in this latter case with certain modifications of the Regns, such as have made them suitable for the special needs of the Colony in question, with the result that the Ceylon Govt now awards its scholarships upon the results of these Univ examns

An INTERNAL student before being allowed to enter as such for any examn. must, unless specially exempted, have attended Instruction courses in all the subjects thereof. For a first Degree in any Faculty he must have completed an Approved Course of Study extending over at least 3 yrs which must, ordinarily, have been continuously pursued, but not necessarily all at one institution. A minimum number of hours of attendance is as a rule prescribed for each course, and a reduction is allowed in the case of an evening student who is certified by an employer to be engaged in his service for not less than 25 hours a week. The Intern. course generally extends over 1 yr. As a general rule, Honours may be taken at the Final examns. A course of study extending over not more than 1 yr taken in another Univ approved for the purpose subsequently to a student's passing the Intern may be accepted subject to regns in lieu of a course taken in this Univ.

Any person who has passed the Intern examn as an *External* student may be allowed to take the final examn for the first degree after having attended for 2 years as an Internal student an approved course of study for it, but the degree will not be conferred until a further year's course of approved study has been pursued.

ARTS In both Intern and Final (Pass) examns 2 langs must be taken, including either Latin with Rom Hist, or Greek with Greek Hist. Natives of Asia or Africa may apply for permission to substitute for Latin or Greek—Classical Arabic, Sanskrit, or Classical Chinese. The Honours subjects for the Final examn. are Archæol., Chinese, Classics, Hebrew and Aramaic (including Syriac), Hist., Geog., Maths., Philos., Psych., Engl., French, Ger., Ital., Portuguese, Span., Slavonic Studies, Indo-Aryan, Arabic, Persian, also Celtic for External students, and, for Internal students, Greek, Latin, Dutch, Scandinavian Langs, Anthropology, Sociology.

The B.A. course in Archit. extends over 5 yrs, but graduates of approved Univs may be exempted from such part of the earlier years' courses of study and examns as the Senate may determine.

The M.A. is conferred in Archæol., Class., Hist., Maths., Mediæval and Mod. Langs., Oriental Langs., Philos., Educn., and, for Internal students only, in Comp. Philol. and Psychol. Internal students are required (except in Maths.) to submit a thesis. In some cases candidates must have taken Honours at the B.A. examn. External students may take the M.A. examn. 2 yrs. after graduation in Arts. Candidates may only take 1 branch or section at a time. In most there is a *viva-voce* examn.

The D.Lit. is open to M.A.'s and Ph.D.'s only (except as regards students excused under Statutes 113 and 129—v. p. 99), and is conferred for original work, minimum age—30, or 5 yrs after passing Ph.D. or M.A. examn.

Diplomas Teacher's, 1 yr. course for graduates and others similarly qualified (also for External students), Fine Art (3 yrs), Dramatic Art (2 yrs); Slavonic studies (2 yrs.), History (4 yrs part-time or 1 yr full-time); History of Art (4 yrs. part-time); Journalism (2 yrs), Literature (4 yrs. part-time or 1 yr full-time); Town Planning and Civic Archit. or Civic Engin. (2 evenings a week for 2 terms or 1 day a week for 3 terms), Academic

Dip in Geog. (180 hours), External Dip in Geog; Sociol, etc. (v. *infra*, Econ), Librarianship (2 yrs. for day students, 3-5 yrs for evening students); Academic Dip in Psychology; Academic Dip in Theology.

SCIENCE For the Intern examn Pure or Applied Maths. or Physics must be taken with 3 other subjects. For Final (Pass) examn any 3 of the following may be selected. Pure Maths, App Maths, Astron, Physics, Chem, Geol, Bot, Zool, Physiol, Psych, Anthropol, Milit Sc, Logic and Method (Ext students), Statistics (Int students). An Honours student selects 1 principal and (except in case of candidate for Honours in Human Anatomy and Morphology or in Maths) 1 subsidiary subject. Internal students may take the B Sc "by research" (v p 99). For the M Sc. for Internal students a thesis is required except in Maths.

For the Degree in Agric the Intern examn includes Chem, Bot, Zool, and 1 selected subject, the Final—Agric, Agric Chem, Agric Bot, and 2 selected. For the Degree in Hortic the Intern subjects are Chem, Bot, Zool, Physics, Geol, and Surveying, for the Final, Practice of Hortic, Book-keeping, Principles of Hortic, and Entom. For the Degree in Vet Sc there are 4 examns to be taken in their proper order. Prelim (Inorg Chem and Phys), Intern Pt I (Org and Applied Chem, Genl Biol, and Vet Anat), Pt II (Vet Physiol), and Final (Vet Pathol and Vet Hyg). There is no Doctorate in Agric or in Vet Sc, Bachelors of Science (Agric or Vet Sc) being held to be eligible for the ordinary D Sc. For the Degree in Household and Social Science there are 3 examns. 1st Intern (Phys, Inorg Chem, Biol, and Social and Econ Hist), 2nd (Chem—Org and Phys, Gen and Econ Biol, Principles of Econ), and Final (App Chem, Physiol and Bio-Chem, Hygiene, and Bacteriology). For the Degree in Estate Management—B Sc (Est Man)—there are 2 examns, Intern and Final. Intern Pt I—Surveying, Econ, and Agric or Town Planning, Pt II—Accounting and Land Law, (Pts I and II may be taken separately). Final Pt I—Land and Buildings Valuation, Taxation and Tithe, Land Law, Pt II—Building Construction, and Agric or Town Planning, and two of—Forestry, Urban Sanitation, Munic and Local Govt Law, (Pts. I and II may be taken separately).

THEOLOGY The Intern course is in Bibl Langs, Greek, Latin, Psych, and Philos, the Final in Old Test, New Test, Bibl and Hist Theol, Church Hist, Philos Introdn to Theol, and a selected subject. The Honours examn is distinct from the Pass, and may be taken 1 yr after graduation in Div, the subjects are Hebrew and Aramaic, including Syriac, Greek NT and Apocrypha, Church Hist, Bibl and Hist Theol, Study of Religion. Candidates for the D D degree must have taken Honours in Theol in this Univ.

LAWS The subjects of the Intern course are Rom Law, Engl Const Law and its Hist, Jurispr, and Crim Law and Crim Procedure, or Indian Penal Code and Crim Procedure. Candidates for the LL D degree must have taken Honours at the LL B examn or subsequently unless specially exempted.

MEDICINE. The course extends normally over 5½ yrs. In the first yr. courses in Inorg Chem, Phys., and Genl. Biol in preparation for the 1st examn. for Med. degrees are taken. The 2nd and 3rd yrs. are devoted to Org Chem, incl Bio-Chem (the only subject at Pt I. of the 2nd examn), Hum. Anat and Embryol., Physiol, Pharmacol. Pt II of the 2nd examn. is normally taken 1½ mos. after passing the 1st. In the Final course for the M.B, B S degrees the subjects are divided into 2 groups as follows. Group I.

—Med., Path., For. Med. and Hyg., Group II—Surg., and Obstetrics and Gynæcology. The groups may be taken separately or together, but degrees are not conferred until candidates have passed in both groups.

Institutions outside the U.K. certificates from which for the complete course of Med. educn., including Clin. Med. and Surg. preparatory to the M.B., B.S. degrees, are accepted by the Univ. of London. Univs. of Bishop's Coll., McGill, Adel (with Infirmary), Melb. (with Melb. and Alfred Hospls.), Syd. (with Infirmary and Prince Alfred Hospl.), N.Z. (with Dunedin Hospl.), following Indian Med. Colleges—Grant (Bombay), Bengal (Calcutta), Lahore, Madras, Med. Coll. Colombo, Univ. of Malta, Sch. of Med., Cairo.

The M.D. may be taken in any of the following: Med., Path., Psych. Med., Midw. and Dis. of Women, State Med., Trop. Med.

The M.S. may be taken in Surg., Dent. Surg., Ophth., or Larynx, Ot., and Rhin.

For the M.D. or M.S. a thesis or published work may be submitted.

The course for the B.D.S. extends normally over 5 years—there are four exams. The subjects of the Final examn. are Dental Surgery, Operative D.S. and Orthodontics.

Diploma in Psychological Medicine.

Music. The subjects for the Interim examn. are Harmony, Counterpoint, and Hist. of Mus. For the B.Mus. the subjects of examn. are Harmony, Counterpoint, Fugue, and Canon, Free Composition, Hist. of Music, and Musical Analysis. Every candidate for the B.Mus. must submit a musical exercise. For the D.Mus. there is a written examn., and a musical exercise is also required.

ENGINEERING. Interim examn. subjects: Pure Maths and Applied Maths, Heat, Elec. and Magn., Engin. Drawing and Design, and either Sound and Optics or Chem. or Geol. In the Final examn. in *Engin.* not less than 5 subjects are taken, a wide choice being allowed, in *Mining* 6, of which Mining Geol. and Mineral, Mining, Mine Surveying, Mineral Dressing, and Assaying are compulsory, in *Metall.* 6, of which Metall., Metall. Analysis, Metallography and Pyrometry, Electro-Metall., and Fuel and Refractory Materials, are compulsory. For an Honours degree in *Engin.*, *Mining*, or *Metall.* at least 1 extra subject must be taken at the Final examn. and a higher standard is required in all the subjects taken.

^a **Economics.** The subjects for the Interim examn. are Economics, British Constitution, either Mathematics or Logic and Scientific Method, Geog. For the Final (in and after 1924)—Econ., Hist. of the Great Powers, Political Sc., and a selected subject. Passages are set from French and German works for translation and comment.

For the B.Com. the Interim examn. is in 2 parts, which may be taken together or on different occasions. Pt. I.—Elements of Econ., Geog., an approved Modern Lang. Pt. II.—Accounting as applied to Traders and Trading Companies, or a second Approved Mod. Foreign Lang., Modern Econ. Development of the Empire. The B.Com. examn. is in the Present Organization of Industry, Banking, Trade, and Transport, Econ. Development of the Great Powers, Elements of Comm. Law; Statistical Method, 1 selected group of subjects.

Diplomas. Academic Dip. in Sociology and Social Administration (2 yrs' course, at least 150 hours in each); Dip. in Economics and Social Sc. (4 yrs' part-time or shorter full-time course), either E. Hist. and Theory, Soc. and Pol. Sc., or Conditions of Soc. and Indust. Well-being and of Health—Dip. for Civic workers.

MILITARY EDUCATION. London is one of the Univs. which have established approved courses of instruction entitling them to nominate candidates for commissions in the Regular Army. The selection of qualified students is made by a Nomination Board consisting of the members of the Milit. Educn. Committee together with one or more Milit. members appointed by the War Office, who have the right of veto on any selection. An Internal degree in one of the Faculties other than Theol., Med., and Music is one of the necessary qualifications. Since 1912 Military Science has been an optional subject for the Interm. and Final (Pass) B A and B Sc examns. The Officers' Training Corps Contingent supplied 4200 officers for the war, of whom 650 are known to have fallen.

POST-GRADUATE STUDY AND RESEARCH. In most of the Colleges and Schools of the Univ. special arrangements are made for Research students, and the facilities offered are not restricted to Internal graduates of the Univ. Under Statutes 113, 113A, and 129 External graduates and graduates of, and persons who have passed the degree examns of, other approved Univs. are allowed, under certain conditions, to enter as Internal students for the degree of Bachelor or Doctor in the several Faculties (but not in Medicine and Surgery), and for the degrees of Master of Arts and Master of Science. Application for registration may be submitted with evidence of graduation, etc., through the authorities of the College, School, or Institution at which the applicant proposes to study, and supported by their certificate of his fitness to undertake a course of study or research with a view to the proposed degree, and that they are willing to supervise his work. An Overseas student may himself submit an application on the prescribed form, and the Univ. will, if so requested, advise as to the selection of the College, School, or Institution at which, and Teacher under whom, he should study. Application for such advice should be addressed to the Academic Registrar. Overseas students should apply for registration before coming to London, and their applications should reach the Univ. by May 1, or, if from Australia or New Zealand, March 1, to enable them, should their applications be successful, to enter upon their course of study in Oct., i.e. at the beginning of the Session. Students whose applications are approved are required to pursue a course extending over at least 2 yrs. (v. *infra*—Publications).

An Internal student who is a candidate for the Ph D. degree must have previously graduated in the Univ. in the faculty of Theology, Arts, Science, Engineering, or Economics, or have been registered as a candidate for the degree under Statute 113 or 129. An Internal student is further required to pursue a course of study of not less than two years' full-time, or four years' part-time, training in research and research methods. Any graduate of the Univ. may become a Candidate for the Ph D. degree as an External Student on receiving the approval of the Council for External Students.

The B Sc. degree, in the Faculties of Science and Econ., may also be taken "by Research" by Internal students under Statute 112. Candidates must have attained the age of 19 and must have passed the Interm. examn. The research must extend over at least 2 yrs.

FEES.—Matricn.—2½ gs.; Examn. and Graduation—15 gs. (Med., 29 gs.) for first Degree. Other Degree fees, 10 to 20 gs. Tuition, see the sections relating to the several colleges.

STUDENTSHIPS AND SCHOLARSHIPS. Studentships are awarded by the Senate in aid of advanced work or research. These include one of £50 p.a. for 1 or 2 yrs., open to students of Univ. Coll. in Maths.; one of £100 in Archaeology; one of £50 in Physiology; £100 in Arts, £100 in Econ., £200 for the

man or woman who, being resident in London and a graduate of the Univ., has done most in the preceding 5 yrs. to advance Medical Art or Science, £200 for a graduate of a British Univ for the promotion of post-graduate research. The Gilchrist Trustees provide funds for two Studentships, viz one of £100 for a woman graduate preparing for a profession; and one in Mod. Langs, £80, open to a B A. who took Honours in French or German, for a course of study abroad with a view to the profession of teaching. Three Scholarships of £50 each for 1 yr are awarded annually for proficiency in Oriental Langs. The Scholarships Pamphlet obtainable post free on application to the Univ gives details of these and others.

THE COMMERCE DEGREE BUREAU exists to help in their studies External (especially extra-London) students proposing to take the Commerce Degree exams, to assist in the employment of Commerce Degree students and graduates at home and abroad, to provide a reference and lending library for students, and generally to promote the value and usefulness of the Commerce degree. Offices were opened in 1922 under a Board of Governors at 46 Russell Square, W C 1, where the work of the Bureau is associated with the general UNIVERSITY APPOINTMENTS BOARD work. There is a Bureau Educational Advisory Staff (Chief Advisor Prof A J Sargent, M A). Prospectus and enquiry forms obtainable on application to the Secretary, H J Crawford, B A.

RESIDENCE Hostels recognized by the Senate. Univ Hall of Residence, 10 and 11 Carlyle Square, Chelsea, Univ Coll Hall, Ealing, for 40 men students (fees for residence, 30s to £3 a week), College Hall, Byng Place, Gordon Square, W C, for women students, King's Coll Theological Hostel, Vincent Square, The Platanes, Denmark Hill, S E, for King's Coll and its Med School. Residence is also provided at or in connexion with the S E Agric Coll, Wye, Bart's, Guy's and Middlesex Hospl. Med Schools, the Theological Colleges at Hampstead and Highbury, and the Women's Colleges.

A UNION SOCIETY on the lines of those of Oxford and Cambridge was founded in March 1921. Address—University Union, Malet St, W C 1.

UNIVERSITY EXTENSION DEPARTMENT The work of the *Board to Promote the Extension of Univ Teaching* falls under the following heads: (a) Univ. Extension Lectures and Tutorial Classes for Working-people, (b) Holiday Courses for Foreigners; (c) Inspection and Examin of Schools, (d) Examin for the Certif in Religious Knowledge, (e) Exams for the Certifs in Danish, English (for foreigners), French, German, Italian, Norwegian, Russian, Spanish, and Swedish, (f) Exams for Diplomas in History, Literature, Economics and Social Science, History of Art, (g) Examin for Diploma in Psychological Medicine, (h) Examin for Diploma in Dramatic Art.

(a) *Univ Extension Lectures* have been carried on by the Board since 1902, and, prior to that, since 1876, by the London Society for the Extension of Univ Teaching. By agreement with the Univs of Oxford and Cambridge the work is restricted to the Metropolitan area. Courses are held, at about 60 centres, on Hist, Lit, Art, Econ and Social Sc, Philos, Psychology, and Nat Sc. A class is held in connexion with each lecture, and students are encouraged to do regular paper-work for the lectr. An examn for certifs may be h/d at the end of each Sessional (24 or 25 lectures) or Terminal (10 or 12 lectures) course. A few short courses (5 lectures) of a *pioneer* or illustrative character are arranged, in connexion with these there is no examn. Continuous study over several years is encouraged by the Vice-Chancellor's Certif. of Continuous Study (awarded to students who obtain 4 Sessional Certifs in subjects chosen from certain groups) and by the *Diplomas in the Humanities* (Hist., Lit, Econ. and

Social Science, Hist. of Art), awarded, under the Seal of the Univ., to students who carry on an approved co-ordinated course of study covering 4 yrs., and pass an examn. on the work of each Session, and a final examn. on the whole course. *Diplomas in History and Literature* are also awarded on the result of One Year Full-time study.

The *Tutorial Classes for Working-people* are under the immediate direction of a Joint Committee of 7 members nominated by the Board and 7 nominated by the Workers' Educational Association. The classes extend over 3 consecutive years, and membership is limited to not more than 32 students, who undertake to attend regularly and to do regular paper-work for the Tutor. Certifs. are not awarded. There were 32 classes in 1922-23.

(b) A *Holiday Course* for Foreigners is held annually in London during four weeks from the middle of July. Special stress is laid upon Phonetic teaching. The course is designed to widen the student's knowledge not only of the Engl. Lang., but of English customs, institns., and art, by means of lectures, classes, a choral society, excursions, etc. The total number of students admitted to the course is limited to about 260, and the number in each class to 8. During the 15 years 1904-1914 and 1919-1923 the course was attended by 3734 students from 34 countries.

(c) *Inspection and Examination of Schools*. A close relationship between examination and inspection has been carefully and continuously developed by the Univ. Extension Board. The County Councils of Surrey and Middlesex have placed their Secondary Schools to the number of 60 under the Univ. for regular inspection and for the holding of the School examns., the local authority in each case making a special financial arrangement with the Univ. The Board of Educn. and the Univ. inspect alternately and exchange Reports.

Inspection may include either a general inspection of the whole school or a special inspection of certain subjects or groups of subjects. It may be so combined with the Certificate examns. that these form an integral part of it. It may also include an examn. carried on by the Inspectors and the Staff of the school in co-operation. This system of combined inspection and examn. is known as Examinational Inspection, and is capable of considerable variation to meet the requirements of any particular school.

The *Examinations for Certificates* are held only in Schools inspected by the Univ. or under other approved inspection; the course of study in the school must also be approved. The examns. are of 3 grades: I Higher, II General, and III Junior, for I the (a) Higher School, (b) External Intermediate (Arts or Science) Certif., II the (a) School, (b) Matricn., or (c) School Commercial Certif., and III. the Junior School Certif. respectively. Certifs. I (a), II. (a), and II (c) are not awarded until the pupil leaves school. The Examn. fees are from 1 to 3 gs.

The *Higher and General School Examinations* are recognized by the Board of Education as "Second" and "First" examns. (v p 4) respectively, and the Certifs. I (a) and II (a) awarded to candidates attending schools recognized by it as efficient Secondary Schools are attested by it. A candidate who takes the *Higher* with a view to qualifying for the External Intermediate Arts or Science Certif. offers for examn. the same syllabuses as those of the Ext. Intern. examns. The combination of subjects that may be taken at the General School examn. offers greater variety than is the case in the Matricn. examn., and a pupil who reaches the necessary standard at one and the same examn. in a combination required for Matricn. is entitled on payment of the registration fee of 17s. 6d. to be registered as a Matriculated student of the Univ., if or when he has attained the prescribed age. For Certif. II. (c) the combination of subjects required differs from that required for II. (a), and the subjects are

treated from the commercial standpoint. The Senate have established a Panel of Advisors, consisting of a number of the leading authorities on Comm. subjects, to advise them in matters of policy and principle in connexion with the Scheme.

The *Junior School Examination* is intended for pupils about the age of 15.

In the case of each of the School exams. an Inspector visits the school for the purpose of conducting an oral examn. in such Mod. Langs. as are taken. Practical exams. in Science are optional, except in the case of grade I and in Genl. Elem. Science at grade II, in which they form an essential part of the examn.

(d) The *Examination for the Certificate in Religious Knowledge*, instituted in 1909, is held once a year in June. It may be held at certain of the Provincial centres at which the June Matricn. examn. is appointed to be held, as well as in London.

(e) *Examinations for the Certificates in French and in German* (instituted in 1913), in *Italian, Russian, and Spanish* (instituted in 1919), and in *Danish, Norwegian, and Swedish* (instituted in 1921), are held in July and Aug.; in *English* (for foreigners, instituted in 1920) in Aug. or as may be arranged. They are intended primarily for teachers who are not specialists in, but who require a Certif. testifying to their practical working knowledge of, the language, both spoken and written.

(f) The *Examinations for the Diplomas in History; Literature*—English Lang. and Lit. or General Lit.; *Economics and Social Science*—either Economic History and Theory, Social and Political Science, or Conditions of Social and Industrial Well-being and Conditions of Health (Dip. for Civic Workers); *History of Art*—are held once a year in Oct. for students who have followed a recognized course of study for 4 yrs. as part-time students or for a shorter period as full-time students.

(g) The *Examn. for the Diploma in Psychological Medicine* is held twice a year, in March and Apr. and in Oct. and Nov., and is open to candidates whose names are in the Medical Register. There are two varieties of this Dip., for those desiring to specialize in Mental Diseases and in Mental Deficiency respectively.

(h) The *Examn. for the Diploma in Dramatic Art* will be held once a year, beginning in July 1925, and will be open to students of not less than 17 years at Training Schools or Institutions where courses have been approved.

GENERAL INFORMATION

Address—Strand, W C 2 Telephone—207 Gerrard.

Founded by Royal Charter in 1829 for "instruction in the various branches of Literature and Science and the doctrines and duties of Christianity," King's College consisted at first of a School and Departments of General Literature, Science, and Medicine, to which were added successively Engineering, Theological, and Oriental Depts. The Hospital was built in 1839, the Evening Classes were started in 1856, and a Women's Dept in 1881. In 1910 the College School became a separate Corporation, the Hospl and Advanced Med School were made independent, the other Depts (except the Theological) doing work of University standard were incorporated in the Univ of London, while the Council remained the governing body of the Theol Dept, which became a School of the Univ. In 1915 the Arts and Science Departments of King's College for Women, previously housed in South Kensington, were transferred to the buildings of King's College, and the Household and Social Science Department to new buildings on Campden Hill. King's College has 94 Appointed and Recognized Teachers, King's Coll for Women, Household and Social Sc Dept, has 9

advanced training and research in various branches of Science, especially in its application to Industry, the Imperial College includes as integral parts the following Associated Colleges

The Royal College of Science

The Royal School of Mines

The City and Guilds (Engineering) College

The total staff exceeds 200. For the purpose of internal degrees of the Univ. the College is a School of the University in Science and Engineering. The buildings occupy about 8 acres and cost with equipment over £1,000,000.

LIBRARIES, ETC. The Library of the Science Museum is available for the use of Students, and each Dept. is provided with a special Library, **RESEARCH LABORATORIES**, and full facilities for advanced study.

ADMISSION. The conditions of admission are as under, but the College reserves power to admit in special cases candidates whose qualifications do not in every respect coincide with those prescribed, but whose previous training fits them to take full advantage of the course proposed, the prescribed qualifications give no right to admission, but will be considered with others of which the candidate may give evidence. (1) *RCS* and *RSM*. A candidate for admission must be as a rule not less than 17 yrs. of age. For admission to 1st yr. Assoc. courses an Entrance examn. in Maths and Mechanics, Chem. Physics, Engl., French or German or Spanish or Italian, and Geometrical or Freehand Drawing must be passed, unless equivalent examns. have been passed elsewhere. (The Matricn. examn. of the Univ. is considered equivalent provided the student has passed in "More Advanced Maths" and "Elem. Mechanics," and in the other subjects prescribed for the Entrance examn.) Candidates for admission to a 2nd yr. must pass the College Entrance examn. in more advanced Maths, Mechanics, Chem., and Physics, unless equivalent examns. have been passed elsewhere. For admission to a 3rd yr. candidates must have reached a standard correspondingly higher. (ii) *City and Guilds*. A candidate desiring to enter for the 1st yr. of the Assoc.'ship course must be at least 16 yrs. of age and must pass a special Entrance examn. in Maths and Mechanics, Mech. Drawing, Phys., Chem., Engl., and French or German or Italian or Spanish, unless he has passed the Matricn. examn. of the Univ., taking certain specified subjects, including More Advanced Maths. For admission to the 2nd yr. course candidates must take the more advanced papers and the practical tests in the College examn., or they must have passed the Intern. B.Sc. (Eng.) in the Univ. in Maths, Pure and Applied, Heat, Electricity and Magnetism, Engineering, Drawing and Design, and Chemistry. Candidates for admission to advanced or research work in the *RCS*, *RSM*, or *C. and G.* are admitted on satisfying the Coll. authorities as to their previous training.

DIPLOMA AND OTHER COURSES. Associateship of each of the 3 associated Colls., 3 or 4 yrs., specially arranged courses in Advanced Science or Technology, 1 or more yrs., leading to the Diploma of the Imperial Coll.; short courses dealing with special subjects for graduates or persons engaged in scientific industrial pursuits; occasional courses to suit individual needs.

FEES. Entrance, £2; Tuition, per session, for full-time Associateship or Post-Associateship courses of study, £62 10s. (including Union fees), for less than full-time courses, *pro rata*, for Research Work the fee is £22 10s. per session (including Union fees), but an additional charge may be made for expensive apparatus or chemicals.

ASSOCIATED COLLEGES

THE COLLEGE OF TECHNOLOGY originated in the Mechanics' Institution, founded in 1824, and developed between 1879 and 1912 under the direction of J H Reynolds as the Technical School (1883) and Municipal School of Technology (1901). In 1903 were completed, with the help of benefactions from the estate of Sir Joseph Whitworth, buildings covering 7300 sq yards in the centre of the city and worth with their equipment £400,000. It became connected with the Univ of Manchester in 1905 through the constitution of a Faculty of Technology, the greater part of the work of which is conducted in the College, whose Principal is Dean of the Faculty.

COLLEGES recognized for External Lectures in Theology :

BAPTIST COLLEGE, EGERTON HALL, HARTLEY PRIMITIVE METHODIST COLLEGE, MORAVIAN COLLEGE, Fairfield, UNITARIAN HOME MISSIONARY COLLEGE, and UNITED METHODIST COLLEGE at Manchester; LANCASHIRE INDEPENDENT COLLEGE, Whalley Range; WESLEYAN COLLEGE, Didsbury.

Recognized for instruction in Maths , Physics, Chem , and Biol. up to Interim. standard for B Sc. and B.Sc.Tech. the HARRIS INSTITUTE, Preston

For third year of B Sc.Tech. course in Mining the CAMBORNE SCHOOL OF METALLIFEROUS MINING.

GENERAL INFORMATION

Owens College, named after a Manchester merchant who bequeathed £96,000 for its foundation, was opened in 1851. The Manchester School of Medicine was united with it in 1872. The Charter of 1880 by which the Victoria Univ. was founded established a federal constitution and made Owens a constituent Coll. of the Univ. Subsequently Univ. Coll., Liverpool, and Yorkshire Coll., Leeds, were admitted as constituent Colls. A new Charter was issued on July 15, 1903, reconstituting the Univ. under the name of the Vict. Univ. of Manchester and freeing it from liability to admit or remain in association with any Coll. other than Owens, and on June 24, 1904, the Act for the incorporation of Owens Coll. with the Univ. was passed. The Univ. Press was established in 1902.

In 1905, on the establishment of the Faculty of Technology, the work of Univ. standard at the Municipal School (now College) of Tech. was included in the Univ.

Most of the buildings, arranged in two quadrangles, and erected from time to time during the past 50 years, are situated in the city. The athletic ground (30 acres) is at Fallowfield, about $1\frac{1}{2}$ miles distant.

LIBRARIES The main (Christie) library (over 180,000 vols.) includes the private collections of Profs. Freeman and Stanley Jevons and Dr. Christie. Scientific periodicals are taken in by the Univ. in co-operation with the Manchester Literary and Philosophical Society, so that between them all the most important are available for both. The Manchester Medical Society's Library (47,000) is housed in the Medical School, where it is available for students. The John Rylands (250,000) includes the Althorp Library and the Crawford collection of MSS. It contains one of the most important collections of early printed books in existence. The ancient Chetham Library (70,000) has valuable mediæval MSS. and printed books of seventeenth and eighteenth centuries. The Municipal Reference Library (194,000) is valuable for more recent books and periodicals.

LABORATORIES, ETC. Ample equipment for advanced study and research in all departments; special provision for Electro-Technics, Economic Zoology (including Agric. Entom.) and Botany, Radio-activity, Ionization of Gases, Colloids, and Cancer. The Fielden School is organized mainly for demonstration, training, and research in Educn. The Manchester *Museum*, forming part of the Univ. buildings, and containing among other special depts. the Flinders Petrie Egyptol. Collection, is utilized for Univ. teaching in Zool., Bot., and Geol.; it is also used for systematic instruction of Elem. school children. Available for clinical instruction are 4 general *Hospitals*, 1 Dental and 7 other special hospis. including the Christie Cancer Pavilion. The Howard Estate *Observatory* in the Peak District is for investigation of the Upper Atmosphere.

FACULTIES Arts, Science, Law, Medicine (including Dent, Pharm., and Pub. Health), Music, Commerce, Theology, Technology (provided by the Municipal College of Technology), Education. There are Advisory Committees for Archit., Mining, Tech., Commerce, Theol., Pub. Health, Leg. Educn., Colloids, and for Training Teachers of the Deaf.

The students reside in their own homes or with relatives or in private families in Oxford or, occasionally, in lodgings. Twelve reside in the Anglican convent of S. Thomas.

St. Frideswide's, Cherwell Edge, is a hostel maintained by the Roman Catholic Community of the Holy Child Jesus, and licensed by the Univ. for the reception of Home-Students, religious and secular.

GENERAL INFORMATION

CONSTITUTION. *Convocation*, consisting of all Masters of Arts and Doctors of the Faculties of Divinity, Civil Law, and Medicine who have their names on the Univ. books, has the power of confirming or rejecting (but not of amending) Statutes which have passed Congregation. It also transacts much of the ordinary business of the Univ. by means of "Decrees." It confers honorary degrees and also degrees granted by Decree or Diploma. It sanctions petitions to Parliament, authorizes the affixing of the Univ. seal when necessary, and its members elect the Univ. representatives in Parliament. But no proposals can be made to it which have not been sanctioned by the *Hebdomadal Council*, which consists of the Chancellor, Vice-Chancellor, immediate ex-Vice-Chancellor (for a certain period after the expiration of his term of office), and Proctors and 18 other members (Heads of Houses, Professors, etc.) elected by Congregation. This Council takes the initiative in all the legislation of the Univ., except what is proposed by the General Board of the Faculties. The *Congregation of the University* consists mainly of the teaching and administrative elements in the Univ. and Colleges. It has the power of adopting, rejecting, or amending legislation submitted by the Hebdomadal Council previously to its submission to Convocation. The *General Board of the Faculties* has power, after consultation with the Board of the Faculty

concerned, to draft and send to Congregation through the Hebdomadal Council any proposals on matters connected with studies and exams. which require to be dealt with by Statute.

The Chancellor, elected for life by Convocation, is a non-resident Officer. The executive power is chiefly in the hands of his Deputy, the Vice-Chancellor, who is annually nominated by him from among the Heads of Colleges, and the Proctors annually elected by the Colleges and Halls in rotation

The Colleges are corporate bodies distinct from the Univ. They are not even, at all events directly, subject to regulations made by the Univ.; they manage their own property and elect their own Officers, and the Proctors have no power within their walls. In many matters, however, they and the Univ. recognize each other's regulations, and an intimate relation exists between them; the great majority of the members of the Univ. belong to the Colleges, and all who belong to the various Colleges are at the same time members of the Univ. Teaching is given partly by Univ. Profs., Readers, and Lectrs., partly by the more numerous body of College Tutors and Lectrs. Altogether the teaching staff numbers approximately 300

FACULTIES Theology, Law, Medicine, Literæ humaniores, Modern History, Mediæval and Modern Languages, Oriental Languages, Natural Science, For Music, for Agriculture and Forestry, and for Philosophy, Politics, and Economics, there are Boards of Studies.

ADMISSION to the Univ. ("Matriculation") is without respect of sex, birth, age, nationality, or creed, and follows upon admission to a College or Hall or to the Society of Non-Coll. Students, or Society of Home-Students. No one can become a member of the Univ. unless he first becomes a member of one of these Societies. An application for admission must therefore be addressed, not to any officer of the Univ., but to the proper officer* of the Society to which admission is desired, it should be made, if possible, a year or more before residence is contemplated, especially if rooms within the College walls are desired

Although the Univ. itself holds no Entrance examn., the Colls. and Halls and the Society of Non-Coll. Students require certain qualifications of character and intellectual attainment in which the passing of *Responsions* or some equivalent examn. is ordinarily included

Students from abroad (v. also Appendix XXIII) The Secretary (H. S. Williamson, M.A., Indian Institute) of the *Delegacy for Oriental Students* is prepared to advise Indian and other oriental students, who should apply for admission through him

To deal with enquiries from other students who wish to become members of the Univ. and whose home residence is outside Great Britain an *Adviser to Colonial and Foreign Students* (R. Truslove, M.A., 40 Broad St.) is attached to the Univ. Registry. Applications for admission to Colleges may also be made through him.

INCORPORATION Members of the Univs. of Cambridge and Dublin can be, under certain conditions, "incorporated" into this Univ., i.e. admitted to the same status and degree which they hold in their own Univ. Notice of intention to incorporate as an undergraduate must be sent to the Registrar through the Head of a College or the Censor of Non-Coll. Students. The privileges of incorporation as a graduate are limited to B.A., M.A., Litt.D.,

* Balliol—The Tutor for Admissions, Qu—The Pro-Provost, Non-Coll.—The Censor, Non-Collegiate Buildings; in other cases—The head of the Society (v. *supra*).

B.D., D.D., and D.Sc. of those Univs. Any applicant for incorporation must have kept by residence at his Univ. before taking his degree the same number of terms that he would have been required to keep at Oxford for the corresponding degree. While an undergraduate is allowed to incorporate as a matter of course, a graduate must first satisfy the Hebdomadal Council that there are adequate reasons.

ADMISSION TO ADVANCED STANDING OF STUDENTS FROM OTHER INSTITUTIONS: "JUNIOR" AND "SENIOR" STUDENTS. I. *Universities other than Indian*—(a) Any student who shall have pursued at his Univ. a prescribed course extending over 2 years may be admitted as a "Junior Student" provided that his course and the standard attained by him in any exams proper to it shall have been approved. No course will be approved which does not include the study of 2 languages other than English, of which languages one must be either Latin or Greek. (b) Any person who has obtained a degree at his Univ., Degree and Univ. having been approved, may be admitted as a "Senior Student," provided that he shall have pursued at that Univ. or, if approved, at more than one Univ., a course extending over 3 years.

II. *Indian Universities*—(a) Any student who shall have pursued at his Univ. a prescribed course extending over 2 years, and obtained the Degree of B.A. or B.Sc., may be admitted as a "Junior Student," provided that Degree and Univ. have been approved. No Degree will be approved which does not include the study of English and in addition of 2 of the following languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese, of which 2 either Latin or Greek or French or German must be one. (b) Any student who shall have pursued at his Univ. or, should the Hebdomadal Council in his case approve, at more than one Univ. a prescribed course extending over 3 years and obtained a Degree with 1st or 2nd Class Honours, may be admitted as a "Senior Student," provided that Degree and Univ. have been approved.

III. *A Junior Student*. (a) may reckon his 1st term as his 4th, (b) is not required to pass Responsions, (c) is entitled to supplicate for Degree of B.A. after having resided 6 terms and passed the 1st Public Examn. and either (1) obtained a place in the Class List of an Honour School of the 2nd Public Examn. or been allowed "ægrotat", or (2) satisfied the Examiner in the 2nd Public Examn. in the Final Honour School of Nat. Sc. in Chem., Pt. I, or in the Final School of Agric. or of Forestry, or (3) obtained Honours in the 1st Public Examn., and subsequently passed the 2nd Public Examn., or (4) if disqualified by standing from obtaining such Honours, shown such merit as would otherwise have entitled him to a place on the Class List.

A Senior Student. (a) may reckon his 1st term as his 4th, (b) is not required to pass Responsions or any part of the 1st Public Examn. or any Preliminary or Previous Examn. of the 2nd Public Examn.; (c) is entitled to supplicate for the Degree of B.A. after having kept statutable residence for 6 terms, and having either (1)—as above—(c) (1), or (11)—as above—(c) (4).

No Junior or Senior Student will be entitled to supplicate for the Degree of B.A. except as above.

Members of the following **AFFILIATED COLLEGES** may claim the status of Affiliated Junior Student if they have pursued a 2 yrs' course of study at their Coll. and taken Honours in an examn. thereon. St. David's Coll., Lampeter (3 yrs' course with Honours may give admission to status of Senior student); Univ. Colls., Nottingham, Reading, Southampton, Exeter, Exeter Diocesan Training Coll. The privileges of an Affiliated Junior Student are similar to but not identically the same as those of a "Junior Student."

TERMS The Academical year, which begins in Oct and ends in June, consists of 3 terms, each of some 8 weeks. Residence within the walls of a College or Hall, or in licensed lodgings,* during a certain number of terms, usually 9, and never less than 6, is a condition of admission to any degree except in Music. Full terms begin April 27 and Oct. 12, 1924, and Jan. 18, 1925.

DEGREES. B A, M A, B Litt, D Litt, B Sc, D Sc, D Phil, B D, D D, B C L, D C L, B M, B Ch., D M, M Ch; B Mus, D Mus.

The degrees which are open to graduate students of other Univs. who are qualified for matricn at Oxford are those of B Litt, B Sc, D Phil, B C L, and B D.

ARTS Examns in Arts, more usually called "Schools," are sharply divided into Pass and Honour examns, in the former there is but one standard, in the latter successful candidates are distributed into 3 or 4 classes. No one is admitted to a place in the Class Lists who has exceeded a certain number of terms reckoned from Matricn. No conditions of residence are attached by the Univ to either Pass or Honour examns, it is simply for the attainment of the degree of B A that residence is obligatory. Every Coll and Hall, however, as well as the Delegacy of Non-Coll. Students, has its own rules with regard to both residence and the entry for examns. A candidate for the degree of B A must (1) reside at the Univ as a matriculated member during 9 terms, unless he is privileged as a member of another Univ or as a "Service" Student; (2) pass or obtain Honours in the following examns., namely:

(a) *Responsions*. The examn may be passed before matricn, and most Colls require it or an equivalent examn to be passed before residence is begun. Names of candidates who have not been matriculated must be entered through an officer of the Society to which they intend to belong. The examn includes 3 groups I (a) Latin, (b) Greek, II (a) English, (b) French, (c) German, (d) Italian, (e) Spanish, III (a) Maths, (b) Nat Sc. In order to be deemed to have passed Responsions it is necessary to have passed either in both subjects of Group I and in the 2 subjects in Group III, or else in one subject at least in each group, and in 4 subjects in all, including two languages other than English.

(b) *The 1st Public Examn*. This consists of (1) Examn in Holy Scripture, (2) Honour Classical Moderations, (3) Hon Math Modns, (4) Pass Modns, (5) Prelim Jurisprudence, (6) Prelim Mod Hist, (7) Prelim. N Sc, (8) Prelim. Agr, and (9) Prelim Forestry. In order to pass the Examn a candidate must pass in (1) and in one of the other subjects.

(c) *The 2nd Public Examn*. This consists of (a) an examn. for Candidates who do not seek Honours, or Pass School, including Schools of Agriculture and Forestry, (b) a Final Examn in 10 Honour Schools, namely. Literæ Humaniores (Philos and Ancient Hist), Maths, Nat Science (Phys., Chem, Physiol, Zool, Bot, Geol, Astron, or Engin), Jurispr, Mod Hist.; Theol, Oriental Studies (Sanskrit, Arabic, Hebrew, Persian, or Egyptian); Engl Lang and Lit, Mod Langs (French, Ger, Ital, Span, Russ, or Mediæval and Mod Greek); Philos, Politics, and Economics.

Under certain conditions members of other Univs and officers not under 21 years of age who have held for not less than 3 years a Commission in H M. Regular Forces, and been seconded or specially relieved from active duty by the Admiralty, War Office, Air Ministry, or India Office for the purpose of attending an academic course of not less than 2 yrs may be admitted to the

status of "Service Student," and obtain exemption from Responsions and, under further conditions, from the 1st Public examn, as well as a remission of 3 terms of the necessary residence (v. *supra*, p. 189). Analogous concessions are made in favour of Probationers for the Indian Forest Service who have obtained an approved degree at an approved Univ and been admitted to the status of "Indian Forest Service Student." Natives of Asia, Egypt, or the Sudan, born of non-European parents, can apply for permission to offer a substitute for Latin or Greek in Responsions and the 1st Public examn.

The DEGREES B LITT. AND B Sc, instituted in 1895 in order to encourage special study and research, are granted upon the satisfactory completion of an approved course of special study or research pursued under supervision and for the most part at Oxford. Application to enter upon such a course may be made by any person over the age of 21 years who produces sufficient evidence of his ability and (1) is a member of the Univ who has passed the examns for the degree of B A, or (2) is a graduate in Arts, Letters, or Science of a Univ within the U K, or (3) can satisfy the Education Committee that he has received a good general education. Applications must in all cases be made to the Asst Registrar through an officer of the Society to which the candidate belongs or desires to belong. Residence as a member of the Univ for 6 terms is a necessary condition for either degree.

Of the same nature but of a higher standard is the degree of DOCTOR OF PHILOSOPHY instituted in 1918 (v p 14).

To a student who, having kept residence for a period of not less than 3 terms, has completed a course of study or research for the B Litt or B Sc and embodied the results in a dissertation, or has pursued during such residence a course of study or research under the direction of the COMMITTEE FOR ADVANCED STUDIES, a *Certificate* may be granted by the Board of the Faculty or Board of Studies concerned or by the Committee for Advanced Studies, as the case may be.

The higher degrees, D LITT AND D Sc, instituted in 1900, are awarded for published work of sufficient merit.

THEOLOGY The B D degree is open to candidates of over 26 yrs of age who have passed a Qualifying examn in Christian Theology, pursued a course of study therein extending over 6 terms, resided for 6 terms, and submitted a thesis of sufficient merit in some branch of the subject.

The degree of D D is open to those who have been admitted to the degree of B.D. subject to certain conditions of standing, provided they have submitted a thesis, or published work, of sufficient merit in some branch of Christian Theology.

LAW The examn. for the B C L degree is open either (1) to B A's of the Univ or (2) under certain conditions (including residence for 6 terms) to graduates in Arts, Philos, Science, or Law of other Univs. The subjects are Jurispr., Roman, Engl, Roman-Dutch, and Internat Law.

MEDICINE The B M degree is open only to B A's of the Univ who have passed certain examns in Med and Nat Science. The total period of study for the degree (including the scientific subjects studied in the Arts course) is generally about 7 years, of which between 2 and 3 are usually spent in London in preparation for the more strictly professional subjects of the 2nd B.M examn. The M Ch. degree is open to candidates who have passed all the examns for the B M and B Ch, and either are members of the Surgical staff of a recognized hospital or have acted in such a hospital as Dresser or House Surgeon for 6 mos. A candidate for the D.M must be a B M, and have entered

on the 30th term from matricn. and had his name on the books of some Coll or Hall or on the Register of Non-Coll Students for 20 terms.

Affiliated Colonial or Indian Senior Students may be exempted from the preliminary examn in Physics, Chemistry, Zoology, and Botany, in consideration of equivalent Univ examns.

MUSIC The degree of B Mus. is open to candidates who *either* (a) have been admitted to the degree of B A or (b) have (1) passed Responsions or an equivalent or a special Prelim examn. for students of music, (2) satisfied the examiners in English or 1 of 3 language subjects in the Final Pass School, and (3) pursued either at the Univ. or at some approved institin a course of musical study, approved by the Board of Studies for Music, extending over at least 2 yearly courses. All candidates must also pass 3 examns in Music (the subject of one of which is the composition of a Musical Exercise) under conditions laid down by Statute. There is no residential qualification for the degree of B Mus, but the conditions of admission to the various examns. make it necessary that the candidate's name should be on the books of his Coll. or Hall or of the Society of Non-Coll Students for at least 9 terms. A B Mus may qualify for the degree of D Mus by submitting a musical composition for approval and passing a further examn in Music, but cannot submit a composition until the 9th term after his admission to the Baccalaureate.

DIPLOMAS Most of these are open to persons who are not members of the Univ. Minimum courses and addresses of Secretaries from whom particulars can be obtained

A *vacation course* of 4 weeks (fee £7 10s.) is held annually in August, open without restriction to men and women Students of this course who are graduates and who are teachers with 7 yrs.' experience may obtain the Univ. Diploma without further residence.

In 1910 a Delegacy for WOMEN STUDENTS was constituted, and provision made for recognition by the Univ. of Societies for their reception for academical study, students on the books of such Recognized Societies being accorded a privileged status. Under the provisions of a Statute approved by Convocation on May 11, 1920, which came into force on Oct. 7, 1920, women may be matriculated and admitted to degrees in the Univ. Previous to matriculation a woman must have been admitted as a member of one of the 5 Societies of Women Students A woman may be admitted to *Responsions* before matriculation provided her name is sent in to the Asst. Registrar by the Head or a Tutor of a Soc. to which she *bona fide* desires admission Women members of the Univ. are admitted to all degrees (except B.D. and D.D.) under the same conditions as those prescribed for men as regards standing, exams, course of study, exercises, and fees, and under analogous conditions as regards residence. A Women Students' Property Committee administers all property vested in the Univ. for the benefit of women members of the Univ. generally, and in particular the Nettleship Library and Bertha Johnson Loan Fund The Delegacy for Women Students has been abolished

SCHOLARSHIPS College Entrance scholarships are very numerous and valuable The Univ. scholarships are usually open only to members of specified standing Of those open to graduates, 16, of the aggregate value of £1130 p.a., are for Engl., Greek, and Latin; 1 (£100) is for Ment. and Mor. Philos., 2 (£80) for Maths., 8 (£1340) for Med. and Nat. Science, 4 (£440) for Law, 3 (£300) for Theol., 13 (£760) for Oriental Studies There are several College Research Fellowships tenable by persons distinguished in Science or Lit. (who may be elected without examn.) on condition of prosecuting some definite work.

The General Board of Faculties has power to provide studentships for advanced study and research, and there are certain funds, such as the Craven and Ireland, from which grants for the furtherance of particular studies may be made

The Rhodes Scholarships were founded in 1902 under the will of the late Cecil John Rhodes. The value of each Scholarship is £300 a year, with an additional bonus for the present of £50 a year, and they are tenable at Oxford for 3 years, subject to approval from year to year by his College of the Scholar's progress and conduct The conditions of the competition in each country or community are fixed from time to time by the Trustees.

In his will, Mr. Rhodes expressed the wish that "in the election of a student to a Scholarship, regard shall be had to (1) his literary and scholastic attainments, (2) his fondness for and success in manly outdoor sports, such as cricket, football, and the like, (3) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness, and fellowship; and (4) his exhibition during schooldays of moral force of character, and of instincts to lead and to take an interest in his schoolmates"

The Dominions and Colonies. An annual Scholarship is assigned to each Province of the Dominion of Canada; to each State of the Australian Commonwealth; to the Dominion of New Zealand; and in South Africa to the Province

of Natal, the Transvaal, the Orange Free State, the Cape Province, the S A College School in Cape Town, the Diocesan College School of Rondebosch, the Boys' High School, Stellenbosch, and the St Andrew's College School at Grahamstown, in alternate years to the towns of Kimberley and Port Elizabeth, and not more than three annually to Rhodesia. The Colonies of Jamaica, Newfoundland, and Bermuda have each an annual Scholarship. A single Scholarship was for the first time allotted to the Island of Malta in 1921.

In founding these Scholarships, Mr Rhodes stated that he did so because he believed that the education of young Colonists at one of our residential universities will "broaden their view," "instruct them in life and manners," and "instil into their minds the advantage to the Colonies as well as to the United Kingdom of the retention of the unity of the Empire."

United States of America. Two Scholarships are assigned to each State. Since the Scholarship is tenable for 3 years, there will be 1 year out of every 3 in which there will be no election. In each of the other 2 years 1 scholarship will be filled up if a suitable candidate offers. The reason given by Mr Rhodes for founding the American Scholarships is his "desire to encourage and foster an appreciation of the advantages which I implicitly believe will result from the union of the English-speaking people throughout the world, and to encourage in the students from the U S . . . an attachment to the country from which they have sprung but without I hope withdrawing them or their sympathies from the land of their adoption and birth." *The American Oxonian*, the official magazine of the Alumni Assocn of American Rhodes Scholars, is published quarterly by W W Thayer, Concord, N H, \$2 a year, 10s in England.

General Provision is now made under the Trust for the continuous residence at Oxford of 190 scholars. Candidates must be between 19 and 25 years of age and unmarried. They must be citizens of the country from which they come—usually with 5 years' domicile, and must have 2 years' standing at a regular degree-granting College or Univ, except in a few small communities which have no such institution. Detailed information for each country may be obtained from the offices of the Trust, Seymour House, Waterloo Place, London, S W 1.

Among books dealing with the subject are *The Rhodes Scholarships*, by Sir G Parkin, Houghton, Mifflin & Co, Boston, and Constable, London, 1913, and *Oxford of To-day*, a manual for prospective Rhodes Scholars, Oxford Univ Press, 1922.

LIBRARIES AND MUSEUMS. The *Bodleian Library*, founded by Sir Thomas Bodley in 1602, which is also the general library of the Univ, contains over 1,000,000 vols (representing more than 2,000,000 separate literary pieces) and 40,000 MSS. Persons, other than graduates of the Univ, are admitted on presenting a recommendation from some one in a responsible position. The *Manual for Readers* (obtainable from the Librarian) contains full information about the contents and catalogues of the Library. The chief books relating to it are Macray, W D, *Annals* (Clar Press, 1890, 25s), Clark, A, *Guide for Visitors* (Clar Press, 1906, 1s 6d); Gibson, S, *Some Oxford Libraries* (Clar Press, 1914, 2s 6d), Madan, F, *The Bodleian Library*, London, 1921, 2s 6d, *The Bodleian Quarterly Record* (1s quarterly, obtainable from the Libn.)

The Teylsonian Library of *Modern Languages and Literature*, 50,000 vols, comprises the chief philological, literary, and historical works of the principal European languages and nearly all respective Reviews, Literary periodicals, etc., of Continental Societies of importance. The Radcliffe (Univ Museum) consists very largely of books on Mathematics, Natural Science, and Medicine, and the Tylor *Anthropological* collection.

The Codrington Library (All Souls College) is especially rich in works bearing upon *Modern History and Law*. The Brand Library, also at All Souls, is a collection of books on *Political Economy and Science*. The Matland Library, at the Examination Schools, is intended to assist advanced work and research in *Social and Legal History*. There are also the following: the Beit Library (*Colonial History*) and the Library of the *English School* at the Examination Schools, a *Geographical Library* (5000 vols) and *Maps* (13,000 sheets) in Mansfield Rd., and a Library of *Economics and Politics* at Barnett House.

The *Indian Institute* has 23,000 vols representing ancient, mediæval, and modern India and including also Arabic, Armenian, Georgian, Turkish, Egyptian, Burmese, and Chinese works, Sanskrit and Prakrit MSS (printed catalogue), all the leading Oriental journals in English, French, and German, and a Museum giving an historical synopsis of Indian life and customs.

The *College Libraries* include many important collections such as the *Russian and other Slavonic* books, 5000 vols, of Queen's, *History and Literature* MSS of 17th Century, of Worcester, *Music and Early Scandinavian* collections of Christ Church. The MSS in the College Libraries are described in Coxe's Catalogue, published at the Clarendon Press.

Art and Archæology. The Ashmolean, the earliest English Museum, formed 1600–1650, contains, in addition to a Library of *Art and Archæology*, the Parian and other marbles, Egyptian and Oriental, Classical, Prehistoric, Anglo-Saxon and local antiquities, 60,000 coins and medals (published catalogue of Mohammedan coins), and a special collection of Drawings and Engravings by Ruskin.

The Pitt-Rivers Museum has an *Anthropological* collection illustrating evolutionary history of material arts.

Zoology, Geology, Mineralogy (17,000 spec), *Entomology* (Lepidoptera Collection illustrating mimicry, etc.), are all represented in the Univ. Museum.

LABORATORIES : Electrical, Clarendon (chiefly for study and research in Heat, Optics, and Acoustics), Chemistry, Organic and Inorganic (several Colleges have labs of their own, e.g., Ch. Ch., Magd.—Analyt. Chem.; Ball. and Trin.—Phys. Chem.; Jes.—Inorganic; Queen's), Physiol., Zool., with small expl. garden, Entom., with extensive Collections and Library, Botany (Garden with Collections and Library), Geology (special equipment for study of fossils by serial sections); Mineralogy (special facilities for research in Crystallography), Engineering; Forestry (expl. plantations and forest garden), Model Farm, Human Anat., Path and Bact., two *Observatories*.

There is an Institute for Research in *Agricultural Economics* which has prepared an Agr. Atlas of England and Wales, published by Ordnance Survey Dept. The Director edits the *Journal* of the R. A. S., England.

The OXFORD AND CAMBRIDGE SCHOOLS EXAMN. BOARD, established 1873, examines or inspects and reports on the work of schools which provide education of the highest grade. It also holds yearly examns. and awards certificates—Higher, School, and Lower. The two former exempt the holder, under certain conditions, from Responsions, Previous, Matric. examns. of London and of the Northern English Univs., and the Prelim. examns. of various professional bodies, etc. The Regns. of the Board are published by the Ox. and Camb. Univ. Presses (post free 1s. 3d.). Secretaries at Oxford—C. H. Wilkinson, M. A., Examination Schools, at Cambridge—T. G. Bedford, M. A., 61A St. Andrew's St.

LOCAL EXAMINATIONS are held in March, July, and Dec. at Oxford and elsewhere. Candidates successful in the School Certificate or Higher Local examns., or in the Higher School Certificate examn., are on certain conditions exempted from Responsions. The regns. may be obtained from the Secy. of Local Examns., Merton St. All the examns. are open to persons of both sexes.

EXTRA-MURAL STUDIES There is a Department for the non-vocational education of adult persons beyond the limits of the Univ. The Delegacy controlling the Dept. has two Committees, one for Univ. Extension Lectures and one for Univ. Tutorial Classes.

Univ. Extension Lectures The system begun in Camb. was adopted by Ox. in 1878. Up to the end of the session 1922–23 the number of persons attending courses was over 641,000, and the number of students examined 29,632; 21 summer meetings had been held. Reading Univ. Coll. largely owes its origin to extension work. The following certifs. are issued under the sanction of the Delegacy: Terminal, on courses of 10 or 12 lectures; Sessional, on 24; Sessional in Honours, implying distinction and a special essay; affiliation or Higher Certif. of Systematic Study, on a sequence of courses comprising 96 lectures *plus* a general examn.; Vice-Chancellor's, on same conditions as affiliation *plus* examn. in Elem. Maths. and 2 languages. The majority of the lectures are on historical, scientific, or literary subjects. Any Univ. Extension student who avails himself of all the advantages offered, including the Summer Meeting, can secure continuous and systematic instruction in almost any subject for a yearly outlay not exceeding £10. Two Colls. (Ball. and Ch. Ch.) have elected Senior Extension Lectrs. to Fellowships or Studentships in view of their success in Univ. Extension work. Further information can be obtained from the Secy. to the Delegates for extra-mural studies, Acland House, Oxford (Rev. F. E. Hutchinson, M.A.).

Tutorial Classes are held in working-class districts under the supervision of the above-mentioned Committee. Students pledge themselves to a 3 yrs. course. The classes meet once a week for 2 hrs. from Sept. to April, and each

student writes an essay about once a fortnight The Organizing Secy. is E S Cartwright, M.A., Barnett House, Oxford.

EXPENSES. "It is not possible to make any general estimate of the cost of a University course, which varies at different colleges, and depends upon the student's own means and tastes It must suffice here to enumerate certain items common to all undergraduates, and to recommend persons anxious for further details to consult the authorities of the Society which they wish to join. The total cost of living in college might perhaps be estimated at about £60 a term for a man who exercises reasonable care in his expenditure. At Keble College there is a fixed annual charge (at present £150), covering tuition, the rent of furnished rooms, board, and service The necessary expenses of a non-collegiate student have been estimated at about £81 per annum inclusive, which would make it possible to obtain the B.A. degree after a 3 years' course for a total outlay of £267 10s At the residential Societies for Women Students an inclusive terminal fee is charged This is about £50 a term, but varies slightly at the different Societies"—Extract from *General Information* pamphlet mentioned in preceding paragraph. The items specified are—(1) Annual Univ dues, £4 10s., College tuition fee, £24 to £31 10s.; room rent, £15 to £18, hire of furniture, £6, College clubs, £6, rates and taxes on the rooms occupied, College dues and establishment charges and servants' wages, kitchen and buttery bills, fuel, laundry, lighting, etc. (amounts not separately estimated). (2) Initial matricn, £4; College admission fee (usually £5, but often less), College caution-money, £10 to £30 (returned when name is removed from the books, and often in part on taking a degree). (3) Occasional examn fees, about £9 for B.A. (exclusive of Responsions, £3); degree fees (B.A., B.Litt., or B.Sc., £7 10s.).

What has been stated above regarding the difficulty of estimating expenses at Oxford applies equally to Cambridge. The *Student's Handbook to Cambridge*, 1923-24 (Cambridge University Press, 7s. 6d.), deals with the subject of expenses very fully, and concludes with the following remarks "The

total annual expenditure of a student, *exclusive of initial, occasional, and additional expenses*, may be fairly estimated at about £235, although on the one hand it is possible by great care to live upon less, and on the other hand a larger expenditure will often enable the student to obtain greater advantages from a University career . . . It is of the utmost importance that the foregoing estimates should not be taken for more than they are worth. . . . The only safe guide to a student's expenditure is information supplied by the college itself at which he decides to enter" The detailed statements on which the above estimate of annual expenditure is based include "guesses" as to personal expenses which the Oxford estimate leaves out of account. The items are —Univ fees (capitation tax), £5 5s, College fees, £54 (tuition, £24 to £30, establishment charge, £18 to £21, College dues, £4 to £10); board and lodging, £110 (rooms and service, £21 to £50, food expenses, £38 to £87, fuel, £5 to £7, laundry, £4 10s to £9), personal expenses, £67 (books, travelling, tradesmen—including tailor, etc., clubs, and societies). The excluded initial expenses are caution-money, College admission fee (£2 to £5), matricn £5, furniture, linen, china, etc., and (£2 to £4 10s) cap, gown, and surplice. The "occasional" fees are for examns. £8 (medical, £16 8s), and degree fees, £5. The "additional" expenses (which may be heavy, especially if much private tuition has to be allowed for) are additional lecture and laboratory fees, long vacation expenses, and private tuition.

THE YEAR 1922-23

BENEFACTIONS Sir Wm Dunn's trustees, £100,000 for School of Pathology and £3000 for adaptation of existing Pathology building as future School of Pharmacology. Bequests for scholarships by C D D. Gibbs, with accumulations from 1900 (Mod Hist and Chem), by Mrs A. P. Read, £3000, by Maria L. Medley, £20,000 (Polit Econ). Gift by Miss Ivy Williams, £7000 for 2 scholarships (one for women) in Jurisprudence, Dr Nanabhai N. Katrak, £1000 2½ per cent stock for founding lect'ship in Zoroastrian religion, Mrs E. Poulton, £200 2½ per cent stock for prize in Nat Sc (Hilda Walker Memorial), Rhodes Trustees, £200 for Reader in Pharmacology, anonymous gift of £150 towards endowment of Chair in Spanish. Duchess of Albany's bequest of collection of Stuart relics, F. H. Trench's bequest of library at Florence. Among grants by Colleges were £1000 for the Bodleian and £250 for Tutorial Classes and Summer School from All Souls.

NEW BUILDINGS, ETC For the new (Sir Wm Dunn) School of Pathology a site of 2.8 acres in the Univ Park was allocated. The Harmsworth Library of American History was opened.

LEGISLATION Separate Preliminary Examns in Agric and Forestry established. Diplomas in Rural Economy and in Forestry to be open only to those who have passed examns required for the B.A. degree and certain other classes of candidates. Certif in Mod. Hist. discontinued. Standing for B.C.L. reduced from 20 terms to 12. Provisions regarding "service students" extended temporarily to Officers in the Army and Navy who have been placed on the retired list owing to reduction of personnel. A new status of Indian Forest Service Student established for probationers for the I.F.S. who have obtained an approved degree of an approved Univ. Italian and Spanish added to subjects which may be offered at Responsions and for the Final Pass School.

RELATIONS WITH OTHER UNIVS. The first visiting Fellow on the Jane Procter Foundation at Princeton Univ was nominated (R. B. McCallum).

The first three scholars on the Henry Davison foundation were elected to the Univs of Harvard, Yale, and Princeton. The Board of the Faculty of Theol sent a resolution of sympathy to the Univ of Berlin on the death of Prof. E Troeltsch. An address was sent to the Univs of Paris and Strasbourg on the occasion of the Pasteur centenary celebrations. Sir Paul Vinogradoff was granted leave for Michs term to lecture in American Univs.

OTHER OUTSTANDING EVENTS Promise by Govt to increase annual grant, with effect from 1923-24, from £30,000 to £60,000 (including £4000 earmarked for women's colleges), with a view especially to superannuation scheme, increase of stipends, maintenance of Bodleian library, and some extension of extra-mural work, also to make a non-recurrent grant not exceeding £35,000 in respect of superannuation arrears. Reorganization of administration of Natural Science Museum. Completion of Survey of Rural Industries.

GENERAL INFORMATION

The Univ was founded by Charter, 1893. The teaching for initial degrees is undertaken by the constituent and associated Colleges, and matriculation in the Univ is open only to students of those Colleges. In the case of an associated College, only to students who are graduates of a Univ of the United Kingdom or of *St David's College, Lampeter*. The Univ prescribes conditions under which it awards initial degrees to students of the Colleges and conducts the final exams. An Academic Advisory Committee deals with the conditions on which School Leaving certificates are accepted by the Univ for matriculation, and as relieving a student from repeating in College work done in Secondary Schools, and with other matters lying in the borderland between School and Univ.

As the result of an inquiry held by a Royal Commission in 1916-1918, a Supplemental Charter was granted to the Univ in 1920, which introduced many important changes, including reconstruction of the Univ Court, a deliberative and legislative body, with 263 members, of whom a little over a half are representatives of Local Education Authorities, institution of a Univ Council, as the executive and administrative body of the Univ, controlling the finance and distributing all the funds provided for Univ Education; provision of such funds from a penny rate levied throughout Wales and Monmouthshire, supplemented by an equivalent grant from the Treasury, larger freedom for the constituent Colleges (now increased to four, by the inclusion of Swansea) in the control of the Courses of Study and in the conduct of their own exams for initial degrees, Univ Examiners now taking part only at the final stages, development of a National School of Medicine in connexion with Cardiff College, new Boards for special studies, such as the Board of Celtic Studies and the Council of Music, Univ Press Board, enlarged scheme for extra-mural instruction, Univ Extension Board, Appointments Board.

DEGREES B.A., M.A., Ph.D., D.Litt., B.Sc., M.Sc., Ph.D., D.Sc., B.Mus., M.Mus., D.Mus., LL.B., LL.M., LL.D., M.B., B.Ch., M.D., B.D., D.D.

The minimum period of study for a first degree is 3 yrs. In Music the 3rd yr may be in any approved Coll of Music. The degree in Med is only open to a graduate in Arts or Science of some British or approved colonial or foreign Univ., the period of qualification for it is 6 yrs, of which the last 3 may be spent in an approved School of Med in the U.K. or in one of the Univs of Paris, Berlin, Vienna, or the Johns Hopkins Univ. The degree of B.D. (3 yrs' course) is post-graduate, the scheme of study is pursued in one of the Associated Theol Colls (v *supra*). The scheme of study for an Honours Degree ordinarily covers 4 years. The M.A., M.Sc., and LL.M. may be awarded to graduates of other Univs approved for this purpose who pursue a scheme of research for at least 2 yrs in one of the Constituent Colls. As regards Ph.D., see p. 14.

THE YEAR 1923

BENEFACTIONS Dan Radcliffe, £50,000

CHANGES IN REGULATIONS, ETC New regulations for the matricn examn were adopted, reducing the number of subjects required to be passed from 6 to 5—but requiring that all 5 should be passed at one and the same examn, allowing Maths as alternative to Greek or Latin, provided that one language other than English is included, and a branch of natural science as alternative to Maths, and introducing Biology and Music as subjects in the examn

Amended regulations for the LL B were adopted, reducing the period of study for a pass degree to 3 years, and instituting an Honours degree

The teaching of theological subjects in a constituent College was admitted, and a joint scheme of study for the B D degree, submitted by the Univ Coll of N Wales and the Joint School of Univ Theol Studies, Bangor, was provisionally approved

The NATIONAL COUNCIL OF MUSIC was active in promoting the cultivation of Music in schools. At its request a Conference was held in Nov 1922 of representatives of the Board of Education, heads of training colleges, and certain education authorities, at which attention was drawn to the urgent need of provision for the training of teachers, Saturday classes, summer schools, and refresher courses and school orchestras

3 CONFERENCES between representatives of the Univ, the Univ Colleges of Cardiff and Swansea, the Treforest School of Mines, Miners' Welfare Funds, certain County Councils, the Coal Owners' Association, and Miners' Federation on the general question of Mining Education in Wales led to the appointment of a Committee to prepare a scheme for the promotion of the higher types of Mining Education

APPOINTMENTS BOARD. The number of appointments secured through the medium of the Board was 234, including 15 foreign appointments

GENERAL INFORMATION (v. also p. 207)

Opened in 1883 and incorporated by Royal Charter in 1884, this is now one of the constituent Colleges of the Univ. The Medical School was opened in 1894, the Engineering School in 1896. New College Buildings, containing the Arts and Administrative Blocks and the Drapers' Company's Library, were opened in Cathays Park (wherein the Univ. Offices are also located) in 1909, the William Jones Memorial Physical Research Laboratory in 1912. Physiological Dept. Buildings were completed and occupied in 1919, and formally opened in June 1921 by the Prince of Wales, who at the same time laid the foundation-stone of the buildings of the Dept. of Public Health and School of Preventive Medicine. In Oct. 1921 the development of the Medical School into the "Welsh National School of Medicine" enabled provision to be made for complete courses for a Degree or other qualification to practise Medicine.

LIBRARY Drapers' Company's, 52,000 vols. **MUSEUMS**: Anat., Mat. Med., Path., Zool. The National Museum of Wales (Art, Archaeol., Zool., Geol., Bot.) is located in an adjoining building. **LABORATORIES** Physical Research, with liquid-air plant, etc., Engineering (including 100-ton testing machine), and usual Science and Medical teaching and Research labs. The Cardiff Royal Infirmary (between 300 and 400 beds) is within five minutes' walk of the College. Clinical facilities are available also in other local hospitals.

FACULTIES Arts, Science, Medicine (Welsh National School of Medicine). **Departments** Music, Applied Science and Technology, Teaching (Elem. and Secondary), Advisory and Research Dept. in Agric.

COLLEGE DIPLOMAS Engineering, Metalliferous Mining, Metallurgy; Welsh Lang and Lit., Economics and allied subjects, Music, Social Study and Training. In the Applied Science subjects the qualifying scheme of study covers 3 years, in the other subjects, 2 yrs. A Joint Diploma in Coal Mining is granted by the Coll. and the S.W. and Monmouthshire School of Mines, 4 yrs' residence being required. After a 4 yrs' course students who desire to specialize in certain subjects can take a post diploma course. A Joint Diploma in Mech. Engin., Marine Engin., or Industr. Chem. is granted by this Coll. and the Cardiff Tech. Coll. after a 3 yrs' course. The *Associationship* of the Coll. is given to students who attend the Coll. Classes for not less than 2 sessions, and who graduated at a Univ. in the U.K. or are otherwise qualified.

AFFILIATION The Coll. is affiliated to Cambridge and (through the Univ. of Wales) to Oxford.

SCHOLARSHIPS (Prospectus obtainable from the Registrar). One of £60 is offered for research by a woman in any faculty, one of £50 (which may be increased by a bonus) for Science research. See also under Univ.

GENERAL INFORMATION (v. also p. 207)

Incorporated by Royal Charter, dated Jan 21, 1920, the College was made a constituent College of the Univ of Wales under the terms of a Supplemental Charter granted to the Univ on Aug 13, 1920

The administrative offices, assembly hall, library, common rooms, and refectory, in addition to the Arts and some of the Science departments, are accommodated in a mansion in Singleton Park, presented, together with 19 acres of land surrounding it and 15 acres for playing-fields, by the Corporation of Swansea, which also gave £50,000 towards the cost of the building and equipping of the new Departments of Physics, Chemistry, and Metallurgy on an adjacent site. The Dept of Engineering is temporarily housed in the buildings of the Swansea Technical College. The foundation-stone of the College buildings was laid by H M the King on July 19, 1920

Situated in the heart of a district possessing a long and interesting metallurgical history and presenting an unrivalled variety of present-day metallurgical practice, the College offers exceptional advantages for preparation for professional careers in the metallurgical industry. The manufacturers of the district, who contribute largely to the support of the College, give the staff and students ample opportunities of keeping in close practical touch with manufacturing processes in the works. To ensure the closest possible co-operation with the local industries, Advisory Committees in Metallurgy and Engineering have been set up

FACULTIES Science and Arts Departments Metallurgy and Engineering, and Training of Teachers (men and women) for Elem and Sec Schools

COURSES FOR DEGREES, ETC Courses (3 years) of study are provided in preparation for the degrees of the Univ in Pure and Applied Science and Arts, also in preparation for the College diplomas in Metallurgy and in Engineering, also Complete Prelim Science Course for medical students and classes in Law for articled clerks

FEES For tuition in Pure or Applied Science, £20, Arts, £15, Registration, £1 is p a, for Research, from 6 to 10 gs

RESIDENCE Hostels for men and for women students. A list of Registered Lodgings is kept by the Registrar

THE YEAR 1922-23 **BENEFACTIONS** Swansea Chamber of Commerce (Coal Export Committee), £800, Catherine Davies, £25, annual subscriptions, £6000, other gifts, £107. **BUILDINGS** for Metallurgy, Physics, and Chemistry completed, total cost of buildings and equipment approximately £65,000. **RESIGNATIONS**. Dr J Marshall, appointed to a Readership at the Bedford College for Women, succeeded by Dr P Dienes from Aberystwyth Univ College, S A. Handford, appointed Assistant Lecturer in Classics at King's College, Miss D I Adam. **STUDENTS**, full-time in Arts, 84 (including women—44); Pure Sc, 68 (w—16), App Sc, 41; Med, 5, graduate, 9, dipl, 2; part-time, 104 (w—49). REPRESENTATIVES IN PARLIAMENT

SIR GEORGE A BERRY, M B, LL D., DUGALD M'COIG COWAN,
M.A., Rt Hon SIR HENRY CRAIK, K C B, M A, LL D

IN CONSTITUTION these 4 Universities have under the operation of the Univs (Scotland) Acts, 1858 and 1889, been to a great extent assimilated. By the former Act 2 new bodies, called the Univ Court and General Council, were instituted, by the latter a Committee of H M's Privy Council was constituted, and an Executive Commission was created with extensive powers, which it continued to exercise till the end of 1897. These Commissioners issued ordinances, *inter alia*, for degrees, for the instruction and graduation of women, for special study and research, and for the constitution of a Students' Representative Council with power to petition the Senatus Academicus and the Univ Court.

The *Chancellor* is elected (for life) by the General Council, of which he is President. He is empowered to nominate a *Vice-Chancellor*, who may confer degrees in his absence, but cannot discharge any other of his duties. The Vice-Chancellorship is at the present time held in each Univ. on the Chancellor's nomination by the *Principal*, who is appointed by the Crown (except in Edinburgh) and is President of the Senatus Academicus, and, in the absence of the Rector, of the Univ Court. The *Rector* is elected every 3 years by the matriculated students. He is the official President of the Univ Court.

The *University Court* consists of the Rector, Principal, the Lord Provost of the City (in St And the Provost of St Andrews and Lord Provost of Dundee), and Assessors appointed by the Rector, Chancellor, Senatus, General Council, and (except in St Andrews) Town Council. In St Andrews the Principals of St Mary's Coll and Univ Coll, Dundee, are also included in it. There is provision for the representation of other affiliated Colleges. The Court, a body corporate with full power to administer the property belonging to the Univ, is a Court of Appeal from the Senatus and has power, since the expiration of the powers of the Commrs under the Act of 1889, to found new chairs with the approval of the Univs Committee and make other ordinances with the approval of H M in Council. It has, *inter alia*, powers to appoint professors whose chairs are in the patronage of the Univ, examiners and lecturers, to define the nature and limits of a professor's duties under his commission, and to recognize for graduation purposes the teaching of any College or individual teacher, under the regns providing for such recognition.

The *Senatus Academicus*, consisting of the Principal, the whole of the Profs, and certain Readers and Lecturers, is entrusted with the regulation and superintendence of the teaching and discipline of the Univ. The administration of the Libraries and Museums is entrusted to Joint Committees elected two-thirds by the *Senatus* and one-third by the Court.

The *General Council* consists of the Chancellor, the members of the Univ. Court, the Profs, such Lecturers and Readers as have held office for a year, and the Graduates of the Univ. It meets twice a year and may hold special meetings at the instance of the Chancellor. Proposed improvements in the arrangements of the Univ. must be submitted to the Council for their consideration.

The General Councils of the four Universities elect three *Members of Parliament*.

FACULTIES In all the Univs—Arts, Science, Divinity, Medicine. In all except St Andrews—Law. In Edin. only—Music. In Glas. only—Engineering.

SESSIONS Oct. to March and April to May or June. The winter session is divided into 2 terms. In Divinity there is no regular summer session at Glas. or Aberd.

ADMISSION (v. also p. 5) The Preliminary Examn. Regulations prescribe for a candidate for a first degree in Arts or Science or Medicine that before entering on the curriculum he pass on specified standards an examn. in (1) English, (2) Latin or Greek, (3) Maths, (4) another (approved) language or Dynamics, provided that Science and Medical Students may substitute French or German for Latin or Greek, and candidates for the B.Sc. in Engineering need not pass before entering on the curriculum, but only before taking any part of the First Science examn.

Exemption (pro tanto) is granted in consideration of having passed approved equivalent examns. Candidates from abroad, whose native language is other than English, must pass a Special examn. in English (held in March and Sept., in set works and an oral examn.). Candidates from the British Empire overseas, whose native language is English and who have passed examns. which would admit them to Univs. or Tech. Colleges affiliated to Univs. in their own country, will be exempted, but candidates for degrees in Engineering must show they have a sufficient knowledge of Mathematics (*e.g.*, if from India, such as is implied by a satisfactory pass in the Interim examn. of an Indian Univ.). Indian students must have passed an Interim or Final Arts examn. Similarly the Baccalauréat-ès-Lettres or ès-Sciences will exempt from the Prelim. examn. for Arts or Science courses respectively or for Medical courses, and Certificates of Maturity or Grades similar to the French Baccalauréat which would entitle the holder to enter upon a regular course of study in the Univs. of his own country will similarly exempt other students from the continent of Europe.

N.B. A Certificate submitted as proof of title to admission to Univs. abroad should be accompanied by an authenticated declaration by a Government Official or Official of an Agency-General, Embassy,

Legation, or Consulate of the country to which the applicant belongs, testifying that it has the alleged value. If in a foreign language, certificates should be accompanied by certified English translations

Argentine Certificates giving admission to the Univ of Buenos Ayres, the B A degree of St John's, Shanghai, the first-class certificates of the Anglo-Chinese College, Amoy, and, if including Arabic, English, Maths, and—for Arts courses—French, the Egyptian Secondary Education Certificate, have been recognized as exempting from the Prelim. examn

Applications for exemption on the ground of having passed any of the above-mentioned examns, *or on other grounds*, should be addressed to the Secretary of the Entrance Board, 81 North Street, St Andrews.

DEGREES and courses leading thereto (v also p 10) The *M A* (ordinary) course (there is no *B A*) extends over 3 yrs and, except at St And (v p 275), includes (for ordinary degree) subjects from 3 of the 4 departments of the Faculty, namely Lang and Lit, Ment Philos, Science, Hist and Law A candidate for the degree must not only have regularly attended, but also have duly performed the work of the classes in the qualifying courses The first 2 yrs may be taken in any of the Scottish Univs The Senatus may accept attendance given and examns passed at other Univs specially recognized for the purpose, provided that qualifying courses for at least 2 yrs are attended and the Degree examns are passed in the Univ granting the degree For the purpose of reckoning duration of study an academic yr is constituted by attendance on at least 1 course (Glas and St And, 2 courses) of study in each of the 3 terms The degree is never conferred *honoris causa* For *M A* (Hons) 4 yrs' study is generally required

The *B Phil* and *B Litt* are conferred only by St And A candidate for either of these degrees must take the *M A* either before or along with it The standard of the Final examn is that of the *M A* Honours

The *B Com* conferred by St And, Aberd, and Edin may be taken, under conditions as to place of study similar to those for the *M A*, after courses covering at least 9 terms

The *Ed B* involves a 2 yrs' course subsequent to the first 3 yrs of study for a previous degree, in addition to Professional training or experience as a teacher

The practical part of the training of students preparing for the *Teaching Profession* is provided by the several Provincial Committees, which likewise recognize attendance at Univ. classes as qualifying for their certificates.

The B Sc in Pure Science The course for the ordinary degree covers 3 yrs (Edinburgh 4 yrs) and includes from 7 to 9 courses, of which 4 or 5 must be taken in the Univ which is to grant the degree The other 3 or 4 courses may be taken in other Univs or Institns. approved, or under teachers recognized for this purpose, by the Univ Court The degree with Honours requires 4 yrs, and is of a standard not less high than that required for *M A* (Hons)

The B.Sc in Applied Science can be obtained in Agric (Aberd, Edin, Glas.), Applied Chem (Glas), Tech Chem (Edin), Engin

(Edin., Glas., St. And), Mining Engin (Edin , Glas.), Forestry (Aberd , Edin), Pharmacy (Glas), Pub Health (Edin , Glas), Vet Sc (Edin). The course for the B Sc in Applied Chem , Tech Chem , Agric (Edin), or Vet. Sc covers 4 yrs , in Pub Health 18 months (after graduation in Med), and in other branches 3 yrs The degree of B Sc in Engineering of Glasgow, now an Honours Degree, also covers 4 yrs

Higher Degrees in Arts and Science The D Sc in Pure Science, in Engin (Edin , Glas , St And), Pub Health (Edin , Glas), Tech Chem , Agric , and Vet Sc (Edin), and the D Litt are open to graduates of 5 yrs ' standing A thesis is required and, except in the case of a graduate of a Scot Univ. with an Honours degree (St And , a graduate of the Univ granting the degree), research under supervision extending over 2 yrs in the Univ which is to grant the degree These degrees are never granted *honoris causa*

Divinity The B D examn of any of the Univs is open to a graduate in Arts (1) of the same Univ who has taken a complete Theol course in a Scot Univ or other specially recognized Institn , (2) of any Scot or other specially recognized Univ who has completed his Theol. course, of which not less than 2 yrs has been in the Univ, in which he proposes to take the B D The D D is honorary The Gifford Lectures in Natural Theology are open to the general public

Law The B L course (3 yrs) is open to students who have passed the Arts Prelim or its equivalent, with Latin (Higher Standard) as one of the subjects The LL B (3 yrs) is open to graduates in Arts of a Univ of the U K or any other specially recognized

Of the B L course 1 yr and of the LL B 2 yrs may be spent in any specially recognized Univ or School of Law

St And does not at present provide full courses for or grant these degrees The LL D is honorary

Medicine Three of the requisite 5 yrs of medical study for the M B and Ch B may be spent in any Univ of the U K or other Institn. specially recognized for the purpose or under a teacher recognized by the Univ A candidate who has at any such Univ completed a course and passed an examn in Chem , Physics, or Biology qualifying for a degree in Science, Arts, or Med may be exempted by the Senatus from the corresponding part of the M B , Ch B examns Aberd and St And extend this concession to courses and examns in Anatomy and Physiology qualifying for a degree in Science (St And —or Arts or Med)

A graduate in Medicine of at least 24 yrs of age who has, subsequent to graduation, been engaged for at least 1 yr in attending the Med (or Surg) wards of a hospl., or in scientific work bearing directly on his profession, or in the Naval, Milit , Colonial (Aberd , Edin , Glas), or, for the M D (St And —M D or Ch M), Pub Health Med Services, or 2 yrs in practice not restricted to Surg (or Med), and passed the prescribed examn and submitted a satisfactory thesis, may be admitted M D or Ch M as the case may be.

Ph D See p 14.

FEES The Matriculation, 2 gs. *per annum* , inclusive Tuition fees

per annum in Arts are 15 gs, in Science 25 to 30 gs, examn. fees for M.A., 7½ gs, B.Sc., 9 gs; M.B., Ch.B., 33 gs., graduation, £1. Further information is given in the several Univ sections

RESEARCH OR SPECIAL STUDY may be prosecuted in a Univ under supervision by persons suitably qualified, whether graduates or not, admitted by the Senatus. Access to and the use of the Univ laboratories, etc., may be obtained on such conditions as to payment and otherwise as the Univ. Court may determine. The title of Research Fellow may be conferred with or without a stipend on specially distinguished research students.

APPOINTMENTS COMMITTEES have been constituted in all the Univs to help students to find employment.

SCHOLARSHIPS Provision for affording Univ instruction and maintenance to students of small means is probably nowhere more ample than in Scotland. Besides the numerous bursaries, etc., awarded by the Univs, and the Carnegie Trust benefactions (*v infra*), the Provincial Committees for the Training of Teachers award bursaries, according to the necessities of students, of from £5 to £25, and travelling, hostel, and other special allowances, and Secondary Education Authorities may assist any duly qualified person resident in their areas to enter or attend a Univ, Training Coll., etc.

Scholarships, etc., for Graduates The following are open to graduates of all the Scot Univs: (1) Carnegie Scholarships (£150) and Fellowships (£250) and grants in aid of Research. Application forms supplied by the Carnegie Trust, 22 Hanover St., Edinburgh. (2) Ferguson—six of £80 each for 2 yrs for graduates in Arts. Ferguson Bequest Fund, 94 Bath St, Glasgow. (3) M'Cunn—two of £200 and two of £400 for 1 yr, for medical research. M'Cunn's Trustees, 160 West George St, Glasgow. (4) Shaw Philosophical—£200 for 5 yrs for graduates in Arts (in the Patronage of Edinburgh Univ). (5) Blackie—in Greek, £170 for 1 yr for graduates in Arts who are students of Theology.

CARNEGIE TRUST FOR THE UNIVERSITIES OF SCOTLAND. Offices at Merchants' Hall, Hanover Street, Edinburgh. Secretary, Jas Robb, LL.B.; Treasurer, Jas Davidson.

The annual income of the Trust is about £125,000, one half of which is devoted to (A) the improvement and expansion of the Universities of Scotland in the faculties of Science, Medicine, History, and Mod Langs., and extending opportunities for scientific study and research, and Technical or Commercial Univ. education, the other half to (B) assisting Scottish students in the payment of Univ class fees. Any surplus not required for (B) in any year is to be devoted to (A). Institutions in Scotland recognized by the Executive Committee of the Trustees as preparing students for graduation or as providing technical or commercial education of University level are entitled to participate as regards (A) and their students as regards (B). Any surplus not required for (A) or (B) may be devoted to Univ. Extension work.

The Regulations for Assistance in the payment of Class fees provide,

inter alia, that applicants should hold the Leaving Certif of the Scottish Educn. Dept bearing evidence of such preliminary education as is required by the Univs. for their respective graduating curricula Where for satisfactory reasons such Leaving Certif has not been obtained, the Exec. Committee may accept instead what they deem equivalent evidence of attainments, provided that no applicant will be eligible who has to pass any further prelim examn before completing his graduating curriculum. The annual report of the Exec. Committee contains reports of experts on the work of beneficiaries and lists of papers published by them

Research Fellowships, Scholarships, and Grants awarded for 1922-23
St Andrews—23, value £3746, Glasgow—25, value £1984, Aberdeen—8, value £1160, Edinburgh—31, value £4031 Total—87, £10,921.

Class Fees paid for 1922-23. St A—£4655 for 357 beneficiaries, G—£24,117 for 2089, A—£8831 for 774, E—£16,335 for 1357

Under a Fourth Quinquennial Scheme of Distribution for the period from Oct 1, 1920, to Sept 30, 1925, there has been allocated a sum of £224,300, distributed thus St A centre—£37,200, G—£69,500, A.—£42,250, E—£75,350.

THE SCOTTISH STUDENTS' INTER-UNIVERSITIES CONFERENCE At this Conference, which is held annually, and meets in rotation at St Andrews, Aberdeen, Glasgow, and Edinburgh, the students of the 4 Univs discuss matters of general interest to them all The Students' Representative Council of each Univ sends 4 delegates, one of whom must be a woman-student The convener of the Inter Academic Committee (v p 19) also attends and reports on the work of the National Union of Students for Scotland, and each Univ's Union and Students' magazine are represented The President and Secretary of the Conference are the President and Secretary of the Students' Representative Council of the Univ. at which the Conference is held A record of the work of each Conference is printed and distributed to each of the Univs concerned By providing a common meeting-place for the students of the Scottish Univs, this Conference is largely responsible for the feeling of solidarity which is a marked feature of student life in Scotland The 30th meeting was held at Glasgow in January 1923, when R Edgar Rawson, M A (S R C Office, The University, Edinburgh), was appointed Corresponding Secretary for the N U S.

GENERAL INFORMATION (v. also p. 238)

The "University and King's College of Aberdeen," founded under a Papal Bull in 1494, and the "Marischal College," founded in 1593 by George Keith, Earl Marischal, were reconstituted in 1860 as "The University of Aberdeen." Certain of the original buildings remain, notably the Chapel (A D. 1500).

The LIBRARY, founded in 1500, has 250,000 vols. and 200 Incunabula, some unique. It is especially rich in Celtic literature, and books bearing on the history, topography, and antiquities of the Scottish Highlands, and Classical Archaeology. Annual budget about £3500. MUSEUMS. Anthropological (illust. cat 1s), Surgical (2500 specimens and 600 instruments), etc. Besides the usual LABORATORIES there is the Rowett Institute of Research in *Animal Nutrition* near Bankhead, with departments of Physiology, Bio-Chemistry, Bacteriology and Pathology, and attached Animal Husbandry section for practical experiments in feeding, etc. It is under the management of a joint committee of the Univ. and the N. of Scotland College of Agric. Hospitals available for clinics Infirmary, 230 beds; Children's, 85; Fever, 100; Lunatic Asylum, 700.

DEGREES, ETC. (v. p. 240). For Diploma courses in Agric. (3 yrs) and

Forestry (2 yrs) there is a preliminary examn in English and Maths. The papers in the Final examn in Agric. are the same as those set for the B Sc Agri. The only other Diploma conferred is the D P H. Univs outside the United Kingdom which have been recognized by the Univ Court *pro tanto* as institutions in which 3 of the requisite 5 yrs of medical study may be taken, provided that the prescribed conditions with reference to such study are fulfilled. Bom., Calc., Mad., Adel., Melb., Syd., N Z., S. Africa, Dal., Queen's (Kingston), Tor., McGill, Chic., Corn., J H U., Harv., Stanf., Mich., Penn., Yale. Individual teachers in other Univs may be recognized upon satisfying the Univ. Court with respect to their courses. The following have been recognized in respect of courses and examns in Bot., Zool., Biol., Physics, and Chem. qualifying for a degree in Science or in Arts or in Med. Bom., Calc., Mad., All., Panj., Rangoon, Melb., Syd., Adel., Queen's (Kingston), McGill, Tor., Manit., S. Africa. The courses and examn in Anat. and Physiol. for the Science degree of the Univ. of Cape Town have been recognized.

GENERAL INFORMATION (v. also p. 238)

Originally the "Town's College," founded in 1583 by the Town Council under general powers granted by Royal Charter, April 14, 1582 The Old College on the site of "Kirk o' Field," the scene of the murder of Lord Darnley, was designed by Robert Adam, and completed in 1838 New buildings include the M'Ewan Hall (1888-97), in theatre form, which holds 2600 people and has a great electric organ. The Medical School of this Univ has been famous for many generations, specially ample provision exists also for instruction and research in Theology (post-graduate school instituted 1919), Agric, Forestry, Engin, and Vet Sc. Edinburgh is the seat of the Scottish Supreme Courts of Law.

LIBRARY, founded in 1580, 300,000 vols , 8000 MSS , includes special collections—Shakespearean, Sanskrit, Celtic, Persian, and Arabic MSS , Economics

(Hodgson), Math tables by E. Sang, transactions of Engin. Societies in Great Britain and America **MUSEUMS**: Nat. Philos., Fine Art, Geol., Nat. Hist., Chem., Forestry, Agric., Entom. and Forest Zool (Waterhouse collection of Coleoptera), Anat (founded with the Monro collection in 1800; numerous specimens of Cetacea and human crania), Physiol., Mat Med (notable collections of medicinal and food substances, including those of Duncan and Christison), Forensic Med., Practice of Physic, Surg., Obst (Simpson collection), Music and Musical Instruments. The Prof. of Botany is Regius Keeper of the Royal Bot. Garden. The Prof. of Astronomy is Astronomer Royal for Scotland and gives practical courses at the *Royal Observatory*. The **LABORATORIES** are especially well equipped for research in Anat., Anthropol., Bact., Chem. (a section of the new Laboratories at King's Buildings is now in use; when completed there will be accommodation for about 400 students), Engin. (notably Hydraulics, Strength of Materials, Elec Engin.), Mat Med., Path., Physics, Physiol., Psych., Pub Health (Institute built 1902, costing £21,000). The Univ has a table at the Millport Marine Station. **HOSPITALS** the Royal Infirmary adjoining the Univ provides over 900 beds for clinical teaching, in addition to the Children's, Maternity, and Fever Hospls., and Lunatic Asylums. Over 50 resident posts in these are given annually to Med graduates.

DEGREES AND DIPLOMAS (v Scottish Univs) A diploma in *Education* is granted on completion of Univ courses (1 yr) and passing exams in Psych., Theory and Hist. of E., and modern E. Systems and Problems. Candidates must have attended a course of Professional training or have had at least 3 yrs' experience as a teacher, and must have completed a graduation course in Arts. Diplomas are also granted in *Actuarial Mathematics* (2 yrs.), *Forestry* (2 yrs.), *Geography* (open to graduates or students about to graduate in Arts or Science), *Technical Chemistry* (open to graduates who have taken a degree in Science with Honours in Chemistry), and a Diploma and a Certif. in *Social Study*.

GENERAL INFORMATION (v. also p. 238)

Founded by a Papal Bull in 1451, after the model of Bologna, the Univ. was reconstituted by a Charter of King James VI of Scotland in 1577. In 1864-70 the old college buildings and site were sold and new buildings were erected in a more suitable position on the crest of a hill (Gilmorehill) to the west of the city. Funds for this were obtained partly from the proceeds of the sale, partly from public subscription, and partly from a Parliamentary grant of £120,000. Queen Margaret College was acquired by gift in 1893 for the use of women students. The Carnegie Trust contributed £60,000 towards the cost of additional buildings which were completed in 1907, and a neighbouring estate was presented by the MacLellan family in 1917.

The LIBRARY, founded in the 15th century, contains 200,000 vols, including 300 books printed before A.D. 1500, and much other material for research. More than 500 current periodicals are taken in. The HUNTERIAN MUSEUM, founded in 1783, contains important collections of MSS., coins, anatomical preparations, zoological and mineral specimens, etc. Large new departments with spacious LABORATORIES have been erected for Engin., Bot., Nat. Philos., Chem., Physiol., Anat., Path., Mat. Med., Forensic Med., Pub. Health, and Zoology. There are BOTANICAL GARDENS and an OBSERVATORY. As Glasgow

stands at the centre of the shipbuilding, engineering, mining, and industrial area of Scotland, it offers unique opportunities for technical training. Three large general Hospls are available for clinics, besides special institutions (including Consumption Sanatoria).

FACULTIES. Arts, Science, Engineering, Medicine, Theology, Law. Depts. of Applied Science—Engineering (Civ, Elec, Mech, Mining, Naval Archit), Applied Chem., Agric., Public Health, Pharmacy.

DEGREES, v. p 240 Applications by Overseas students for remission of part of the class attendance for B Sc in branches other than Engineering will be considered sympathetically. *Diploma* in Education, 1 yr course, for graduates (the first yr of the Ed B course). *Certificates* of Proficiency in Engineering Science and in Mining Engin, 3 yrs' courses, of which first yr may be taken in Roy Tech Coll, no prelim examn.

The list of extra-academical teachers whose courses in certain subjects are recognized as qualifying *pro tanto* for graduation include several resident outside the United Kingdom, namely in Cape Town (in Nat Philos, Chem, Bot., Zool), Grahamstown (Physics, Chem, Bot, Zool), Johannesburg (Zool and Chem), and Stellenbosch (Bot, Chem, Physics).

For detailed information regarding POST-GRADUATE study and research in any Faculty application should be made to the Dean, v also p 242. A Post-graduate *Medical Assocn* organizes demonstrations for Med Practitioners, fee for series, Nov to May, 3 gs, programme obtainable from the Secy, P-G. Med Assocn, The Univ.

CLASS FEES For LL B, 40 gs, B L, 30 gs, M B, Ch B, about £250 for 5 yrs. Combined M A. and B Sc, 112½ gs. V also p 241.

SCHOLARSHIPS FOR GRADUATES about 76 of from £30 to £280 p a, most of them open only to graduates of Glas. (For undergraduates there are 480, varying in value from £10 to £50 or more p a, chiefly in the Faculty of Arts, in addition to Bursaries of from £5 to £25, awarded by the Provincial Committee for the training of teachers.) V also p 242.

RESIDENCE. Two Hostels for men students—the MacLay Hall and the MacBrayne Hall—which are under the control of the University were opened in 1923. Lodgings or board with private families with use of 2 rooms, generally obtainable in neighbourhood of the Univ, for from 35s to 50s per week. A few students' hostels or settlements, of limited accommodation, where the charges are lower, are run by private committees or bodies of students and graduates.

A STUDENT WELFARE COMMITTEE has been formed for the purpose of raising funds for the provision of Hostels, increased Union accommodation, and the completion of the Athletic Ground. Grants have been received from the Univ. Grants Committee and the Carnegie Trust, and many donations have been received from private benefactors and other sources. In all the sum of about £85,000 has been raised.

ADULT EDUCATION Free public lectures are delivered during winter on various subjects.

PUBLICATIONS. *Calendar* (July), *Glasgow Univ. Magazine*, weekly during winter session; *Examn Papers*, Prelim and Degree, 6d per set; *Annual Handbook* for matriculated students; *Handbook* for Overseas students and graduates.

GENERAL INFORMATION

Anderson's College, founded in 1796, the College of Science and Arts (1823, the first "Mechanics' Institution"), and the Atkinson Institution (1861), were amalgamated in 1886 under the title of the Glasgow and West of Scotland Technical College, which was changed in Feb. 1912 to the Royal Technical College. The College was affiliated to the Univ of Glasgow in March 1913

The College building, comprising over 7 acres of floor space, cost, with equipment, £400,000. Qualifying courses are provided in the subjects named above for Degrees of the Univ. in Applied Science and for the Diploma of the College. Courses in the following qualify for the Diploma only. Archit and Building, Naval Archit, Textile Manuf. There are also Departments of Navign.

and Bakery, as well as numerous evening classes in other subjects, mainly technological. The courses for the Diploma cover 3 (in Chem and Metall, 4) yrs. ; for the Associateship in any of the Diploma subjects, attendance during 4 yrs. is required. The evening lecturers are not included in the above lists ; some of their work is, however, of university and even post-graduate standard. Much research work, for the prosecution of which a development fund of over £60,000 has been raised, is carried on at the College.

The Glasgow School of Architecture is maintained by the College and the Glasgow School of Art working in co-operation through a Joint Committee under whose authority its Diplomas (5 yrs' course) are issued.

FEES for tuition diploma, 25 gs p a , degree, 90 gs for course.

THE YEAR 1922-23

BENEFACTIONS By persons associated with Messrs. Walter Duncan & Co , Glasgow, London, and Calcutta, £3036 to endow research scholarship , late James Smith, £1000 ; Lanarkshire Coalmasters' Asscn., £600 p a for 5 yrs for Mining Dept ; J S Allan, £100 to found memorial prize

STUDENTS Full-time, 672 , others, 4972. 66 students were from abroad —India, 28 , S Africa, 9 , Norway, 5 , Egypt, 4 , Japan, 3 ; West Indies, 2 , Argentine, 2 , Australia, 2 , China, 2 , Finland, 2 ; other countries, 7. GENERAL INFORMATION

Trinity College was founded and incorporated by Royal Charter in 1592 as "Mater Universitatis," but no other College has been founded, so that "Dublin Univ." and "Trinity College" are practically interchangeable terms. The Corporation of the College was put on its present basis by Letters Patent of 1637. Letters Patent of 1911 transferred the powers of making statutes from the Crown to the Corporation. The general government of the Univ. is in the hands of the Board of Trinity College, which consists of the Provost, Senior Fellows, 2 representatives of Junior Fellows, and 2 representatives of the non-Fellow Profs. The Univ. Council, formed by representatives from the various Faculties and Schools, has the right of appointment to most Professorships, and in conjunction with the Board can make changes in the curriculum, but otherwise has only advisory functions. The power of making new statutes was reserved to the Crown until 1911, when by Letters Patent this power was

given to the Board subject to the consent of a majority of the Fellows and the approval of the Visitors

The College occupies a large site in the middle of the city, with ample grounds for the athletic clubs

THE LIBRARY of Trinity College has enjoyed since 1801 the privilege of receiving a copy of every book published in England. It contains 372,000 volumes and 2000 MSS, affording an unrivalled field for the study of Irish palæography. A catalogue of MSS in the Library was published in 1900. There is a lending library of 6000 vols bequeathed by the late W. E. H. Lecky, and departmental libraries in German and the Romance Languages, in Botany, and in Zoology.

MUSEUMS. The scientific museums include Zool. and Comp. Anat., Geol. and Mineral, Surg. and Med., Path., Mat. Med., Anthropol., Engin. Models, Nat. Philos. The Zoological are among the best collections in the country. The series of vertebrate osteology is extensive. Attached Laboratories offer all facilities for research work. The collection of Geological and Mineralogical specimens is also extensive.

LABORATORIES. Anthropol., Bio-Chem., Bot., Chem., Geol., Histology, Mat. Med., Mech. Engin., Pathology, Physical (Iveagh), Physiol., Zool.

HERBARIUM (rich in plants of N. America, India, S. Africa, and Australia). BOTANIC GARDENS, 8 acres.

The Astronomical Observatory of Trinity College is at Dunsink, 5 miles from the College. It is the official residence of the Royal Astronomer of Ireland.

Ample facilities for clinical studies and many appointments for graduates are available in numerous HOSPITALS, including the well-known Rotunda. The Irish High Court is situated within a short distance of the College.

DEGREES. Every student must take the B.A. before proceeding to any other degree, except those in music. The course lasts 4 yrs., but it is only necessary to keep 2 out of the 3 terms in each, or 8 in all. It is also possible to complete the course within 3 yrs. from entrance by taking the final examn. of the 1st yr. at the time of entering and keeping all 3 terms of the 2nd yr. However, all students not in a professional school are required to attend Arts lectures in every term, unless specially exempted (*e.g.* those earning their living by teaching). If exempted they are permitted to keep all of their 8 terms by examn. instead of by attendance.

For the first 2 yrs. (Juni. and Senr. Freshman) all subjects are compulsory: Algebra, Geom., Trig., Mech., Logic, Engl. Essay, Latin, Greek or French or Irish or German. After the examn. ("Little-Go") at the end of the 2nd yr. wide freedom of choice is allowed of subjects for the remaining (Junior and Senr. Sophister) yrs., and exemption from one subject is granted to Law, Engin., and Div. students. For Med. students there is a specially reduced Arts course throughout.

Pass Arts teaching, mainly given by the Tutor Fellows, is partly of a catechetical nature. Every student must choose one of the Tutor Fellows (see list above) as his Tutor and should apply to him for all information before and after entrance.

The *Honour B.A.*—known as a *Moderatorship*—can be taken in 11 different groups (viz. 1 Math., 2 Class., 3 Ment. and Mor. Philos., 4 Exp. Sc., 5 Nat. Sc., 6 Hist. and Pol. Sc., 7 Mod. Lit., 8 Leg. and Pol. Sc., 9 Eng. Sc., 10 Celtic, 11 Oriental Lang.), and undergraduate honours in the same subjects (except Nos. 9 and 11) can be obtained in each academic year and in some subjects in each term. The course lasts four years in the case of Nos. 1, 2, 4, 5, 6, 7, three

years in Nos. 3 and 10, and two years in No. 8. Instruction in these Honour courses is given partly by the Profs. and partly by the Tutorial staff.

A B.A. of three years' standing may be admitted M.A. There is no examn. for this, nor is a thesis required

The B.D. is obtained by an examn. open to all grads in Arts, and the D.D. is open to any B.D., eight years after taking B.A., and is awarded on a thesis or published Theol. work

The LL.B. course covers 2 yrs., the M.B., B.Ch., and B.A.O., 5 yrs., B.Dent Sc., 4 yrs.; B.A.I., 3 yrs. (optional 4th yr. in Elec. and Mech. Engin.), Agr. B. or Agr. (Forest) B., 4 yrs., of which 3rd and 4th are taken in Roy. Coll. of Sc. The Sc.B. and Ph.D. (v. p. 14) involve post-graduate study and research for 1 yr. and 2 yrs. respectively.

A candidate for the Sc.D. or Litt.D. must have at least 3 yrs' standing as B.A., and submit important original work, for LL.D. must be of M.A. standing—a thesis or examn. is required, for M.D. must have taken the M.B. degree and be of M.A. standing, for M.Ch. must be a B.Ch. of 3 yrs' standing, for M.A.O., a B.A.O. of 2 yrs' standing, a thesis or examn. is required for M.D., an examn. for the M.Ch. or M.A.O. A candidate for M.Dent Sc. must be a B.Dent Sc. of 1 yr's standing, and pass an examn., for M.A.I. must have practised his profession for 3 yrs. after graduating as B.A.I. The Mus.D. is granted after an exercise or practical test

DIPLOMAS in Agric., Educn. (Primary and Higher), Econ. and Comml. Knowledge, Elec. Engin., Gynæc. and Obst. (1 yr. course), D.P.H., Religious Knowledge (women)

Testimonium in Divinity (2 yrs' course)

RECOGNITION OF OTHER UNIVS., ETC. Credit is allowed for terms kept at Oxford or Cambridge, but no student or graduate of any other Univ. can take the B.A. unless he has kept at least 2 yrs. at Trinity College. No student can take any medical degree unless he has attended at least 3 yrs. in Trinity College

A B.A., B.Sc., or M.A. of any of the undermentioned Univs. may be allowed credit *pro tanto* for the first 2 yrs. and the examn. held at their expiration: Aberd., Belf., Birm., Brist., Edin., Glas., Leeds, Liver., Lond., Manch., St. And., Sheff., Wales, and Nat. Univ. of Ireland

A student who has passed two years in Arts studies at any of the undermentioned Univs. and passed the examns. belonging to that period is given credit *pro tanto* for the first academic year. Adel., All., Bom., Cal., Dalh., McGill, Madr., Mel., N. Brun., N. Zea., Panj., Patna, Syd., Tas., Tor., King's Coll. (Windsor, N.S.)

A student who has passed the Matricn. examn. of any Univ. in S. Africa, including Latin, Maths., and either French, German, Dutch, or Greek, is admitted without further examn., and, if a Med. student, is excused the Prelim. Med. examn. Medical students are given credit for lectures and examns. in Zool., Bot., Chem., and Physics of any S. African Univ., and also for lectures and practical work in Anat. and Physiol., but not for the examns. in these last two subjects. Courses in Path. and Bact. at Cape Town and Witwatersrand are also recognized

A student who has passed the Intern. examn. of any Univ. in S. Africa is permitted to present himself at the Final Freshman examn., with exemption from those subjects in which he has already passed at the Intern. examn.

A student who has passed the B.A. examn. of any Univ. in S. Africa is allowed credit for the 1st two collegiate yrs. and for the Final Freshman examn.

To students admitted to advanced standing the entrance fee is remitted and in most cases some of the half-yearly Arts fees

In keeping terms students from S. Africa are allowed to substitute Dutch for French or German, when 2 languages are required 2 exhibitions each are offered for medical students from S. Africa, on the nomination of the Univs of S. Africa and Stellenbosch, value from £150 to £200 according to the number of years spent in Dublin (3-5)

Likewise the Board and Council are prepared, in the case of students of Medicine, to consider applications from Colonial Univs. and Colls for recognition of courses of instruction given by them

Students from S. Africa should write to the Registrar of S. African students for fuller information.

No recognition granted under this scheme will exempt a student wishing to take the Dublin degree from spending at least three full years of Med study in Trin Coll

The Univ of Melbourne is entitled to nominate one of its Med graduates to an exhibition of £100, with rooms rent free for 6 mos. in T C D, intended to defray, in part, the expenses incurred in obtaining the Diploma in Gynæc. and Obst

GENERAL DESCRIPTION

[Contributed by A Stanley Mackenzie, Ph D , D C L , President of Dalhousie Univ , President for 1920 of the Conference of Canadian Univs An account by President Walter C Murray of the Univ of Saskatchewan, of " University Development in Canada " is to be found in the Transactions of the Royal Society of Canada, Third Series, 1922, vol xvi]

It is probably not true to say that Canada has evolved a distinctive type of Univ , and yet Canadian higher institutions of learning differ in many ways from the corresponding institutions in the British Isles and in the United States One might divide Canadian Univs into groups, determined by the prototype after which each was consciously or unconsciously modelled In the first group are those which followed closely the Oxford tradition — King's, New Brunswick, Bishop's, Toronto, and some of its federated colleges (University, Trinity, Wycliffe) The Univs in the second group are those which modelled themselves on Edinburgh, viz Dalhousie, McGill, Queen's Laval in Quebec, Laval in Montreal (which has lately changed its name to that of the Univ of Montreal), and Ottawa have followed closely the forms and tradition of France The four western provincial Univs of Manitoba, Saskatchewan, Alberta, and British Columbia, and especially the three last, bear a close resemblance to the State Univs of the United States The Univs which have not been named are perhaps more free from direct imitation of older types

As the years have gone by, all these institutions, while maintaining individuality and evidences of their original form, have tended to uniformity in many important regards Thus, they all require four years for the Bachelor (Pass) degree in Arts or in Science Again, they have a common standard of preliminary education for admission to the course leading to these degrees This standard is that attained by a satisfactory completion of three years of a High School course superimposed on eight years in the common schools This standard is called Junior matriculation. If a pupil has successfully completed the fourth year of the High School course in the proper subjects, or passes the equivalent Senior matriculation examination, he can enter the second year and complete the course for the degree in three years. This practically amounts to saying that High Schools or Collegiate Institutes

which have a fourth year course give in that year about the same work as is done in the first year of the Univ course for the Pass degree.

JUNIOR MATRICULATION Students can satisfy the Entrance requirements of the Univs either by examination or on certificate from a standard High School or accredited Preparatory School or Collegiate Institute or School. Such certificate is, however, not accepted as such, but considered subject by subject, that is, it must show a Pass in the Required Subjects of matriculation. These required subjects differ somewhat from one Univ to another. Practically all Univs require for candidates for the B A degree the following six subjects: (1) English, (2) History, (3) Algebra (through quadratics), (4) Geometry (at least four books), (5) Latin, (6) a second foreign language. There is in nearly every Univ a seventh subject, it is usually a science (in some cases specified, in others elective), but in many cases a third foreign language is accepted instead.

Where a course in Pure Science is given leading to the degree of B Sc the requirements are as above, except that the two foreign languages are French and German.

There is much more variation in the requirements for entrance to the courses in Applied Science, or Engineering, but the best schools of Applied Science require in addition to the requirements (1) to (4) of Arts, Advanced Algebra, Advanced Geometry, Trigonometry, Physics, Chemistry, and at least one foreign language.

The curriculum for students of Medicine has been undergoing a change in all the Canadian Schools. At least a year has been added to the length of the course at each Univ. In general the course of study requires 6 years. In Toronto Univ these must be taken in the Medical School. In some of the other Univs the 1st year may be taken in any recognized Arts College, in others the first 2 years (which are largely pure science) may be so taken. The grade of scholarship required as preliminary to this 6-year course at all the Schools is that of Senior Matric, except at Queen's, where it is Junior Matric, and at Montreal Univ, where it is the B-ès-A.

There has been a similar advancement going on in the standard of preliminary education required of students seeking admission to the study of Law. At all the Schools the Law course proper extends over 3 years. Dalhousie and Manitoba require 2 years of Arts before admission to this course, the other Law Schools require, in general, the equivalent of one year of Arts.

A year has been added to the standard of preliminary education required of students entering upon the study of Dentistry. It is now the equivalent of the first year of an Arts course. The Toronto School is raising this to 2 years, and this standard may soon become general.

ARTS COURSE Speaking very generally, one can say that about one-half of the course for the degree of B A is prescribed and the other half elective, but these elective subjects are commonly to be distributed among certain broad groups of allied subjects in a specified way, varying with the individual Univs. The prescribed work includes English, History, two foreign languages, one of which is usually Latin.

(British Columbia requires only one), Philosophy, Mathematics, and Science. In the case of the B Sc degree in Pure Science the two foreign languages required are French and German.

A feature of Canadian Univs which distinguishes them from the typical Univs. of the United States is the provision made for the ambitious student and the student who wishes to specialize during his course for the B A degree. This is accomplished by the provision of the system of Honour courses. In this system a student who shows the necessary aptitude is permitted to take special classes, which in some instances are in extension of the regular classes, and in other cases are restricted to Honour students. In some Univs the Honour classes are confined to the third and fourth years of the course, in others, as in the case of Toronto, they are given in all four years, and there is also a special Honour matriculation. In general, also, the number of prescribed classes is reduced, so that the student not only goes more deeply into each subject, but specializes to a greater extent than the Pass man is allowed to do. On the completion of an Honour course the student receives a degree With Honours. No small measure of the academic success of Canadian students in post-graduation work in home and foreign Univs is to be attributed to this system.

By a proper combination of studies a student can complete a combined course for the degrees in Arts and a professional faculty in a year less than the sum of the years required for each.

LENGTH OF SESSION. The Canadian Univs open about October 1, and close in May or early in June. The average length of the session is $32\frac{1}{2}$ weeks for all faculties, except those of Medicine and Dentistry, which are 4 weeks longer. Of the $32\frac{1}{2}$ weeks, 26 are given up to actual lecturing, and the remainder to vacations, examinations, and closing exercises.

CONSOLIDATION OF THE COLLEGES IN THE MARITIME PROVINCES. During the last two years a great deal of attention and consideration has been given to this question, which in one form or another is a century-old problem (see article by Murray referred to above). It has come prominently to the fore now because of the impossibility of so many small institutions (mostly sectarian) in a region containing only a million people being able to keep pace with the financial demands of modern education. The Carnegie Foundation for the Advancement of Teaching was invited to send experts to make a survey of the situation. They did so, and made a report, in which they advised that all these institutions should move to Halifax, and join with Dalhousie, already there, in forming a strong central University. Each constituent was to maintain its name, identity, individuality, organization, and funds, but give up its examining and degree-granting powers (except in Divinity) to the Univ. The Colleges should not teach the scientific subjects nor those subjects for which there would be a small demand, which should be given by the Univ. In general, the Colleges should restrict themselves to the Humanities. The Univ would conduct all professional schools. The Colleges were to be residential. It will be seen that the scheme was something between that of Oxford and that

of Toronto It was a fair inference to be drawn from the report that, if the various institutions in question would get together, and the governments concerned make a grant-in-aid to the central Univ, the Carnegie Corporation of New York would give the scheme very generous aid Representatives of the educational institutions and interests held many conferences and agreed upon a scheme of consolidation, and the Carnegie Corporation promised a gift of \$3,000,000 At this stage the scheme was halted, for the time being at least, by the refusal in succession of the Univ of New Brunswick (non-sectarian), St Francis Xavier's College (Roman Catholic), and Acadia College (Baptist) to enter it. In the meantime, King's College (Anglican) has moved from Windsor to Halifax, and entered into a close association with Dalhousie Univ (non-sectarian) The students of both institutions are taught as one body by the combined staffs, except in certain freshman classes (and in Divinity) King's holds in abeyance her degree-granting powers (except in Divinity), and the Univ conducts all exams and grants degrees Provided King's raises the sum of \$400,000 within two years for the erection of the necessary residential buildings, the Carnegie Corporation will provide \$600,000 to be used as an endowment for the payment of an instructional staff for the combined students There the matter stands at present Mount Allison College (Methodist) will not come to a decision until the proposed union of the Methodist, Presbyterian, and Congregational bodies in Canada is consummated The Roman Catholic dioceses outside of that of Antigonish, in which is St Francis Xavier's College, have the matter under consideration There is no degree-granting educational institution in the adjoining colony of Newfoundland, but the various interests there are very favourable toward the general scheme of a confederation of the educational forces of Eastern Canada, and will undoubtedly co-operate

NINTH CONFERENCE OF CANADIAN UNIVERSITIES, 1923 The subjects discussed were (a) The Relations of the regularly organized Univs to certain Colleges dealing with extension work and dealing in a more or less formal manner with regular instruction (b) "University Co-operation in Serving Their Combined Constituencies" (paper by President Murray of Univ of Sask) (c) "University Maintenance" (President Tory of Alberta) (d) "Sectionalism in Universities" (Dean Laing of McGill) (e) "Graduate Work in Canada" (Dean Adams of McGill) (f) "Graduate Work in Agriculture" (Principal Harrison of MacDonald College, Univ of Toronto) (g) "Agricultural Research" (Dr J H Grisdale of the Research Dept in Agr, Ottawa) (j) "University Co-operation in Scientific and Industrial Research" (President Mackenzie of Dalhousie) (k) "Dental Education in Canada" (Dr Wallace Secombe of the Royal College of Dentistry, Toronto) (l) "Relation of the Royal Military College to the Universities" (Principal Sir Arthur Currie of McGill) (m) "Oriental Students in Canadian Universities" (Committee's Report) (n) "Athletics in Canadian Universities" (Dean DeLury of Toronto) (o) "Engineering Education" (Prof Clarke of Queen's) (p) "Medical Education" (Dean Prowse of Manitoba)

DEGREES IN DIVINITY FOR STUDENTS BELONGING TO THE ANGLICAN CHURCH IN CANADA

The Church Universities and Theological Colleges in Canada having entered into an agreement to adopt a uniform standard for degrees in Divinity, all such degrees are now only conferred in accordance with Canon X of the General Synod of Canada, and only on examn by a Joint Board, including the Archbishop of Rupert's Land (Chairman), and representatives of the Univs of King's, Bishop's, and Trinity Colleges, Montreal Diocesan, Wycliffe (Toronto), Huron (London, Ont), St John's (Winnipeg), Emmanuel (Saskatoon), St Chad's (Regina), Anglican Theol Coll of BC

In the case of a College within the "Province of Canada" (a group of dioceses in Eastern Canada) which has not the power to confer degrees the Metropolitan, or a representative of the College acting for him, confers the degrees [*Contributed by the Bishop of Ottawa*]

NOVA SCOTIA TECHNICAL COLLEGE, HALIFAX

This institution represents the principal effort of the province in University training It is supported entirely from provincial revenues Through a co-operative agreement, a uniform matriculation and a uniform engineering course covering the general work of the freshman and sophomore years is carried out entirely in the Univs of Acadia, Dalhousie, King's, Mount Allison, St Francis Xavier, and St Mary's College On successful completion of this course, the student proceeds to the Technical College without examn for the professional work of the last 2 of the 4 yrs' course Here the studies are differentiated and the student elects either Civ, Elcc, Mech, or Mining Engineering The degree given is that of B Sc The Technical Coll confines its attention entirely to the work of the jun and sen yrs It is equipped principally for teaching the engineering courses and commercial testing of industrial materials and natural resources, and incidentally for scientific research Tuition fees \$75 p a The buildings and equipment represent a provincial investment of about \$500,000 [*Contributed by the Department of Technical Educn, N S*]

THE CARNEGIE FOUNDATION FOR THE ADVANCEMENT OF TEACHING

The object of the Foundation is to provide retiring allowances and pensions, and, "in general, to do and perform all things necessary to encourage, uphold, and dignify the profession of the teacher and the cause of higher education" Its 17th Annual Report, dated Oct 1922, stated that the following classes of persons are eligible for retiring allowances (1) A person in an institution on the associated list who (a) is 65 years of age and has served not less than 15 years as professor, or not less than 25 years as instructor or as prof and instr, or (b) has served 25 years as prof or 30 years as instr or as prof. and instr, and who is shown by medical examn to be entirely unfitted by disability for continuing the work of teacher, (2) a widow who has for 10 years been the wife of any teacher of class (a) or (b). The offices of the Foundation are at 522 Fifth Avenue, New York City

The list of associated institutions includes DALHOUSIE, MCGILL, QUEEN'S, and TORONTO Up to June 1922, 1020 allowances had been granted, including 50 in Canada and 3 in Newfoundland.

In addition to its work in connexion with the payment of pensions the Board of Trustees has undertaken the issue of various publications and their free distribution. The Annual Reports include discussions of various questions connected with teaching institutions. Separate bulletins have been published on Financial Reports of Colleges, Univs., and Tech. Schools, Medical, Engineering, Legal, and other vocational education; the Training of Teachers; Teachers' Pensions; Higher Education in the *Maritime Provinces of Canada*.

In Oct. and Nov. 1922 two experts commissioned by the Foundation—Dr. Learned of its own staff and President Sills of Bowdoin College—visited the maritime provinces of eastern Canada with the view of suggesting a constructive policy in regard to the universities which had applied to it for aid. The commissioners reported in favour of bringing together into a single univ. at Halifax, which would include Dalhousie as one of its colleges, the other five univs. The cost of the scheme is estimated at $4\frac{1}{2}$ million dollars.

NATIONAL COUNCIL OF EDUCATION

THE NATIONAL COUNCIL OF EDUCATION, Winnipeg, formed at a conference on Education in relation to Citizenship in 1919, has developed, with the co-operation of Univs. and Departments of Education a Bureau of Education, and is organizing, with the approval of the Univs., a series of National Lectureships under the title of a National "Extension University." It holds triennial Conferences on Education, the last of which was held at Toronto in April 1923. The General Secretary's address is 11 Kennedy Street, Winnipeg.

GENERAL INFORMATION (v. also p. 303)

Telegraphic address—VERA (A.B C Code)

The University, created by act of the Provincial Legislature, 1906, originally consisted of a Chancellor, Vice-Chancellor, Senate, and Convocation By amendment the office of President was created 1907, and a Board of Governors 1910, the latter being given financial and administrative control, while the Senate was restricted to educational supervision Student residences, Athabasca, Assiniboia, and Pembina Halls, were opened in 1911, 1912, and 1914 respectively, while the main teaching and administrative building was completed in 1915 Classes began September 1908 In 1912 extension work, conducted from the beginning, was departmentalized under a Secretary In the same year a Faculty of Law was created Subsequent expansion involved the establishment of Faculties of Applied Science and of Medicine, 1913 , Faculty of Agriculture, 1915 , courses in Pharmacy and in Dentistry, 1914 and 1917 respectively , in Household Economics, 1918, in Commerce and in Public Health Nursing, 1921 In 1919-20 the extraordinary increase in the number of medical students necessitated the construction of a new Medical Building In the same session the creation of the office of Director of the School of Pharmacy completed the evolution of the School from a Department under the Faculty of Medicine to an independent unit The Provincial Legislature has established a close relationship between the Univ and the Professions, and the Senate now has jurisdiction over the educational standards of Architects, Chartered Accountants, Dentists, Engineers, Land Surveyors, Lawyers, Pharmacists, Physicians and Surgeons, Registered Nurses, Optometrists, and Veterinary Surgeons

The University grounds, 637 acres, beautifully situated on the wooded south bank of the Saskatchewan, include provision for the accommodation of affiliated colleges and afford ample room for expansion Edmonton is a city of about 60,000 inhabitants, the capital of the Province of Alberta (area 250,000 sq m. , pop. 600,000) The chief activities of the city are wholesaling, coal-mining, and meat-packing, while the main interests of the Province are agriculture and coal-mining For 2000 miles to the north of Edmonton, and naturally tributary to it, lie the valleys of the Athabasca, the Peace, and the Mackenzie Rivers The fur trade is still the chief activity of this vast region, though on the Peace River a rapid agricultural growth is in progress,

and its great resources in coal, oil, water-power, natural gas, lumber, asphalt, etc., await development.

GENERAL INFORMATION (v. also p. 303)

Telegraphic Address—UBRICO

An Act of the Provincial Legislature was passed in 1890 establishing a University of British Columbia, but it lapsed in 1891 Vancouver High School was affiliated to McGill for the first year in Arts under the name of Vancouver College in 1899 In 1902 Victoria High School was similarly affiliated as Victoria College. In 1906 the Royal Institution for the Advancement of Learning of B C was incorporated and established, the McGill Univ Coll of B.C, taking over, by agreement, the Arts work of Vancouver College (extended in 1908 to include the 3rd yr in Arts), and adding 2 yrs of Applied Science. In 1907 Victoria College was incorporated in the Univ Coll The connexion with McGill was brought to a close in 1915, when the University of British Columbia, incorporated by an Act of 1908, and endowed with 2,000,000 acres of land, was opened, with provision for a complete course in Arts and 3 yrs in

Applied Science In 1920, all lands in the Province which had been set aside for higher education reverted to the Provincial Government, but it was arranged that the net proceeds from the sale of lots or lands in an area of 3000 acres at Point Grey should be paid into a "University Endowment Account."

The Board of Governors consists of the Chancellor, elected by Convocation, President, and 9 nominees of the Lieut-Govr in Council. The Senate consists of the Minister of Educn, Chancellor, President (as Chairman), Deans, and 2 Profs of each Faculty, 3 nominees of the Lieut-Govr in Council, Supt. of Educn, principals of normal schools, one member elected by high school principals and assts, one by Provl Teachers' Inst, one by each affiliated Coll. or School in the Province, 15 by Convocation.

The University site consists of 540 acres on the headland of Point Grey, 300 feet above the sea. The Science building now under construction will cost \$715,000. The LIBRARY has 47,000 vols and over 10,000 pamphlets, and regularly receives 400 periodicals. LABORATORIES available for all courses. A Forest Products Lab. (with two Olsen Universal Testing Machines of 200,000 and 30,000 lb. capacity respectively and one Hatt-Turner Impact Testing Machine) was established in 1918 by the Forestry branch of the Dept of the Interior as a permanent branch of the F.P. Labs of Canada. HERBARIUM, 16,000 sheets native flora, 200 water colours. B.C. FUNGI. BOTANICAL GARDENS, Arboretum and economic section, 5 acres.

Students are ADMITTED as (1) undergraduates, by Matricn. examn. or its equivalent, (2) conditioned undergraduates, with a view to completing matricn. requirements during first year, (3) partial students. Every student is submitted to a physical examn. on entrance.

DEGREE COURSES. B.A., 4 yrs (3 from Senior matricn.) B.A.Sc. in Applied Science, 4 yrs (following 1st yr in Arts or Senr matricn.). A degree course in nursing covers 5 yrs, including 2 yrs. of hospl training. B.S.A., 4 yrs from Junr matricn. Double course, B.A. and B.A.Sc., 6 yrs. Courses for the M.A., M.A.Sc., and M.S.A. SHORT COURSES in Mining, 8 weeks, Jan.-March; in Agric. at the Univ. and elsewhere. Evening courses, with summer excursions, in Botany. Summer courses.

SUMMER SESSION In 1922 the summer school for teachers became the summer session. Teachers and others with full Matricn standing may pursue Univ. courses and receive credit therefor towards the B.A. degree. As yet courses beyond those of the first two years are not offered.

FEES, inclusive, \$75-100 per session. Graduation, \$20.

SCHOLARSHIPS FOR GRADUATES. \$200 awardable to graduate for further studies, two of \$100, one being for Applied Science.

RESIDENCE Board and lodging in vicinity of the College from \$40 to \$50 p m.

UNIVERSITY EXTENSION Numerous lectures have been given under Univ. auspices in different centres in the province, but adult education has not yet been given the status of a Department. The selection of speakers and of subjects is made by a Standing Committee on Univ. Extension, which provides series of connected lectures throughout the winter. Short courses of 4 days' duration have been conducted for a number of years with marked success. Present indications are that 3-yr tutorial classes will not be organized in the Univ. for some time. The *Vancouver Institute* co-ordinates efforts of various organizations in the field of adult education.

PUBLICATION *Calendar* (April).

GENERAL INFORMATION (v. also p. 303)

Dalhousie College, founded in 1818 by the Earl of Dalhousie, was in 1841 granted Univ powers, but was closed in 1845 for want of sufficient funds. In 1863 it was reorganized and opened with a staff of 6 Professors. In 1877 the Faculty of Science was organized, and from 1879 development proceeded rapidly with the help of the benefactions of George Munro of New York (\$350,000), Alexr McLeod of Halifax (\$65,000), and Sir Wm Young (\$88,000). The Faculty of Law was established in 1883, the School of Mines in 1902. In 1911 the Halifax Medical College, into which the Faculty of Medicine (organized in 1868) had been merged, was acquired by the Univ, and the College of Pharmacy was established with its co-operation. In 1912 the work of the Maritime Dental College was taken over by the Univ. In this year \$400,000 was collected for a new site (40 acres) and buildings, etc., towards which Andrew Carnegie gave \$40,000. Further benefactions amounting to \$200,000 were received in 1915-18.

In connexion with centenary celebrations in 1919 subscriptions amounting to \$2,250,000 were obtained. One million of this was for Medical teaching and \$300,000 for a Women's Residence.

GENERAL INFORMATION (v. also p. 303)

Postal Address—King's College, North West Arm, Halifax, N S

Opened in 1790 and established with full Univ. powers by Royal Charter in 1802. Removed in 1923 from Windsor to Halifax in pursuance of a scheme (financed by the Carnegie Corporation of New York) under which Applied Science and Engineering courses were discontinued. Governed by a Board of 26 members, of whom 16 are elected by Synods, 10 by Alumni. The Archbishop of Nova Scotia is Visitor and President of the Board. The Bishop of Fredericton is Vice-President.

A School of Law, established in St. John, N.B., in connexion with the College in 1892, is now affiliated with the Univ. of New Brunswick.

The College is *affiliated* with Oxford, Cambridge, and Dublin. V also p. 95.

Students from the *Jamaica Church Theological College* who, after a residence of 6 terms there, pass the required exams. in the subjects of the Divinity course at King's, may receive the diploma of L S T , and Divinity students who have completed the required residence at the Jamaica College, and have passed the necessary exams according to the requirements of King's, may be admitted to the degree of B A

THE YEAR 1922-23 The outstanding event of the year was the decision to remove to Halifax and become associated with Dalhousie Univ King's gives up her Applied Science and Engineering courses, and after a term of years her degree-conferring powers She retains her independence and autonomy in all other respects In consideration of this, the Carnegie Corporation has promised the College £125,000. The Divinity School is not affected by the arrangement

INSTITUTIONS ANNEXED OR AFFILIATED TO THE UNIVERSITY

["Annexion" implies absolute control by the Univ of the programmes of study and of the nomination of the staff "Affiliation" or—in the case of an institution outside the province of Quebec—"agrégation" involves control by the Univ of examinations.]

ÉCOLE D'ARPEMENT ET DE GÉNIE FORESTIER (Surveying and Forestry). Founded by Govt. and annexed to the Faculty of Arts. Director, Avila Bédard, Prof. of Forestry. 11 other Profs.

ÉCOLE AGRICOLE DE STE ANNE DE LA POCATIÈRE, affiliated. Director, Prof N Pelletier 12 other Profs.

ÉCOLE SUPÉRIEURE DE CHIMIE Annexed to the Faculty of Arts. Director, Prof P. Cardinaux. 7 other Profs.

ÉCOLE NORMALE SUPÉRIEURE Annexed to the Faculty of Arts. Director, Prof F Pelletier 4 other Profs

GRANDS SÉMINAIRES. (Pupils obtain the B. en Th. by passing a certain number of quarterly exams. in the Seminary.) Québec (comprising Theol. students under its jurisdiction or following its courses); Ste. Anne de la Pocatière (Coll. de Ste. Anne); Rimouski; Chicoutimi; Nicolet; Trois Rivières.

ENSEIGNEMENT SECONDAIRE MODERNE ET CLASSIQUE Numerous institutions are affiliated to the Univ under conditions providing for complete preparation for Inscription and the Baccalauréat

GENERAL INFORMATION (v. also p. 303)

The Univ. was founded by the Seminary of Quebec in 1852 under a Royal Charter. A general supervision of teaching and discipline is exercised by the Archbishop of Quebec as Visitor and Chancellor Apostolic and President of the Conseil Supérieur of Archbishops and Bishops of the Province. The Profs. of the Faculty of Theology are nominated by the Visitor, those of other Faculties by the Conseil de l'Université, composed of the Directors of the Seminary of Quebec and 3 Senior Profs. of each Faculty.

FACULTIES. Arts (with Schools of Surveying and Forestry, Chemistry and Training for Teachers annexed), Theology, Law, Medicine

DEGREES AND DIPLOMAS. The Univ perpetuates the stages by which a Degree was, and still is, reached in the Univ. of Paris. The Baccalauréat (B ès A., etc.) is not the equivalent of any of the English Degrees, but is an official certificate (recognized by the Govt.) that the student has successfully completed his literary and scientific studies, and is entitled to begin his professional studies in law, medicine or applied science. It is obtained before he leaves the affiliated Institute, Seminary or College at which he has studied. Students who reach a certain standard in both Letters and Sciences obtain the B ès A., those who reach this standard in either and a certain lower standard in the other obtain the B ès L. or B ès Sc. The course for the Licence covers 2 yrs in Philos (L en Ph) or Letters (L ès L.), 3 yrs in Theol. or Law (L en Th or Dr). To obtain the D en Ph or D en Dr it is necessary to support successfully in public a thesis and propositions as in other French Univs. The D en Th and D en M. or M.D. are granted after examn.

The complete medical course formerly lasted only 4 yrs., but since Jan. 1909 has, in accordance with the regns. of the Provincial Coll. of Phys. and Surgns., been framed so as to cover 5 yrs. The Baccalauréat, however, may be taken on the completion of 2 yrs. The Doctorat gives admission to the examn. for the Diploma of M.R.C.S. Lond. Inscription in Arts is recognized as corresponding to the Prelim. examn. of the R.C.S. Lond. The examns. for the Dipl. of Hygiéniste expert may be taken by a D. en M. after a 6 mos.' course.

The Diploma in Forestry or Bachelorship in Surveying implies 4 yrs.' study in the Sch. of Surveying and Forestry.

The new École de Chimie provides a 4 yrs.' course leading to a Licence and to a Doctorate in Chemistry.

RECOGNITION of the B. ès A. of Laval is accorded by the Univs. of Rome, of France and of Louvain, and by Canadian Univs., and some of those of the U.S.A. (v. also p. 257)

FEES for tuition, \$100 to \$150 p.a.

GENERAL INFORMATION (v. also p. 303)

The Hon. James McGill, of Montreal, who died in 1813, bequeathed 46 acres of land, with some buildings and £10,000, to found a college, and in 1821 the Royal Institution for the Advancement of Learning, the trustees for the purposes of the bequest, obtained a Royal Charter (amended in 1852) under which the work of teaching was begun in the Faculties of Arts and Med. in 1829. The Governors are the members of the Royal Institution above mentioned. Their number is limited to 25, and vacancies are filled by nomination of the remaining members, with the approval of the Visitor. The Govrs., Principal, and 42 Fellows (representing faculties and depts., grads., affil.

colls., and other bodies) constitute the Corporation, the highest academical body, which frames regulations. The Peter Redpath Museum was opened in 1882, the Redpath Library in 1893. Royal Victoria Coll. in 1899, the Conservatorium in 1904. Macdonald College was opened in 1907, and in 1911 Sir Wm Macdonald purchased for the use of the Univ, at a cost of \$1,117,640, 25 acres of land, destined for students' residences and athletic grounds. The same year \$1,550,000 was raised for the Univ chiefly from Montreal citizens. Sir Wm. Macdonald bequeathed nearly \$2,000,000, of which \$500,000 was for the Medical Faculty and \$300,000 for the Conservatorium. In 1918 the Carnegie Corporation, New York, gave \$1,000,000 in recognition of McGill's service and sacrifice in the Great War. In 1920 the sum of \$1,000,000 was given by the Rockefeller Foundation for the Faculty of Medicine, \$1,000,000 by the Provincial Govt for general purposes, and \$4,400,000 was raised from the graduates and the citizens of Montreal as a general endowment. Income from Investments, about \$1,000,000.

SPECIAL FEATURES. The provision for instruction and research in Applied Science is exceptionally ample, especially in Engin. in all its branches. The Med. School also is exceptionally strong.

LIBRARIES, 181,000 vols. (Medical, 30,000; large Ophth Dept) and 31,000 pamphlets, Peter Redpath collection of 10,000 political and religious tracts dating from A.D. 1600, E. S. Wood Library of Ornithology, Blackader Library of Archit, Blacker Library of Zool, Travelling Library. **LABORATORIES** Engineering and Chemistry, each accommodating 200 students, Physics, Zool, 100 students, 3 rooms specially fitted up for research, Bot, 43 students, Physiol, 80, Psych Research, Agric Research FARM, Live Stock and Grain, 786 acres. **ASTRON OBSERVATORY** **MEDICAL MUSEUM** (Strathcona), said to be the finest in America, rich collection of disturbances of heart and vascular system and aneurisms. **HOSPITALS**. available for clinics, general—800 beds, several special.

FACULTIES Arts, Law, Medicine (including Pharmacy), Applied Science (Archit, and 6 branches of Engin—Chem, Civil, Elec, Mech, Metall, Mining), Agric, Dentistry, Music. The Univ has also Schools of Commerce, Physical Educn, Graduate Nurses, Social Service, a Graduate School, and (in Macdonald Coll) Household Science and a School for Teachers.

ADMISSION For candidates in Great Britain an examn. is held in London in June particulars obtainable from W. A. Evans, M.A., 5 Paper Buildings, Temple, London, E.C. 4.

DEGREE COURSES 3 yrs—B.C.L., LL.B., Mus. Bac., 4 yrs—B.Com., B.A., B.Sc., B.S.A., B.H.S. (Household Science), D.D.S., 5 yrs.—B.Arch., 6 yrs.—M.D., C.M.

B.A. or B.Sc. (Arts) course combined with B.Com., 5 yrs, with Appl. Sc. or Theol., 6; Med., 8.

NEW COURSES AND CHANGES IN CURRICULA Course for B Com lengthened from 3 years to 4, new double course established leading to B A and B Arch, including 3 years in Faculty of Arts and 4 in Applied Science, requirements for B Sc in Medicine changed to (1) Honour standing in any 2 of Anat. (including Histol and Embryol), Physiol, Bio-chem, Pharmacol, Path, (2) in addition to regular undergrad. course in Med, 240 hours of specialized study of and Honour standing in one of these subjects, under guidance of Department concerned (the course extends over four years) An extension course on Export Trade, demanding full-time work, was given from Jan 29 to Feb 10, 1923, under joint control of School of Commerce, Dept of Economics of the Univ, Canadian Dept of Trade and Commerce, and Canadian Manufacturers Assocn. attendance 130 2 extension courses were given at outside centres in English and Psychology, chiefly for the benefit of teachers. Those given at the Univ. included such subjects as English (2 courses), Psych.,

French Lit., Social Sc, Comm'l Law, Acctcy, Canadian Hist, Botany, Pol. Econ., Archit., Elec. Eng.

The Modern Language Dept has been divided into 2 Romance Langs and Germanic Langs. The Medical Faculty now opens a week earlier to enable graduates to receive degrees at the general Convocation.

An *Athletic Governing Board* was established to be solely concerned with the outside work of games and control of the stadium, thus relieving the Dept of Physical Educn of part of what was found too heavy a burden. Stuart Forbes, B.Sc., B.Arch., was appointed Manager under the Board.

NEW POSTS Assoc Prof of Economics, Asst Prof of English, Lectrs in Criminal Procedure, Comm'l Law, Physio-Therapy (2), Immunology, Librarian of Dr. Wm Osler Library, Asst Registrar.

HOSPITAL AMALGAMATION The Montreal Maternity was merged with the Royal Victoria, which will thus be more closely in touch with the Univ. It is planned to build a new and much larger building on the Royal Victoria grounds.

SUMMER SCHOOLS Three at Macdonald College: (1) in Rural Improvement—attendance 97, chiefly clergymen, (2) in pedagogy, etc., for principals of high schools, attended by 30, and (3) in Drawing—attendance 70. One in Librarianship, May 21 to June 29—attendance 11. One in French, July 3 to 31—attendance over 100, majority of whom came from U.S.A. In this connexion a project is on foot to establish a "Maison Française," where students of the Univ. will be able to live in an entirely French atmosphere.

THE GRADUATES' ENDOWMENT FUND One outcome of the reunion of graduates in the centennial year (1921) was the organization of a Committee to establish a fund by annual subscriptions from the graduates, to be under the control of trustees elected, some by the Graduates' Society and some by the Univ. The organization is now complete, and subscriptions are being solicited. It is expected that a large and steady revenue will be provided from this source in future.

GENERAL INFORMATION (v. also p. 303)

Established in 1877 mainly as an examining and degree-conferring body, the Univ. was in 1900 empowered to give instruction. In 1917 a Board of Governors, appointed by the Lieut.-Govr., was constituted, and the functions of the Univ. Council, until then the governing body and composed largely of representatives of the affiliated Colleges, were limited to general charge of the academic work. The Univ. has the sole power of conferring degrees in Arts, Science, Law, Med., Engin., Pharmacy, Agric., and Archit. in the province. It received in 1898 from the Dominion Govt. a land grant of 150,000 acres.

Winnipeg, the capital of Manitoba, with its environs, including the neighbouring city of St. Boniface, has a population of over 270,000. The Univ. at present occupies a site in the heart of the city, but a new site on the outskirts has been selected. The Agric. Coll. at St. Vital, 7 miles distant, has a farm of 450 acres.

LIBRARY, 35,000 vols., 439 periodicals received. In the Medical building is housed the library, 2000 vols. of the Manitoba C.P.S. **LABORATORIES** Anat., Bact., Bot., Chem., Engin. (Material testing—200,000 lbs., Cement, Elec.), Geol. and Mineral., Path., Physics, Physiol., Zool. **MUSEUMS** Anat., Embry., Bot., Geol., Path. **HOSPITALS** available for clinics 2 general (1000 beds) and several special, including tuberculosis.

FACULTIES (1) An Arts and Science Faculty providing instruction in all subjects of undergraduate courses in Arts (except 5 options), Science, and Phm. (2) Medicine (3) Engineering and Archit. Other subjects of Arts course and Law, Agr., and Home Ec. are taught in the affiliated Colls.

MATRICULATION exams are conducted in June by the Provincial Educ. Dept. and in Sept. by the Univ. It is not necessary to pass completely at one time, and a candidate may enter on a Degree course, except in Law or Med., as a conditioned student. The subjects of Matricn. examn. for Arts or Science courses are English, Hist., Maths., Latin or Greek or French or German, a second language or 2 of the following—Physics, Chem., Genl. Science I, Genl. Science II.; a third language or 2 sciences not already taken, or 1 science not already taken with Home Econ. or Indust. Arts or Music or Agric. or Comm. work. Exemption is allowed from examination for Matricn. standing in the subjects of Part I (Grades IX and X) Matricn. from pupils of the Collegiate Institutes of the province, or of the Preparatory schools in connexion with the affiliated Colleges, who are recommended for such exemption by their school principals. Entrance requirements for Medicine are clear standing of two pre-medical years, for Law standing of 2nd year in Arts, with Latin to the end, at least, of the 1st yr., and for Engineering standing of one pre-engineering year. Members of any British or approved Univ. may be admitted *ad eundem statum* or *gradum* without Entrance examn.

GENERAL INFORMATION (v. also p. 303)

Established, as a branch of Laval, Quebec, in 1878, with Faculties of Theology and Law, to which were added Medicine in 1879 and Arts in 1887. Since 1889 this Institution has been practically independent of, though receiving its degrees from, Quebec, and on Feb. 14, 1920, it was incorporated under its present name by an Act of the Provl Legislature. In 1920 Faculties of Pure Science and of Letters and a School of Social, Economical, and Political Sciences were formed, in 1921 the School of Dental Surgery was made a separate Faculty, and the Conservatory of Music was affiliated. A Radium Institute was created in 1923. The general administration is conducted by a Senate, Commissions of Admn and Studies, Univ Council and Exec Committee. Endowments \$4,000,000 from a national subscription (1920), \$1,000,000 from the Provl Govt, and \$1,000,000 from the Seminary of St Sulpice.

GENERAL INFORMATION (v. also p. 303)

The "College of Bytown," incorporated in 1849, changed its name in 1861 to "College of Ottawa," and became in 1866 the Univ. of Ottawa with power to grant degrees. The Univ. is conducted by the Oblate Fathers of Mary Immaculate.

LIBRARY, 25,000 vols. The Parliament Library, to which students have access, has 300,000 vols. **MUSEUMS** In the Univ.—Geol., access also to Geol. Survey Dept. Museum. The Dominion Observatory and Canadian Fisheries Museum are located in Ottawa. **LABORATORIES** Chem., Phys., Mineral.

DEGREES, ETC. B.A., M.A., B.L. (Lit.), B.Phil., B.Th., D.Th., LL.D. (Hon.), Lic. Phil., D.Phil., Lic. Th. The Arts course leading to the B.A. or B.L. covers 4 yrs., the work of the Fourth to the Seventh "Forms," that of the first 3 Forms being preparatory to matricn. Extra-mural students may appear for examn. without attending classes in the Univ. for more than 1 yr. The B.A. exempts law and medical students from Prelim. Examns and entitles the former to a reduction of 2 yrs. of the ordinary 5 yrs.' course. The B.Th. and the L.Th. involve respectively 2 and 3 yrs.' study of Theology after the completion of a classical course, the B.Ph. and the L.Ph. respectively 3 and 4 yrs.' study after matricn. Marks assigned for the exercises of students are read in public once a month, and monthly reports are sent to parents.

FEES For Tuition and Board Residence per half-year, \$300 Degrees from \$5 to \$75

RESIDENCE. Students whose homes are not in Ottawa are required to live in the Univ. building, where they are subject to strict discipline—*e.g.* no book or newspaper may be introduced without having been previously examined and approved of by the Prefect of Discipline.

GENERAL INFORMATION (v. also p. 303)

Established by Act of the Provincial Legislature in 1907, the Univ. opened classes in Arts and Science in 1909 and took over the educational work of the Agricultural Dept in 1910. These were developed under the name of "Colleges." Colleges of Law and Engineering were opened in 1913 and 1915. The site includes 1340 acres devoted to Agric Education and Research, and a campus of 300 acres with a half-mile river frontage. The land, buildings, and equipment cost over \$3,000,000

Of the Board of Governors 5 members are elected by the Senate and 3 appointed by Govt, the President is a member. The Senate (19 members elected by graduates, who also elect the Chancellor, and 13 *ex officio*, including the Minister of Education) regulates educational matters, the administration of which is controlled for the Univ. as a whole by an Academic Council and within each College by the Faculty. The President is a member of each of these bodies, and no appointment or dismissal is made without his recommendation. The maintenance of the Univ. is partially provided for by assignments of revenue and half of the Dominion grant in aid of Agric. education. The annual budget exceeds \$500,000

GENERAL INFORMATION (v. also p. 303)

An appropriation of 500,000 acres of land for the support of 4 grammar schools and a Univ. in Upper Canada was made in 1798, and a Royal Charter was granted in 1827 for a "King's College" with the privileges of a Univ., but it was not until 1843 that the College was inaugurated. In 1849 its title was changed to The University of Toronto. It was reorganized in 1853 as an examining and degree-conferring body on the model of the Univ. of London. In 1887 it again became a teaching body, the Faculties of Medicine and Law which had been abolished prior to the reorganization of 1853 were revived, the Arts work was divided between the Univ. and Univ. College, and provision was made for the admission of other institutions as Federated Colleges. Victoria, Trinity, and St. Michael's Colleges became integral parts of the Univ. in 1892, 1904, and 1907 respectively.

LIBRARY, 187,426 vols. and 63,327 pamphlets. Annual Grant for books, \$27,000; 1600 periodicals received. The (Science) Library of the Roy. Can.

Inst. is housed in the same building MUSEUMS Anat, Geol, Mineral; Trinity has a Nat Hist and Archæol Museum of its own, the Agric and Vet. Colleges, Knox, and the School of Dentistry have each one The Ontario Provincial Museums of Archæol and Nat Hist are in the vicinity LABORATORIES very extensive in all depts of Applied Science and Engineering as well as Anat, Biol Chem, Geol, Household Sc, Path, Physics, Physiol, described in *Bulletin* for Graduate Students BOTANICAL GARDEN OBSERVATORY HOSPITALS available for Clinics General, 700 beds, Children's, 262, St Michael's, 400, Western, 120

UNIVERSITY MATRICULATION BOARD As a result of a conference of representatives of the Univs of Toronto, Queen's, McMaster, and Western Univ, London, held in Dec 1908, the Senates of these Univs created a Board to conduct and control their annual Matricn examns The Dept of Educn of Ontario agreed to provide the same machinery for holding these examns as it employs for the Departmental examns, and the Registrar of the Dept is Secy of the Board In connexion with the Pass Junior Matricn examn a report signed by all members of the staff of the school concerned as to the standing of their candidates is taken into account in determining the results

The subjects of Pass Matricn are (1) Latin, (2) English, (3) History, (4) Maths, (5) Greek, (6) French, (7) German, (8) Spanish or Italian, (9) Physics and Chemistry For Matricn in Arts it is necessary to pass in (1) to (4) and any two of (5) to (9) with honour standing in at least 2 subjects for admission to the Pass Course, and in at least 5 specified subjects for admission to an Honour Course In certain cases foreign students may substitute their native language for Greek or French or German

GENERAL INFORMATION

Incorporated in Sept. 1921 as the outcome of recommendations made by the Tropical Agricultural College Committee (appointed by Viscount Milner in 1919) in their Report (Cd. 562), the College aims at promoting the study of and conducting research in Tropical Agriculture in suitable surroundings and creating a body of British expert agriculturists well versed in the knowledge of the cultivation of land in the tropics, of chemists, and of scientific advisers possessing an intimate knowledge of the means of combating pests and diseases. The College buildings are at St. Augustine, near St. Joseph, Trinidad, on land granted by the Govt. of Trinidad and Tobago. The funds of the College are derived from contributions from Colonies and industries participating in the movement and an Imperial grant. The Imperial Department of Agriculture, which was founded in 1898 and was amalgamated with the College on April 1, 1922, is administered by the Imperial Commissioner of Agriculture, now the Principal of the College, who corresponds directly with the Colonial Office and the Governments concerned. He supervises the botanic and experiment stations at Grenada, St. Vincent, St. Lucia, Dominica, Montserrat, Antigua, St. Kitts-Nevis, and the Virgin Islands, and advises the Government of Jamaica, British Guiana, Trinidad, British Honduras, the Bahamas, and

Bermuda in agricultural matters, including the teaching of agriculture in schools. Up to March 1922 the Department issued the *Agricultural News*, a popular fortnightly review circulating widely in the tropics of the old and new worlds, and the *West Indian Bulletin*, a scientific quarterly dealing specially with tropical research and experiment. Numerous pamphlets dealing with special subjects and annual progress reports on sugar-cane experiments and the work of botanic stations were also issued. The College publishes monthly *Tropical Agriculture*. On the transfer of the headquarters of the Department to Trinidad in Sept. 1922 the services of all the officers were retained in the staff of the college, and remain available for duty in connexion with the work of the Department.

A model sugar factory, towards which British sugar machinery manufacturers are contributing plant worth £20,000, is being set up.

The academic year extends from October 1 to June 30.

COURSES. (1) Three-years' Diploma Course for giving a thorough training in the science and practice of T A to students intending to become tropical planters, investigators, or experts in different branches of Agr. Science or Technology, (2) one-year course in elementary Agr. Science for students unable to afford (1), with some practical acquaintance with the scientific side of tropical planting and the more up-to-date and efficient methods of production and management; (3) courses for Agr. officers selected for Colonial service in T A departments.

POST-GRADUATE RESEARCH. Facilities are provided for work in connexion with problems arising in T A, and more especially those connected with plant pathology, agronomy, and physiological botany.

TUITION FEES. £50 p a, but a limited number of students from contributing Colonies and industries are admitted, on the nomination of the respective local Govts and industries, without the payment of tuition fees, other students from contributing Colonies, £25 p a.

Further particulars are obtainable from either the Secy at 14 Trinity Sq, London, or the Registrar, St. Augustine, Trinidad, B W I.

STUDENTS in 1922-23. Diploma, 11; graduate, 2, special, 3.

GENERAL DESCRIPTION

[Summary, corrected to Sept 1922, of information issued in June 1919 by an Administrative Committee of the Australian Universities through the Education Service of the Australian Imperial Force of which the Committee was a part]

THE Universities of Australia are dotted all round the Commonwealth and are at great distances from one another and in diverse climates. The mean annual temperatures range between about 70° at Brisbane and 54° at Hobart. Western Australia's nearest neighbour is Adelaide, which is about 1600 miles away by the shortest route. There is, naturally, not much moving about of students from one to another, but in the three younger some of the principal professional courses are not yet provided, and it frequently happens that a student after working in one of them for a year or two transfers to one of the older and more central Univs where he is granted status in his professional course. As the Univs are not all uniformly developed, they cannot be quite uniform even in their requirements for entrance. But they exercise all possible reciprocity in the interchange of students. They also give students who come from British Univs the same status as at Home. Typical of their attitude in this regard is the By-law of Sydney. Undergraduates of other Univs may, at the discretion of the Professorial Board, be admitted *ad eundem statum* in this Univ without examn. Provided always that they shall give sufficient evidence of their alleged status and of good conduct.

THE COLLEGE SYSTEM When the Univs of Sydney and Melbourne were founded provision was made for the establishment of "Colleges of Residence in connexion with different religious denominations." So there came into existence at Sydney, and on the Univ grounds, "St Paul's" (Church of England), "St John's" (R C), "St Andrew's" (Presb), an undenominational College for women, and "Wesley" (Meth). Similarly at Melbourne, the first College, "Trinity" (C of E), was opened in 1872, and was followed by "Ormond" (Presb), "Queen's" (Meth), and "Newman" (R C). Queensland has "Emmanuel" (Presb), "St John's" (C. of E), "King's" (Meth), and an "undenominational" Women's Coll, as well as St Leo's (R C). There are no other Univ Colls in Australia. All these are self-governing and receive no financial aid from the Univ. They accommodate and teach only a small proportion of the whole number of Australian students, but their importance and influence on Univ life are not to be gauged by this circumstance.

CONSTITUTIONS The outstanding feature of the Australian Univ constitutions is the definite and considerable part taken by the State in appointing members of their governing bodies This is due to the large contributions made to them out of public funds The newest Univs have admitted divers other persons, such as representatives of commercial, industrial, scientific, and educational societies, or benefactors, to participate with their graduates in the election of senators or councillors The constitution of Sydney is the simplest, that of Queensland is the most comprehensive in its legal conception of the Univ as "a body corporate consisting of Senate, Council, and graduate and undergraduate members" Western Australia, however, is the only Univ where undergraduates are enrolled by Act of Parliament in a "Guild" which is given a representative on Convocation, the electing body that may also disallow or propose amendments in any legislation of the Senate.

ADMISSION Attempts have been made to devise a common matricn, but, so far, they have failed The reason for this is that the Univs, although they are developing on very similar lines, and attaining very similar standards, are maintaining a certain amount of individuality Generally speaking, matriculation requirements include passing a recognized examn (school-leaving, matricn, etc) in English, another approved language (at Sydney, *e g*, Latin, Greek, French, German, Italian, or Japanese), Mathematics, and one or more other subjects Special facilities are offered for matriculation in some faculties to persons who have attained the age of 25 yrs, provided (Sydney) they give evidence of distinct educational merit and are recommended by a three-fourths majority of the Faculty of Arts and approved by the Senate

THE UNIVERSITY AND THE PROFESSIONS The Univ has always at least one professional school Thus Queensland's School of Engineering has a high repute Western Australia is making a specialty of Agriculture Tasmania has no professional school but Law Sydney, Melbourne, and Adelaide have each a wide range of schools

The Engineering schools give a thorough practical training Rather high entrance requirements are called for in each of the Univs The curricula extend over 4 yrs (W Australia, 5 yrs), and are arranged with the definite view of giving a sound knowledge of the properties of materials, and the principles of Maths, Phys, Chem, and Mechanics underlying all engineering work, before specialized professional subjects are taken Owing to several large bequests the Russell School of E in Sydney is the most fully equipped It maintains separate depts for Civil, Mech, and Elec E, for Mining and Metall, and for Archit and Building Construction The corresponding Schools in Queensland and Melbourne are also well equipped, and those of Adelaide and Western Australia, although not so comprehensive, are efficient Systematic arrangements are made for students to obtain practical experience in workshops or in the field during vacations The University training is widely recognized as a necessary qualification for professional positions As a rule graduates in Civil E enter the State or

Federal Public Works Depts, which carry out practically all the large national engineering works, very little in the way of Public Services being left to private enterprise. The experience thus to be gained is very good, although it must be admitted that the emoluments are relatively low. Many graduates in Mining E have been absorbed in the mining industries of Australia, but a great number—probably the majority—find their way to the larger mining centres of the world where the financial rewards are usually greater. There is a good deal of industrial and commercial engineering in Australia, and men wishing to have the freer scope which this offers usually take the courses in Mech and Elec E. In Archit, especially the domestic kind, there is a promising outlook in practically all parts of the Commonwealth.

The Medical Schools of Sydney, Melbourne, and Adelaide are among the best in the Empire. They comply with the requirements of the General Medical Council, and there is full reciprocity, in respect of registration of degrees as qualifications to practise, between the U K and Australia. The greater part of the Australian medical profession is now trained in these 3 Univs, and distinguished teachers and research workers are continually being brought in to supplement their staffs. High positions are also held by their graduates outside Australia. It is generally felt by Australian medical men who have had experience in Europe among men trained in the Schools of the U K, that their own training has been even more practical. It is thoroughly British in scope and method, but, in the proportion of hospital facilities to the number of students, it has had some advantages over the training received by the average British student. Whether this impression is or is not correct, it remains true that Australian medical education has reached a high standard, and the equipment of the Faculty is always good and often excellent. Sydney has the advantage of an immense public hospital, on its own grounds, with another a short tramway journey distant. In Melbourne general hospitals containing 500 beds, and women's and children's hospitals are close to the Univ. The Genl Hospl at Adelaide is within half a mile of the Univ, and after the 2nd yr the greater part of students' time is spent in it. The work done may also be supplemented by study, after graduation, in the "Australian Institute of Tropical Medicine" at Townsville in Queensland, and a Diploma in Trop Med is attainable. The Hall Research Institute in connexion with the Melbourne Hospl provides facilities for post-graduate work.

In all the Univs the Faculty of Arts is becoming, with due help from the Faculty of Science, a professional school for teachers. Sydney and Melbourne have Profs of Education who are also heads of the State Training Colleges. Adelaide has the State Director of Education on its Ed Committee and Council, and gives a Diploma to graduates in Arts and Science who take a prescribed course of prof study and have proper experience of teaching. There is a course in Ed at Queensland and every faculty is given to teachers to graduate in Arts. Western Australia has a Dept of Ed, but it is not yet fully organized. An excellent professional equipment for teaching can now be obtained in Australia and the material rewards of teaching are likely to increase.

The less anciently established professions become associated with the Univs on obtaining a higher status or a legal organization. Thus Vet Science, the practice of which is as yet legally controlled in only two States, is now regularly entered in one of these (Victoria) through a Univ course of study. In N S W, its legal constitution will certainly follow the recent institution of a Faculty of Vet Science at the Univ of Sydney. In Western Australia, whose Univ also has a Dept of Vet Science, the law requires such qualifications for vet practice that a Univ training will become the natural approach to the profession in that State.

PERIODS OF STUDY The Univ requires 3 yrs' study for a B A or B Sc. The curriculum for the first degree in Med, formerly 5 yrs, has been lengthened; in Melbourne and Sydney it is 5½ yrs and 6 yrs. The time needed to graduate in law may vary; thus Melbourne course takes 4 yrs, but Sydney allows Arts graduates, if they can, to do the prof studies in 2 yrs. To graduate in Engin requires 4 yrs, in Vet Science, in Agric, and in Dentistry also 4 yrs, subject to certain minor variations.

ACADEMIC TERMS In Australia qualifications are reckoned in "Years" and "Courses". But each "Year" is divided into "Terms". The number of Terms in the Year is usually 3. The Year begins in March and ends in Nov or Dec. The "Long Vacation" comprises Dec, Jan, and Feb, which are the warmest months. Melbourne has 4 terms, the First of 12 weeks, the Second of 10, the Third of 10, and the Fourth, or Examn Term, of 4. Tasmania also has 4 terms. Queensland has 3 terms and 2 Examn Periods.

FEES AND COST OF LIVING The cost of living varies a good deal in different parts of Australia. A student will probably not notice much difference between Sydney and Melbourne in this respect. But anywhere he will find that £175 a year gives him quite sufficient means, for the climate is benign and good food is plentiful. The style of living everywhere is unostentatious. Decent board and lodging should not cost more than 30s a week. The Univ "Unions" provide good meals at about cost price, from 6d to 2s each, together with all the other comforts of a clubhouse, for £1 or less a year. Exercise in rowing, football, cricket, and other games may be had in the Sports Clubs on correspondingly easy terms.

Residence at a College is optional. College fees for residence and tuition range from 80 to 100 gs per annum. Thus Wesley College, Sydney (Methodist), charges 28 gs a term for resident students, Ormond, Melbourne (Presb), from 95 to 110 gs a year for residence during terms, according to the course being taken. St John's, Queensland (Anglican), has fees of £21 per term. Special arrangements can always be made for residence during vacations and, for an example, Ormond then charges 2 gs a week. Many men live in College on a total income of not more than £150 a year, it is doubtful if any will spend double that amount. There are few rich students and no tradition of expensive living among College men, no charming but costly ancient customs. The assistance from Scholarships and Bursaries is generous.

A list of Univ Fees payable at Melbourne and Sydney is given

below. The fees at Tasmania are very small, 4 or more subjects a year costing only 10 gs, and a year's work in the laboratory not going beyond 4 gs. Queensland has composition fees for complete degree courses, which are from 12 to 18 gs a year in Arts, 20 gs in Science, and 21 gs in Engineering. W. Australia charges fees for exams., degrees, and certs., but tuition fees only to overseas students. Fees at Adelaide do not differ widely from those at Melbourne and Sydney.

Melbourne Matricn, 1 g, Degree, 7 gs, Degree Courses in Arts, 3 yrs, about 52 gs, Science, £25 each yr, Agric, 4 yrs, 78 gs, Laws, 4 yrs, about 60 gs, Med, 5½ yrs, £215 (including Hospl Fees), Engin, 4 yrs, £100, Vet Sc, 4 yrs, £100, Music, 3 yrs., at conservatorium, 44 gs p a

Sydney Matricn, £3, Degree in Arts, Econ, Sc, Agric, or Vet. Sc, £3, M D and M S, £20, other Degrees, £10, Degree Courses in Arts, 3 yrs, £75, Econ, 4 yrs, £96, Law, £90 (Arts subjects additional), Med, £196 (excluding Hospl. Attendance, 10 gs, and practical Midwifery, 5 gs), Dent, 4 yrs, £150 (including Dent Hospl £10 p a), Science, 3 yrs, £99, Engin, 4 yrs, £154 (Min and Met, £168), Agric, 4 yrs, £118 10s, Vet Sc, 4 yrs, £114, Archit, 4 yrs, £168

CONFERENCE

After a conference held at Sydney in May 1920 the Australian Univs established a Standing Advisory Committee to deal with matters of common interest. The temporary headquarters of the Committee are in Melbourne. The Chancellor of Melbourne Univ acts for the time being as Convener of the Committee, and the Registrar as Honorary Secretary.

A conference of representatives of the Univs. was held in Melbourne in May 1922. Steps were taken to ensure that the short vacations in autumn and spring should be to a large extent common to all the Univs so as to facilitate, for the staffs, the holding of conferences and congresses and, for students, the holding of inter-University competitions. With a view to securing more uniformity in the standards and titles of Australian degrees, the several Univs were asked to furnish reports to the Standing Advisory Committee. Representations were made to Oxford, Cambridge, and London, asking for further credit for Australian students for work done in Australia. The question of holding degree exams in country centres for Arts and Law students who do not attend lectures was discussed. Several Univs already hold such exams to a limited extent. A statement of policy in this connexion was agreed to.

GENERAL INFORMATION (v. also p. 398)

The Univ. was established by Act of the Provincial Legislature in 1874
with endowments of £40,000 from Sir W W Hughes and Sir I Elder, and
a land grant of 50,000 acres (subsequently repurchased by Govt. for £40,000)
as well as a site of 5 acres in the city and a recurrent money grant. Sir T
Elder died in 1897 leaving £65,000 to the Univ. In 1911 the State Parliament
sanctioned an additional annual grant and took power to appoint 5 additional
members of the Council which, until then, consisted of 20 elected by the
Senate. In 1914-19 Mr Peter Waite presented to the Univ approximately
£55,000 and extensive estates, including a mansion, and in 1920 Sir J L
Bonython gave £40,000. The annual Govt grant raised in 1919 by £20,000
is now about £35,000. The value of the endowments is £400,000.

LIBRARY, over 50,000 volumes. LABORATORIES, Biol, Bio-Chem, Bot,

GENERAL INFORMATION (v. also p. 398)

The Univ. was founded in 1853 by Act of the Victorian Legislature. In 1904 the annual grant of £9000 was increased by £11,000, enabling the Mining and Agric Depts. to be developed. At the same time 3 Parliamentary Members were added to the Council of 20 elected by the Senate. In 1909 a further annual grant of £4200 was sanctioned for a Vet. School. In 1921 the invested Trust funds amounted to £247,700, Govt. grants £38,900, fees £71,600, and expenditure on salaries £79,900. The grounds, 104 acres, include four 10-acre College sites surrounding a recreation ground of 16 acres.

GENERAL INFORMATION (v. also p. 398)

The Univ was established by an Act of the local legislature in 1909. The entire management and control are in the hands of a Senate of 20 members, of whom 10 were appointed by the Government and 10 were elected by the Council (consisting of all members and past members of the Senate, graduates of the Univ of 3 yrs' standing, persons appointed by the Govt as representatives of Commercial, Industrial, Scientific, etc, Assocns, benefactors, etc). The annual grant from Govt was £10,000 until 1917, when it was raised to £15,000. Under the will of the late Sir Samuel McCaughey, the Univ. receives an annual income of about £7500.

The grounds, facing the Brisbane River and adjoining the Botanical Gardens, include, in addition to the main building and recreation grounds, 6 departmental buildings and the Central Technical College.

GENERAL INFORMATION (v. also p. 398)

Founded by Act of the N.S.W. Legislature in 1850, the Univ. was granted
a Royal Charter in 1858. Its development has been largely due to private

benefactions, notably those of J. H. Challis—£250,000—in 1880, T Fisher—£30,000 for Library—in 1885, and P. N. Russell—£100,000 for School of Engineering, etc.—in 1896 and 1904. Under the will of Sir S. McCaughey it will receive £15,000 p. a. In 1912 the Statutory endowment was raised from £10,000 to £20,000 with provision for further automatic increases, and at the same time the constitution of the governing body, called the Senate, was altered so as to include 6 nominees of the Govr. and Parliament (one-fourth of the whole number). In 1917-18 the Statutory endowment was further increased by £32,000, including £2000 for the new School of Archit Private Foundations balances amounted in 1922 to £598,570, Govt grants to £68,170, fees £42,590, expenditure on salaries £112,875, including £9206 from the Challis Fund, and £12,817 from the McCaughey Fund. In 1919 the State provided £50,000 a year for 6 years for additional buildings The faculties were in that year increased from 4 to 10. The grounds, which include the sites of the Colleges grouped round an oval, cover 140 acres

Provision was made by Act of Parliament soon after the foundation of the Univ. for endowing such Colleges as might be established within it, to the extent of £20,000 in aid of building and £500 p. a. towards the Principal's salary.

The LIBRARY, 130,000 vols., receives over 750 serial publications. MUSEUMS Nicholson collection of Egypt., Greek, Roman, and Medieval Antiq. (4000 specimens), Macleay Nat. GENERAL INFORMATION

Founded by Ordinance of the Provincial Council in 1869 with power to grant degrees in Art, Medicine, and Law, the Univ. was opened in 1871. The Law School originated in 1873, the Medical in 1874, the School of Mines in 1878, the Dental School in 1907, the Accountancy Lectures and the Home Science Dept. in 1911. Between 1869 and 1877 the Univ. received grants of land exceeding 220,000 acres. It is entirely unconnected with any religious denomination except that the right of nomination to certain Chairs endowed by the Presbyterian Church rests with the Board of Church Property, subject to the approval of the Synod. It receives an annual government grant of £10,000.

By an agreement effected in 1874 the Univ. agreed to hold in abeyance its power of granting degrees, and to become affiliated to the Univ. of N.Z.

CLASS FEES. In separate subjects—in Arts generally, £3 10s for complete course; Science, £5 5s; Law from £1 4s to £3 10s, Commerce, £1 4s. to £4 4s.; Medicine, all subjects aggregate (5 years), about £163, exclusive of Univ. fees, £45. 3s., and Hospit. fees, Dentistry (4 years), £140, exclusive of Univ. fees, £24; Mining (4 years), £112, Home Science (4 years), £106.

UNIVERSITIES OF THE UNION OF SOUTH AFRICA

UNIVERSITY OF SOUTH AFRICA, PRETORIA (formerly the Univ of the Cape of Good Hope), with 6 CONSTITUENT COLLEGES

UNIVERSITY OF STELLENBOSCH (formerly Victoria College, Stellenbosch)

UNIVERSITY OF CAPE TOWN (formerly South African College, Cape Town)

UNIVERSITY OF THE WITWATERSRAND, JOHANNESBURG (formerly S African School of Mines and Technology, and, later, University College, Johannesburg)

HISTORICAL SUMMARY (for which the Bureau is indebted to Professor Ritchie of Cape Town) The history of higher education in S Africa covers but a comparatively short period of time It may be said to have had its beginnings when, in 1829, the S African College (now incorporated in the Univ of Cape Town) was founded, as a proprietary institution, by a number of progressive citizens of Cape Town, assisted by subscribers from various parts of the country This institution was, at its inception and for a long time afterwards, not much more than a higher-class school, but it had within it the possibilities of growth and started with very high aims It had a very chequered history for some time, and was on more than one occasion in danger of extinction, but it gradually acquired a stronger position on ceasing to be a proprietary institution and receiving support from the public funds For 20 years it remained the only educational establishment in S Africa which aspired to anything beyond the range of elementary education, but in 1849 a rival College (the Diocesan) was started under the ægis of the Episcopalian Church at Rondebosch, a suburb of Cape Town. A few years later, in 1855, a somewhat similar College, St Andrew's, was founded in Grahamstown, in the eastern part of the Cape Colony Under the Governorship of Sir George Grey there was founded, in 1855, the Grey College at Bloemfontein in the Orange Free State, the first attempt at higher education beyond the borders of the then Cape Colony None of these Colleges were well equipped, and most of the work done by them was school work rather than Univ work, but they gradually acquired a growing influence and formed centres at which development was only a question of time A very strong impetus in the direction of higher education was given in 1858 by the establishment of a Board of Examiners in Literature and Science This Board had in view in the first instance the testing by means of examination of the competency of candidates for the Civil Service and public offices, but

it soon extended its scope and started examinations on more distinctively Univ. lines, corresponding roughly to Matricn., B A., and M A. The competition between the existing Colleges caused by these exams had undoubtedly a strong influence on the growth of these Colleges and the greater attention paid to subjects beyond the mere school range. This Board continued to exist until 1873, when a successful attempt was made to institute a Univ. for S. Africa. The Univ. of the Cape of Good Hope, which was then founded, continued to exist until the beginning of 1918, when it was transformed into the Univ. of S. Africa, with its administrative seat at Pretoria. This Univ. was modelled on the lines of the London Univ., as then existing, as a purely examining body. It was governed by a Council, half of whose members were nominated by the Government, half elected by the members of Convocation. It had no constitutional connexion with the Colleges which prepared students for its exams, but the members of the Council who were elected by Convocation tended gradually to be almost entirely members of the teaching staffs of the various Colleges. In this indirect fashion the Colleges had a considerable influence on the development of the Univ. and the extension of the range and scope of its exams. Almost at the same time as the founding of the Univ. of the Cape of Good Hope there was passed by the Cape Parliament a Higher Education Act, which gave definite salary grants to the professors at recognized Colleges. This Act, together with the new impulse given to higher education by the new Univ., had a very marked influence on the development of the Colleges, which now began to increase in staff and numbers of students. The new College of Stellenbosch (afterwards the Victoria College and now the Univ. of Stellenbosch) was founded in 1874, and grew very rapidly, until it was a formidable rival of the older College at Cape Town. Other Colleges were founded also at Somerset East (Gill College) and Port Elizabeth (Grey Institute), but these had only a very short term of life. At a considerably later period, as S. Africa grew in population and wealth, other Colleges sprang into existence. A College for women (the Huguenot College) was founded at Wellington in 1898. In 1904 St. Andrew's College at Grahamstown separated its College department from its school, and the former became incorporated as the Rhodes College. In the same year was founded at Johannesburg an Institute, designed in the first instance for instruction in mining but afterwards developed into a College for higher education generally, and now The University of the Witwatersrand. In 1908 a Univ. College was founded at Pretoria, and in 1909 a similar College was instituted at Pietermaritzburg, Natal.

In 1904 there began a movement for the institution of a teaching, in place of the examining, Univ., and the controversy regarding the rival claims of a federal and a single-college Univ. continued for a number of years. An Inter-Colonial Conference on Univ. Education in 1908 reported in favour of a federal scheme, but nothing came of its decision. A new factor in favour of a teaching Univ. was introduced by the munificent gifts for this purpose of Mr. Alfred Beit, his brother, Mr. (now Sir) Otto Beit, and Sir Julius Wernher. In consequence of these gifts, various attempts were made by the Government to solve

the knotty question of reconciling claims of the existing Colleges with the institution of one or more teaching Univs. A parliamentary committee deliberated on the subject in 1913, and a Commission was appointed in the same year and, after taking evidence, issued its report in 1914. This Commission proposed two Univs, one consisting of a federation of the S. African College and the Victoria College, the other of a federation of the remaining Colleges (Rhodes College being allowed the choice of joining whichever federation it pleased), but the proposal led to no practical result, chiefly owing to the objection on the part of the two oldest and strongest colleges, at Cape Town and Stellenbosch, to the loss of their independence. The problem was at length solved in 1916 by giving charters to both the S. African College and the Victoria College, and by the reincorporation of the old Univ. of the Cape of Good Hope as a federal Univ. embracing all the other Colleges under the name of the Univ. of S. Africa.

The three Acts passed by the Union of S. Africa in 1916 were to the following effect:

I The Univ. of the Cape of Good Hope became the Univ. of South Africa, with its administrative seat at Pretoria.

II The South African College became the Univ. of Cape Town, with which is incorporated the S. African College. Its seat is to be upon the Groote Schuur estate on the eastern slopes of Table Mountain.

III The Victoria College, Stellenbosch, became the Univ. of Stellenbosch, with its seat in the division of Stellenbosch in the Province of the Cape of Good Hope.

The Faculties of the Univ. of Stellenbosch are defined as—Arts, Science, Education, Agric., Law, Music, of the Univ. of Cape Town as—Arts, Science, Medicine, Law, Engineering, Education, of the Univ. of South Africa the Faculties are not defined, but permission is given to each of the constituent Colleges to establish such faculties or depts. as it may deem fit, provided that it shall not, without the consent of the Govr.-General, apply towards the maintenance of a faculty or dept. not established at the commencement of this Act any money granted to the College from public funds. A schedule is appended to the Act stating that professional exams will be conducted in Law and Jurisprudence, in Civil Service Law, and in the Theory of Land Surveying.

In 1921 Parliament passed a further Act, which has the effect of incorporating, with effect from March 1, 1922, as "The University of the Witwatersrand, Johannesburg" the University College, Johannesburg (formerly the S. African School of Mines and Technology, and one of the constituent colleges of the University of S. Africa). Its Faculties are defined as Arts, Science, Medicine, Law, Engineering, Commerce.

Each of the four Univs. is governed by Council, Senate, and Convocation. The Senate of the Univ. of South Africa consists of the Professors and Lecturers of the constituent Colleges who are heads of such departments as are recognized by the University Council, the Senates of the Univs. of Stellenbosch, the Witwatersrand, and Cape Town consist in each case of the Principal, the Vice-Chancellor, two additional members of the Council appointed for a prescribed period,

and the Professors and Lecturers who are heads of their respective departments.

CONFERENCE The Vice-Chancellors of the Univs acting as a Joint Committee (known as *The Vice-Chancellors' Committee*) have, in the exercise of powers conferred by the above-mentioned Acts, made joint statutes and regulations relating to the Joint Matricn Board, the Joint Committee for Professional Examns, the administration of the Joint Scholarship Funds of the four Univs, the admission of registered students of any one of the Univs to any of the others, and a minimum period of attendance and minimum fees for the Degree of Bachelor. They have power to formulate regulations dealing with any other matters of common interest. The **JOINT MATRICULATION BOARD** (Address of Secretary—P O Box 392, Pretoria) consists of representatives of the four Univs, the Provincial and Union Departments of Education and the Secondary Schools (public and private) of the four Provinces. Its function is to control and conduct the Matricn Examn of the four Univs, and to deal with all applications for exemption therefrom. There are two alternative sets of regulations—the interim and the new. Under interim regulations a candidate must take (1) English or Dutch, (2) Latin or French or German, (3) Maths, (4) Greek or Hist, (5) Physics or Chem or Phys Sci or Bot or Zool, (6) Engl or Dutch or French or Ger or Gk or Hist or Portuguese or Hebrew or Native lang. Under the new regns subjects are grouped thus (1) English, Dutch, (2) Maths, (3) Latin, Greek, French, German, (4) Physics, Chem, Bot, Zool, Geol, (5) Hist, Geog, English, Dutch, Hebrew, addl subject from 3 or 4, (6) Agric Sc, Practical Maths, Mechanics, Bookkeeping and Comml Arith, Shorthand and Type-writing, Drawing, Geom Drawing, Domestic Sc, Music, addl lang., addl subject from 5. Under the new regns, if 6 subjects are taken, 1 must be selected from each group, if only 5 subjects are taken, 3 must be on the higher grade, 1 of which must be the subject from group (1), 1 a subject from group (2) or (3), and 1 from any other except (6). The 5 subjects must be selected from the groups 1 to 5 (inclusive) in such a way that not more than one of these groups is omitted. A **JOINT COMMITTEE FOR PROFESSIONAL EXAMNS** (Address of Secretary—P O. Box 392, Pretoria) consisting of 2 representatives of each of the 4 Univs (one for Law and one for Survey) and 5 persons appointed by the Govr-General (of whom at least 2 must be for Law and 2 for Survey), controls and conducts (1) Law Certificate Examn, (2) Civil Service (Lower and Higher) Law Examns, (3) Examns. in Theory of Land Surveying, and (4) Final Examn for Patent Agents. It also conducts in certain cases on behalf of the Supreme Court the Advocates' Admission Examn in Roman-Dutch Law and the Statute Law of the Union.

TERMS. The academic year is usually divided into 4 terms, beginning in Feb or March and ending Nov or Dec.

GENERAL INFORMATION (v. also p. 441)

The University of Cape Town, with which is incorporated the South African College, created by Act 14 of 1916, came into legal existence on April 2, 1918, when the Council took over a bequest by Sir Julius Wernher of £250,000

and a donation of equal amount from Mr Otto Beit, who added £50,000 to a lapsed bequest by Mr Alfred Beit. The S African College, out of which the University grew, opened in 1829 as a private venture, became a public institution in 1837. In 1895 classes were opened in mining engineering. In 1900 the matriculation classes were transferred to the College school and the College confined itself to University teaching. In 1902 £40,000 was collected from past students and others, and courses for medical students and civil, mechanical, and electrical engineers were begun. Provision was made in 1910 for post-graduate courses for the training of teachers, in 1917 for the third year of medical study, and in 1918 for a complete medical course. In 1921 Schools of Commerce and of Music were established. Early in 1921 a special appeal for funds was concluded, the amount obtained was about £280,000, including a sum of £50,000 for the Jameson Memorial Hall.

A site for the University has been provided by Government at Groote Schuur, a suburb of Cape Town. Pending the erection of buildings there, those formerly occupied by the Univ. of the Cape of Good Hope have been rented.

LIBRARY, 12,000 vols. Access to S A Public Library, 100,000 vols, specially well equipped in Bot and Zool Depts. Also Bolus Bot Library and (for students of Teaching) the Library of the Educn Dept. GENERAL INFORMATION (v. also pp. 441, 450)

In 1902 a movement was started for the institution of university education in the Eastern Province, and in 1904 the Rhodes Trustees established for the purpose an endowment of £50,000, which, together with a donation of £5000 from the De Beer's Company and local subscriptions amounting to £10,000, was applied to the development of St Andrew's College (founded 1855). The College Department (opened in 1878) was separated from its school, and incorporated as Rhodes Univ Coll in 1904. In 1906 it received £25,000 under the will of Alfred Beit.

GENERAL INFORMATION (v. also pp. 441, 450)

In 1908 University Classes in Arts, Science and Law were established at Pretoria by the Transvaal Govt, and were placed under the control of the Council of the Transvaal Univ College at Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A separation took place in 1910, the Johannesburg section being reincorporated as the South African School of Mines and Technology, whilst the Pretoria section retained the name of the Transvaal Univ College. In 1917 was instituted a Faculty of Agriculture, financial provision for which (an endowment of £100,000) had been made by the last Parliament of the Transvaal in 1910. The following Faculties have since been established: 1918, Theology, 1919, Commerce and Public Administration, 1920, Veterinary Science, Music, 1923. The original College Buildings were erected and equipped at a cost of £50,000, those of the Faculty of Agric at a cost of £100,000, while those of the Faculty of Vet Science, now in process of erection, involve an expenditure of £150,000.

COURSES are provided for all Degrees and Diplomas of the Univ in Arts, Science, Agric, Vet Sc, Law, Div, Music, and Commerce and Public Administration. FEE for full degree course, £21 to £27 6s p a.

HOSTELS. 4 for men, including the Dutch and English Church Hostels, and 2 for women. Board and Residence, £60 p a.

LIBRARY, 14,000 vols. LABORATORIES. Bot, Chem, Geol, Phys, Zool, Agric Bot, Agric Chem, Agronomy, Physiol, Vet Anat.

THE YEAR 1922-23

BENEFACCTIONS. £3000 given by General Smuts for the foundation of a Louis Botha Scholarship. £2500 promised by the S.A. Women's Federation. Grant from Union Government, £32,662. NEW BUILDINGS AND EQUIPMENT. Building loan obtained from Govt and tenders accepted for erection of a Science Block at a cost of £25,000. Administrative Offices will be commenced shortly at estimated cost of £8000. The new block for Bio-Chem, Physiol, Pharmacol, and Ecology in the Faculty of Vet Science was completed by the beginning of the year. A new Hostel for men has just been completed at the Vet Laboratories at Onderstepoort. A CHANGE IN REGULATIONS diminished the extent of control by the Education Dept. The Block Grant System is now being introduced, by which the Govt will make a General Purposes Grant based upon fee and other income, and the College Authority will have a free hand in its expenditure. The conditions of service will be almost entirely determined by the College Authority, but must receive the sanction of the Minister of Education. RESIGNATIONS. Acting Prof E. O. Amundsen (Hortic) and Prof H. A. Wager (Botany). SPECIAL

GENERAL INFORMATION (v. also p. 441)

Telegraphic address—University, Johannesburg.

The **TRANVAAL TECHNICAL INSTITUTE**, constituted in 1903, was opened in 1904 and took over at Johannesburg the work of the **S AFRICAN SCHOOL OF MINES, KIMBERLEY**, which had been founded in 1896. In 1906 its name was changed to "**TRANVAAL UNIVERSITY COLLEGE**," and in 1908 Arts and Science classes at Pretoria were placed under its control. This arrangement was terminated in 1910, when the Johannesburg part of the institution was incorporated under the name of the **S. African School of Mines and Technology**. Buildings, towards the cost of which the Council of Education, Witwatersrand, contributed £60,000 and Govt £30,000, were opened in March 1909. In 1913 Commerce (Diploma) courses were established. In 1916 a Witwatersrand University Committee was formed in Johannesburg to promote the establishment of a fully equipped Univ. College financed by the State, as a step towards the formation of a University. In 1917 the School became one of the constituent colleges of the new federal Univ. of S. Africa. In the same year classes in Arts, Pure Science, and Medicine were inaugurated. In Sept. 1920 the institution became the "**University College, Johannesburg**." In 1921 the College was reincorporated as a University with effect from March 1, 1922. The students in 1916 and each of the following years up to 1922 numbered 77, 173, 191, 301, 635, 812, 983. This development was made possible partly by support from the public, including contributions by the Chamber of Mines (£50,000), Standard Bank of S. A., Nat. Bank of S. A., Central Mining and Investment Corporation, and De Beers Cons. Mines, Ltd. (£10,000 each), Sir Otto Beit (£8000), and many others, amounting in all, up to the end of 1922, to over £220,000. The Municipality provided a fine site (100 acres) at Milner Park, a mile from the centre of the town. Expenditure on buildings and lay-out up to Aug. 1923 amounted to £330,000. **LIBRARIES** Seymour Memorial, 12,000 vols., and several departmental. **MUSEUM** with good Geol. collection.

THE UNIVERSITIES OF INDIA

UNIVERSITIES were first established in British India as a result of the great parliamentary inquiry into the condition of India which preceded the confirmation of the Company's Charter in 1853. It was resolved to create a properly articulated system of education from the Primary School to the Univ. The London Univ., at that time a purely examining body, which admitted to its tests only the students trained in affiliated institutions—the latest device of educational statesmanship—was taken as a model. “It had been suggested, in London, by conditions which resembled those of Bengal. Its defects were not yet apparent, though it was to be profoundly modified by London itself four years later. It had the advantage of costing very little. It enabled all the existing collegiate institutions, whether Government or missionary, to be worked into the same scheme, and promised to provide a quite impartial mode of testing the qualifications of students for Government service. Above all, it gave freedom to the non-Government Colleges—all, at that date, mission colleges—to carry on their work in their own way, and offered them help from public funds for the secular side of their work” (*Report of the Calcutta Univ. Commission, 1917-19*). In pursuance of this policy, Univs. were founded in 1857 at Calcutta, Bombay, and Madras. The framers of the policy, while contemplating that the ordinary subjects of study should be dealt with by the Colleges, did not intend that the Univs. should have no teaching functions, but in point of fact they have until recently concerned themselves solely with examinations. In 1882 and 1887 the Univs. of the Panjab and Allahabad were established on similar lines. A Commission was appointed in 1902 to examine the working of the system, and the Univs. Act of 1904 was designed to give effect to its recommendations as to reorganization of the government of the Univs., their assumption of teaching functions, and more effective supervision by them of the Colleges as well as more exacting conditions of affiliation. Univ. Professorships, Readerships, and Lectureships have accordingly been constituted in the above-named Univs., but mainly for advanced (post-graduate) courses and, except in Calcutta, only on a very small scale. Benares (Hindu), Mysore, and Patna Univs. were established in 1916 and 1917. The foundation, structure, and working of institutions for higher education in India have been subjected to exhaustive re-examination by the Calcutta Univ. Commission, 1917-19. In the Univ. of Calcutta itself but little progress has been made towards giving effect to the far-reaching and fundamental changes recommended by this body, but their recommendations have to a great extent determined the lines on which were established in 1920 and the two following years the unitary, teaching, and residential Univs. of Aligarh, Dacca, Delhi, Lucknow, Rangoon, and the Osmania Univ. of Hyderabad, Deccan, and on which the Univ. of Allahabad was re-organized in 1921. Recently the Nagpur Univ. has also been estab-

lished by legislation, and the Univ of Madras is being reorganized on lines somewhat similar to those of the Allahabad Univ

CONSTITUTION (a) The Univs of Calcutta, Bombay, and the Panjab are still governed by the constitution framed under the Act of 1904. The Senate, comprising the (official) Chancellor, the Vice-Chancellor, and Fellows, constitute the Body Corporate of the Univ, the executive government being vested in a Syndicate of from 9 to 17 members, including the Vice-Chancellor and Director(s) of Public Instruction, and members (largely College teachers) elected by the Senate or the Faculties. The constitution and abolition of Faculties rests with the Senate.

(b) The new Univs have a constitution modelled generally on that recommended for Calcutta by the Calcutta Univ Commission —(1) A large body called the Court, on which are represented the chief interests of the community either by election or by nomination, and including a number of ex-officio members, makes statutes and makes recommendations on the financial accounts and the annual report submitted by the Executive Council, (2) the Executive Council of some 15-20 members, elected partly by the Court, partly by the Academic Council, and including ex-officio members, is the executive authority in regard to finance and University appointments, and exercises all residual powers, (3) the Academic Council, which consists almost entirely of University teachers, is responsible for the regulation and maintenance of standards of education and examination within the Univ, and for the initiation of all changes in academic matters. The executive officers of the new Univs are, as under the older constitution, the Chancellor, the Vice-Chancellor, and the Registrar, but the Governor-General is now introduced as the Visitor, with powers of inspection.

ADMISSION TO UNIVERSITY EXAMINATIONS is restricted to students of the Univ and its affiliated Colleges, special exemptions in the case of teachers and similar persons being granted by the Syndicate or the Executive Council.

For **ADMISSION TO THE UNIVERSITIES** of Allahabad, Lucknow, Aligarh, and Dacca a student must have passed an examn equivalent to the intermediate examn of an Indian Univ. For admission to all other Universities a candidate must have studied at a recognized school and passed a matriculation or school final examn.

Applications for **AFFILIATION** are submitted by the Syndicate, if satisfied as to the managing agency, teaching staff, provision for residence of students, equipment, financial resources, suitability of fees, etc., to Government. If granted, the courses in respect of which the College is affiliated are specified. Affiliated Colleges must comply with requisitions by the Syndicate for information, submit themselves to inspection under the Syndicate's orders, and take such action as may be ordered consequent upon such inspections.

TERMS Univ examns are, with few exceptions, held between March and June. Admissions are made as a rule in June or July, though in many cases regular work does not commence till Sept or Oct.

DEGREE COURSES In *Arts and Science* a 2 yrs.' course leading to an

Intermediate examn is followed by a further 2 yrs ' course for the Degree. English is a compulsory subject Madras gives a B A Honours degree requiring an additional year of study

Law The LL B. (or B L) course covers 2 yrs after graduating in Arts or Science

Medicine The M B and B S course covers 5 yrs , starting from the Intermediate examn in Arts or Science or (Bom and Calc) 6 yrs from Matricn.

Teaching The B T (All and Mad —L T) courses cover 1 yr after graduating in Arts or Science Calc gives a L T , obtainable by 2 yrs of study after passing the Interm examn in Arts or Sc Bombay requires either 3 yrs ' experience or 2 terms at a Training College after graduation, *plus* 1 yr 's experience thereafter

Engineering For the B E , Bombay gives a 3 yrs ' , Calc and Mad a 4 yrs ' , course

HIGHER DEGREES The M A or M Sc , can be taken by bachelors of 2 yrs ' standing , the M Sc Mad by B Sc (Hons) of 1 yr 's standing , the Ph D Mad by B A (Hons) or M A of 3 yrs ' standing , the D Litt of All and D Phil of Calc by M A of 3 yrs ' standing , the D Lit or D Sc of Panj by M A or M Sc after 2 yrs of further advanced study , the D Sc of All by M Sc after 1 yr of further study , the D Sc of Calc or Mad by M Sc of 3 yrs ' standing

The LL M of All and Bom , the M L of Mad , and the LL B (Hons) of Panj may be taken by LL B or B L of 2 yrs ' standing, the M L of Calc at any time after taking the B L The LL D (or D L) is open to LL M (or M L) after 5 yrs (Calc 1 yr) of practice

The M D (and in Calc M O) can be taken by medical graduates after experience (Luck and Panj 4 yrs , Calc and Mad 3 yrs , Bom 5 yrs) in the practice of their profession or hospital practice (Luck and Panj 2 or 3 yrs , Mad and Calc 1 or 2 yrs , Bom 1 or 2 yrs , in addition to professional practice) The M S qualifications are similar, but in Calcutta both hospl and professional practice are required

STATUS OF THE NEW UNIVERSITIES The Univs of Aligarh, Benares, Dacca, Delhi, Lucknow, Patna, and Rangoon have been incorporated by acts of the Indian Legislature, and their degrees and examns are recognized by the Govt of India to be equal in value to those of the older Univs for the purpose of admission to public services The Mysore and Osmania Univs were established by local legislation in Indian States, and are not within the jurisdiction of the Govt of India The degrees of Mysore have been recognized by the Univs of Bombay, Calcutta, and Madras, and by the Govt of India The Osmania Univ degrees have been recognized by the Govt of India as equivalent to those of the Univs established by law in India Professor Karve's scheme for an Indian Univ for women with headquarters at Poona proposes to organize there and, through affiliated institutions, elsewhere, instruction through the Indian vernacular languages adapted to the special needs of women It is on entirely independent lines, and seeks no recognition or aid from Govt

NUMBER OF STUDENTS in March 1922 in the 231 Arts and Professional Colleges was 59,595, including 1529 women

RESIDENCE. One of the recommendations of the Commission of 1902 was that much closer attention should be given to the conditions under which students live and work, and very large sums have since been spent in providing hostels and otherwise improving the conditions of student life. In 1921-22 some 20,466 students (including 955 women) of Arts and Professional Colleges were accommodated in hostels or boarding-houses.

CONFERENCES In April 1920 a Committee was formed for drafting an outline of the functions and constitution of an Assocn of Indian Univs. The project was further advanced at the Congress of Universities of the British Empire at Oxford in July 1921, but has not yet been realized. The Central Advisory Board of Education considers questions with regard to the equivalence of degrees and the standardization of examinations.

INDIAN STUDENTS AT THE HOME UNIVERSITIES In view of the difficulties which have been experienced by Indian students coming to the United Kingdom, an organization has been established by Government for their assistance. This organization is under the control of the High Commissioner for India, and consists of an Indian Students' Department at 42 Grosvenor Gardens, S W 1, in charge of two Joint Secretaries to the High Commissioner for Indian Students' work, N C Sen, O B E, and Thomas Quayle, D Lit, M A, assisted by R M J Knaster, B A, and V I Gaster, B A. There is also under the control of the Department a hostel at 21 Cromwell Rd, S Kensington, S W 7, which serves as a centre and meeting-place for Indian students in London and for a temporary residence for new arrivals. (Fuller information can be obtained from the Warden, or from the Advisory Committees in India.) There are Local Advisers to Indian Students at Manchester, Edinburgh, and Glasgow, and eleven Advisory Committees in India (Allahabad—Sec, P N Sapru, M A, LL B, Barr-at-Law, The University, Ajmere—Sec, L T Watkins, Rajputana, Bombay—Sec, Prof F M Dastur, M A, Univ Buildings, Calcutta—Sec, Prof J C Coyajee, B A, LL B, 7 College Sq, Dacca—Sec, Prof. B N Das, M A, B Sc, Delhi—Sec, S N Mukarji, St Stephen's College, Gauhati—Sec, J Barooah, Barr-at-Law, Lahore—Sec, Kunwar Dahn Singh, B A, Barr-at-Law, Madras—Sec, A Davies, M A, Barr-at-Law, Principal, Law College, Nagpur—Sec, S R Pandit, M A, LL B, Barr-at-Law, and Patna—S N Sahay, B Sc, B A, Barr-at-Law).

The Indian Students' Department at 42 Grosvenor Gardens comprises a bureau for the supply of information on educational matters, and the Jt Secs act as guardians to Indian students when requested by the parents in India. A *Handbook of Information on the Educational Facilities of the United Kingdom* was published by the Department in Dec 1922, and a new edition is in course of preparation. An annual report on its work is also published, copies of which can be obtained from the office of the High Commissioner or through any of the Agents for the sale of Govt of India Publications.

The posts of Local Adviser to Indian students in Oxford and Cambridge were abolished in 1916, and were replaced by a Secretary to the

Delegacy for Oriental Students at Oxford, and a Secretary to the Inter-Collegiate Indian Students Committee at Cambridge These gentlemen are Univ officers, and are in no way under the control of the High Commissioner for India.

Lord Lytton's Committee on Indian Students published their report in 1922 (H M Stationery Office, pp 518 , price 5s)

GENERAL INFORMATION (v. also p. 474)

The Mahomedan Anglo-Oriental College, founded in 1875, became, under the Aligarh Muslim University Act of 1920, a unitary residential University, with Univ School and Intermediate College attached as separate institutions. The Univ receives Rs 1,00,000 annually from the Govt of India, Rs 50,000 from the Local Govt, Rs 36,000 from the Nizam of Hyderabad, and contributions from other Indian States. Although the governing body is composed of Mahomedans, and special attention is paid to Muslim Theology, it is open to all, without distinction of sex, race, creed, or class. In the grounds, comprising several square miles, are halls and hostels sufficient for the accommodation of all the students and some of the staff. LIBRARY, 21,000 vols. LABORATORIES Physics and Chem

The INTERMEDIATE COLLEGE prepares for the High School and Intermediate Exams, the latter being the admission examn for the Univ. The Muslim Univ SCHOOL is a feeder to the Intermediate College and a practising school for the TRAINING COLLEGE.

COURSES For students who have passed the Intermediate examn of an Indian Univ. two-year courses for the B A or B Sc. Courses leading to M A, M Sc, and LL B degrees are also provided. **FEES** for Tuition, Rs 8 to Rs. 15 p m, Board and Residence about Rs 20 p m.

ASSOCIATED INSTITUTIONS The Dacca (Govt) Training College The Principal and teachers are honorary teachers of the Univ and the College students read for the LT and BT in accordance with regns prescribed on that behalf

GENERAL INFORMATION (v. also p. 474)

This Univ was established in 1921 under an Act passed in 1920 which provides for the constitution of Faculties of Arts, Science, Law, Agriculture, and Medicine. It is constituted in its main lines in accordance with the recommendations of a Committee presided over by Mr (now Sir Robert) Nathan in 1912 and by the Calcutta Univ Commission of 1917-19, presided over by Sir Michael Sadler. The Report of this Commission states that "two main factors may be clearly distinguished in the origination of the Scheme: first and foremost the desire of the Musalmans of Eastern Bengal to stimulate the educational progress of their community, and, secondly, the desire of the Govt of India to create a new type of residential and teaching Univ in India, as opposed to the present affiliating type. To these must be added a third factor of especial importance, the desire of the Govt to relieve the congestion of the Univ of Calcutta"*. Although special attention will be devoted to Islamic Studies and to the needs of the Musalman community, the Univ will be open to all, without distinction of sex, race, creed, or class. It is a unitary and residential Univ, of which the constitution resembles in many respects that of the modern English universities. The Authorities of the Univ include a Court, an Executive Council, an Academic Council, and Faculties, and the Teaching Staff has the main responsibility for all matters connected with teaching and exams. The students (other than those living under specially approved conditions) reside in the Halls and Hostels situated in the Univ domain, and the Univ teachers also reside in the houses erected for them thereon. The domain consists of about a square mile of fine park

* Chapter xxxiii. of the *Report* deals in great detail with the scheme for the Dacca Univ.

land, including over 100 acres of playing fields. It is adjacent to the Civil Station of Dacca and to a park called the Ramna, and lies from 1 to 1½ miles north-west from the centre of Dacca City. It is provided with electric light and power.

The chief existing buildings for teaching and administrative purposes include a Senate House with residential block, central buildings, containing about 200 rooms, which cover 117,000 feet of floor space used for Class-rooms and Library (at present utilized partly as a hostel for Muslim students), Chemical and Physical Laboratories, each including about 12,000 sq feet of floor space, and now being enlarged, the Curzon Hall (which accommodates about 2000 persons); the Dacca Hall buildings, with residential accommodation for 160 students, the Jagannath Hall buildings, providing for 200 students.

LIBRARY, 39,000 vols. **LABORATORIES** Physical, with metal and wood workshops, Chemical, with special arrangements for training in commercial analytic methods.

GENERAL INFORMATION (v. also p. 474)

This Univ, founded in 1857, has hitherto been mainly an examining body, but has, since 1912, maintained a small teaching staff and organized special lectures by persons eminent in Arts and Science in Europe and India, and in 1923 an Act was passed for reorganizing it as a Teaching and Residential Univ., while enabling it to continue to exercise control over the quality of the teaching given by its constituent and affiliated colleges. The Vice-Chancellor is a whole-time salaried officer. The authorities of the Univ include a Senate, Syndicate, Academic Council, Faculties, and Boards of Studies, and a Council of Affiliated Colleges.

From the Govt of India the Univ receives an annual grant of Rs 65,000, and has received, in addition, non-recurring grants amounting during the years 1913 to 1923 to Rs 7,00,000. During the same period endowments amounting to Rs 91,000 were received.

GENERAL INFORMATION (v. also p. 474)

Established in 1882, the University confined its activities, until recently, mainly to examinations, the control of affiliated institutions, and the provision of instruction in its Oriental and Law Colleges. It has since 1919 undertaken the maintenance of Professors and Readers and co-ordination of higher teaching in other subjects. Honours Schools in Arabic, Sanskrit, Botany, Zoology, and Maths, and post-graduation teaching in Economics have been instituted in Lahore; and senior teachers in the local colleges, partially relieved of routine work, have supplemented the teaching of Univ. Profs. and Readers. To stimulate and guide advanced students a number of distinguished *savants* were induced to visit the Univ. and teach in it for periods of from 6 months to a year.

GENERAL INFORMATION (v. also p. 474)

This Univ, founded in Dec 1920, is governed by a widely representative Council consisting of not more than 50 members, which exercises its functions by means of an Executive Committee of 10 members. The Council has the power to reject any act or resolution of the Senate (the academic body of the Univ) in excess of its powers under the Univ of Rangoon Act, 1920, and to confirm or reject any resolution presented by it affecting the income or expenditure of the Univ or of a Constituent College. The Senate consists of the Vice-Chancellor, the Director of Public Instruction, Burma, the Principals of Constituent Colleges, the Professors, 3 members of the Council, and not less than 10 lecturers in constituent colleges. Its executive duties are discharged by a Standing Committee.

An estate of about 450 acres of high and healthy ground, adjoining the Victoria Lakes on the outskirts of Rangoon, has been acquired for the Univ buildings, which will lie along the margin of the Lakes. Both Constituent Colleges and the Halls of Residence attached to them will be accommodated on the estate, where Univ. teachers will be housed and provision made for

playing-fields, and ample room will still be left for other professional and technical colleges.

GENERAL INFORMATION

The College of Medicine for Chinese, founded in 1887 for the training of Chinese students in Western Medicine, was incorporated under the name of the Hong-Kong College of Medicine in 1907. It had no building of its own, and its teaching was conducted by permission in various hospitals and other institutions. Between 1907 and 1910 an Endowment and Equipment Fund of \$1,280,000 was raised for a University to include Engineering and Arts as well as Medicine. The cost of the buildings and preparation of the site—\$345,000—was borne by Sir H. N. Mody, the originator of the Fund. Other contributors were the Govt. of China, the Hong-Kong Govt., Swire & Sons, and other firms and Chinese residents of Hong-Kong, Canton, and other places. The Univ. was incorporated in 1911 and formally opened in 1912, when it took over the work of the College of Medicine. The buildings, including class-room accommodation for 500 students, three hostels, laboratories, etc., together with playing-fields, occupy an area of 25 acres. In 1919 were opened the Schools of Physiology, Tropical Medicine, and Pathology presented by three Chinese gentlemen. "The root idea of the Univ. is to provide a place for Higher Education where Chinese youths can remain under the influence of their own parents and guardians. . . subject to the strong control which Chinese opinion exerts upon young men, instead of being adrift in a foreign country where a liberty unknown to students in the East is allowed to undergraduates" (*Calendar*, 1919-20).

The Court is composed of life, *ex-officio*, and nominated members; the Council of 14-16, including the Chancellor, V. C., Colonial Secy., Univ. Treasr., Deans, Regr., Col. Treasr., Dir. of Educn., 2 Chinese members of Leg. Council, Secy. for Chinese Affairs, Chief Manager in H.K. of H.K. and S.B. Corpn., and a representative of the H.K. Ch. of Commerce. The Senate consists of the V.C., Dir. of Ed., Dean of and 1 other representative elected by each Faculty, Regr., and representatives of the H.K. Coll. of Med.

MUSEUM of Pathology and Trop. Med. LABORATORIES Anat., Bact., Biol., Chem., Histol., Path., Physics, Physiol., Trop. Med.; Applied Mechanics, Materials, Elec. Tech., Power House, Hydraulics, Steam, Elec. Machinery, Elec. Traction, Engin. and Carpentering workshops. HOSPLS. in the vicinity available for clinics, 400 beds; Govt. REGULAR COMMISSIONS IN H.M. FORCES FOR UNIVERSITY CANDIDATES

Provisional Regulations (Army Orders for March 1920 amended in 1921 and 1922) provide for Commissions being granted in the Cavalry, R A, R E, Royal Corps of Signals, Infantry, Royal Tank Corps, and R A S C, and in the Indian Army. The following Univs, having established approved courses, are empowered to nominate candidates: (a) Oxford, (b) Cambridge, (c) London, (d) Edinburgh and Manchester, (e) McGill and Sydney. The grant of Commissions in the Indian Army is limited to candidates from Univs in the U K. Commissions of accepted candidates will be antedated approximately 1 yr., i.e. to such dates as will give those appointed to the R A. seniority over the Royal Military Academy cadets, and those appointed to other branches seniority over the Royal Military College cadets, who passed out of those institutions in July or Dec (as the case may be) of the previous year. In exceptional cases a candidate who has graduated with First-Class Honours may be granted an additional antedate not exceeding 6 months. The commissions of accepted candidates for the R A S C who have taken a course in Engineering (other than Mining and Metallurgy) will be antedated approximately 18 mos., an additional antedate, not exceeding 6 mos, being allowed in exceptional cases for First-Class Honours, this arrangement will be reconsidered in Jan. 1924. Commissions of accepted candidates for the R E will be antedated, approximately, either 18 months or 1 year, according to the degree held. These antedates will not count for the issue of pay or allowances, but in all cases in which increase of pay is dependent on the completion of a fixed period of service, service towards increase of pay will be considered as commencing from the date to which the commission has been antedated. The additional antedate for First-Class Honours will count for retired pay, but the ordinary antedate of about 1 yr will not so count, and no portion of the antedate will count for Indian pension.

The Army Orders mentioned give full details of the requisite qualifications—general, academic, military, and physical. The age-limits are 21 to 25 (Indian Army 21 to 24) on Jan. 15 and July 15 for winter and summer nominations respectively; special limit of 27 for candidates who were serving on Jan. 1, 1920, or had served prior to that date satisfactorily in R N., R.M., Reg. Army, S R, I A R O, Militia, T F., Overseas Dominions' Forces, or R.A.F., provided they entered Univ. within 6 mos of demobilization. Candidates must be unmarried and British subjects.

Permanent Commissions in the Royal Air Force The Air Ministry has provided on lines somewhat similar to Army Regulations for the

nomination of candidates for permanent commissions in the Royal Air Force, who are prepared to undertake flying, technical and administrative duties in the General Duties Branch. Officers of this branch undertake all the combatant duties of the R A F, and are all required to be competent pilots. The maximum age is 25 on June 1 of the year of recommendation by the Univ. Candidates must have graduated. Graduates of any recognized Univ. of the British Empire are eligible for consideration. No special course of study is required, but preference is given to those who have read for a degree in general or aeronautical engineering, natural science, or mathematics. Selected candidates will normally be attached during the long vacation to a Flying Unit for a period of 6 weeks on probation.

Further information as to the entry and conditions of service in the R A F is given in Air Publication 904, obtainable through any bookseller or from H M Stationery Office, or Air Ministry, Kingsway, London, W C 2.

Medical Officers. Permanent commissions are given to officers selected from those holding short service commission in the R A F. A short service commission is for 2 years (which may be extended to 4 with the approval of the Air Council). The age limit is 28. Full particulars are contained in Air Publication 953.

Arrangements have been made between the Board of Education and the Institute for the award of national certificates in chemistry to students in technical schools and colleges in England and Wales (Rules 100, 1921, 2d). Under this scheme the Institute in conjunction with the Board approves schemes of training submitted by the technical schools or colleges, for the award of certificates for part-time and full-time grouped courses, including in addition to chemistry suitable courses in physics, mathematics, and cognate subjects. Courses for Part-time Course certs are designated *Senior* for the Ordinary and *Advanced* for the Higher certif. Courses for Full-time Course certs are suitable for students who have attended a Secondary School up to the age of 16 yrs, and extend over at least 3 yrs for the certif in Chem., and at least 1 yr for the certif in Applied Chem. They include physics, maths., and one or more modern languages,

and may include other cognate subjects. Certifs. are awarded in Chem. and in Applied Chem. Admission to the course in Applied Chem. is restricted to students who have satisfactorily completed a full-time course in chemistry, or other course approved by the Inst. and by the Board

The Council of the Inst. will consider at a later date whether and how far the training and the Higher certifs. should be recognized as qualifying for admission to the examn. for its Associateship

Similar arrangements for the award of Part-time Course National Certificates have been concluded with the Scottish Education Department

THE BAR IN ENGLAND AND WALES

THE right to practise as a Barrister in the Law Courts of England and Wales is restricted to those who have been called to the Bar by one of the Inns of Court—Lincoln's Inn, Middle Temple, Inner Temple, and Gray's Inn. The consolidated Regulations of these Societies (obtainable from the *Council of Legal Education*, 15 Old Square, Lincoln's Inn, London, W C 2) provide, *inter alia*, as follows:

Admission of Students The conditions include (i) having passed any examn held by any Univ in the British Dominions, approved by the Council of Legal Educn, which entitles to a degree or, provided that one of the subjects in which the Student has passed is Latin, one of certain other examinations approved by the Council of Legal Education, (ii) satisfactory evidence of good character, (iii) declaration that the candidate will not "directly or indirectly apply for or take out any certificate to practise, directly or indirectly, as a Pleader or Conveyancer or Draftsman in Equity, without the special permission of the Masters of the Bench," and is not and does not "directly or indirectly act in the capacity of a Solicitor, Attorney-at-Law, Professional Accountant, Actuary, Land-Agent, Surveyor . . ." or "in any capacity similar to any of those otherwise than as. . ." The Schedule of approved Prelim examns includes those numbered in the list on p 593, as 1, 2, 3, 5, 6, 8 (a) (b), 9 or 10 (subject to provisos), 18 (according to standard applicable to students whose native language is English), 20, 21. The Council may add others, and the Masters of the Bench of the Inn of Court concerned may, in special cases, relax or dispense with this requirement.

Keeping Terms This is done by eating dinners 6 days in each of 12 terms (members of Univs of the U K 3 days). There are 4 terms in each year.

Education and Examination Systematic instruction is provided under the supervision and direction of the Council of Legal Education in Roman, International, Constitutional, and English Law, Jurisprudence, Legal History, and Equity. Reading in the chambers of a Barrister or Pleader for the purpose of studying the practice of Law is recommended, but not compulsory. Four examns for Call to the Bar are held each year. Candidates must satisfy the examiners in each of the sections. (1) Roman Law, (2) Constitutional Law (English and Colonial) and Legal History, (3) Criminal Law, (4) Real Property and Conveyancing or Hindu and Mohammedan Law or Roman-Dutch Law, (5) Common Law, (6) Equity, (7) Law of Evidence and Civil Procedure, (8) General Paper on 5, 6, and 7. A student who has passed an examination in Roman Law, forming part of a qualifying examination for a Univ degree, may be excused the examination in Section 1. Sections 1 to 4 (constituting Part I.) may be taken separately (fee, $\frac{1}{2}$ g each);

5 to 8 (the Final examination) must be taken together (fee, 2 gs.) after having passed 1 to 4 and, ordinarily, after having kept at least 6 terms.

The successful students are classified and the names of those in Classes I and II. of the Final Examination Pass List are arranged in order of merit. A Certificate of Honour is granted to those in Class I. at the Final examination. Prizes of £50 each may be awarded for the best students (not over 25 yrs of age) in Sections (2) and (3), and a Studentship of 100 gs p a tenable for 3 yrs to the best student (not over 25 yrs of age) at the Final examination. The Inn to which a student who has obtained a Studentship or Certificate of Honour belongs may, if desired, dispense with any Terms, not exceeding 2, that may remain to be kept by him.

Calls to the Bar Minimum age, 21. In special circumstances the Masters of the Bench may dispense with the keeping of not more than 2 of the 12 terms ordinarily required to be kept by a student before he is called, and special concessions in regard to the keeping of terms or examinations, etc., are allowed to Scottish Advocates, Irish Barristers, members of the Bar of New South Wales, Ceylon, the Cape Province of South Africa, New Zealand, Vakils of High Courts in India, certain Civil Servants exercising judicial functions abroad, and to persons who, prior to admission as students, have practised as Solicitors for 5 yrs. subsequent to admission as a solicitor in *England* (including interruptions caused by war service).

Fees On admission application, 1 g , stamp duty, £25 , lecture fee, 12 gs , admission fees, £20 or £21. On Call stamp duty, £50 , composition for annual dues, £12 , call fees, £38 (Gray's), £40 (Lincoln's) £50 (Middle or Inner)

SOLICITORS IN ENGLAND AND WALES

Examinations are held by the LAW SOCIETY, Chancery Lane, London, WC 2. All persons, except some Colonial Solicitors, are subject to Final examination at conclusion of service under Articles before they can be admitted as Solicitors. Subjects of Foreign States cannot be admitted. English Barristers of 5 yrs' standing are not required to enter into Articles, but may be admitted after passing the Final examn. Before entering into Articles of Clerkship (under the Solrs Act, 1877) with a view to admission as Solicitors it is necessary, except for persons exempted, to pass a *Preliminary examn* (fee, £4) held in London and several provincial towns in Feb, July, and Oct, in English, Elem Maths, Geog of Europe, and Hist of England, Latin, and one or (if Algebra and Elem. Geom are not taken) two of the following—Latin translation, Greek, French, German, Spanish, Italian. Exemption is allowed to graduates in Arts or Laws and persons who have passed matricn or other corresponding examns (or examns accepted as exempting therefrom) of any Univ of the U.K., to Utter Barristers in England, and to persons who have passed the examns.

numbered in list on p 593 as 1a, 2, 3, 4a, 8 (a), 9, 9a, 10, 10a, 16 (First-Class or Senior certif), also *provided* the candidate passed in Latin, and all the prescribed subjects were taken at one time, and the regus, character, and standard of the examn remains as in July 1920, the following 1, 1b, 5, 6, 7 (Certif A), 8 (b), 13, 14, 24 The list of exemptions is now (Jan 1924) being revised

Service under Articles (stamp duty, £80) is normally for 5 yrs This may be reduced (1) to 3 yrs for graduates in Arts or Laws or Science of any Univ of the U K, English Barrister of less than 5 yrs' standing, or for members of the Faculty of Advocates, Writers to the Signet and Solrs in the Supreme Courts of Scotland, or Procurators before any of the Sheriff Courts of Scotland, (2) to 4 yrs for persons who have (a) passed examns Nos (v list on p 593) 1, 1a, 1b, 2, 3 (1st Division), 4a, 6 (1st Division), 13 (with Hons), 24, if the conditions of the last-mentioned proviso were fulfilled, or (b) before entering into Articles attended for 1 yr the approved curriculum of study at the Law Society and passed a satisfactory examn therein, or (c) before entering into Articles passed examn No 6 (Latin being taken), and subsequently attended, to the satisfaction of the Univ, the curriculum for the Interim LL B of Leeds, Liverpool, or Sheffield, and passed Interim LL B examn.

An *Intermediate* examn (fee, £6), which may be taken after completing 12 months' service, is held in March, June, and Nov. Exemption from the Legal portion (but not from the Trust Accounts and Book-keeping portion) is given to those who (1) before or after entering into Articles have passed the examn for the B C L or LL B at any of the Univs of England (except Bristol) and Wales or at the Univ of Dublin, or (2) before entering into Articles have taken Honours in the Final Honour School of Jurispr at Oxford or in the Law Tripos at Cambridge. Exemption from the whole of this examn in consideration of circumstances connected with the war is obtainable under certain conditions (v. sec 2 of Solrs. Act, 1918).

The *Final* examn (fee, 10 gs) is held in March, June, and Nov. Prints of the Questions set at this and at the Interim are obtainable from the Law Society.

THE SOLICITORS ACT, 1922. Section 2 provides that a person articulated to a solicitor after Dec 31, 1922, shall not be admitted to the Final Examn unless he satisfies the Law Society that he has, during a period of one year, complied with the requirements of the Society as to attendance at a Law School provided or approved by the Society. This does not apply to any person who (1) has taken a degree at any Univ in the U K, after passing a Final Examn in law at such Univ., or (2) applies to be admitted to the Law Society's Final Examn after satisfying the requirements of Sect 4 of the Solrs Act, 1860 Any person may be wholly or partially exempted from attendance at a Law School if he can satisfy the Law Society that such attendance is for geographical or other reasons impracticable

Provided and Approved Schools The Society's Law School in London, the Univs of Birmingham (in conjunction with the Birmingham Board of Legal Studies), Bristol, Cambridge, Durham (Armstrong

College), Leeds, Liverpool (in conjunction with the Liverpool Board of Legal Studies), London, Manchester, Oxford, Sheffield, Wales (Univ Colleges, Aberystwyth, Bangor, Cardiff, Swansea), Univ College, Exeter, Univ College, Southampton [*Note* —At the present time (Dec 1923) the Council of the Law Society have under consideration the approval of additional Schools]

B. REGISTRATION OF MEDICAL STUDENTS

The Regulations (including the modifications which came into force on Jan 1, 1923), obtainable from the Registrar, 44 Hallam St, London, W 1, post free 1s, prescribe Registration of Medical Students within 15 days of the commencement of their professional studies.

For this purpose they should apply in the prescribed form, obtainable from any of the Registrars (v. *supra*), submitting evidence of having— (a) attained the age of 17, (b) passed a Preliminary examn in General Education recognized by the Council, (c) passed also an examn in *Elementary Physics* and *Elementary Chemistry* conducted or recognized by one of the Licensing Bodies, (d) commenced Medical study at an approved Univ or Medical School

As regards (b) the Council recognizes no examn which is of standard lower than that of Univ Matricn examns in the faculties of Arts and Pure Science, and requires that the examn certificate shall bear evidence that the candidate has passed in English, Elem Maths, a language other than English, and an additional subject or subjects as required by the regulations of the particular examn, to be chosen from the subjoined list, viz Hist, Geog, Physical Sc, Nat Sc, Latin, Greek, Hebrew, French, German, or other language accepted by the Univ for the purpose. Applicants from one of the recognized Colonial Univs must produce evidence that they have passed the complete Matricn examn for the faculty of Arts or of Science (Pure) of the Univ or College from which they come, or an examn accepted as equivalent thereto, and that the examn passed is accepted by one of the Univs of Great Britain or Ireland for similar purposes. Applicants from one of the recognized Indian Univs must produce evidence that they have passed the Matricn examn of the Univ from which they come, or an examn recognized as equivalent thereto, and, in addition, the Preliminary Scientific or Intermediate examn in Arts or Science of their own Univ. Applicants from Foreign Univs should submit their credentials to the Registrar

As regards (c), this requirement is not dispensed with in cases where *Physics* and *Chemistry* of a Matricn standard formed part of the (b) examn, but in the case of an applicant from one of the recognized Colonial Univs or Colleges, the Council will accept a certificate that an examn in Physics and Chem (and, in addition, *Biology*, v *infra*) equivalent in standard to the First Professional examn in these subjects has been passed by the student. Similarly, in the case of an applicant from one of the recognized Indian Univs the Preliminary Scientific or Intermediate examn in Arts or Science of his own Univ will suffice if these subjects are included in his Pass certificate

As regards (d), institutions in which Medical Study may be commenced include all the Univs. and other Bodies throughout the Empire of which the *qualifications* (v *supra*) have been recognized as entitling to registration in the U K

A student who has diligently attended an approved course of instruction in *Elementary Biology* at a Secondary school or other teaching institution recognized by a Licensing Body may be admitted to the Professional examn in this subject immediately after his registration as a student

C. DENTAL QUALIFICATIONS

Under the Dentists Act 1921 no person who is unregistered may practise dentistry without rendering himself hable to prosecution.

A new body named the Dental Board of the United Kingdom has been constituted which is charged with the duty of dental registration. The address of the Registrar is 44 Hallam St, London, W 1

D. REGISTRATION OF DENTAL STUDENTS

I Registration is carried on at the Council Office in London in the same manner as that of Med students, and is subject to the same regns as regards age and Prelim examns, but professional study may commence by pupilage with a Registered Dental Practitioner

II. Candidates for a Diploma in Dental Surgery should produce certificates of having been engaged in professional studies for at least 4 years, including 3 years at least at a school or schools recognized for professional study by one of the Licensing Bodies, and of having received for not less than 24 calendar months, or for 2000 hours, practical instruction in Dental Mechanics

III Two years' *bona-fide* apprenticeship with a Registered Dental Practitioner, after being registered as a Dental student, may be counted as 1 of the 4 yrs of professional study

IV The necessary instruction in Mechanical Dentistry, or any part of it, may be taken by the Dental student either before or after his registration as a student When he can show evidence of regular pupilage in Mech Dentistry to a Registered Practitioner, prior to passing the prescribed Preliminary and Scientific examns, he may be allowed to antedate for a period not exceeding 1 yr prior to the passing of these examns

V It is recommended that instruction in Dental Mechanics be taken at a recognised Dental Hospital and School If any part of such instruction be taken by the candidate as a pupil with a Registered Dental Practitioner, the time required to be devoted to it will be at least twice the time required for the corresponding instruction taken at a Dental School

Schools at which Dental Study may be commenced. Birmingham D. Hospl, Bristol, Royal Infirmary, Genl Hospl, Dublin, D Hospl of Ireland; Dundee D. E. RECIPROCAL RECOGNITION

The States, Presidencies, and Provinces in which the registrable medical qualifications specified under A (b), (c), are granted all allow practitioners with qualifications registered in the U K to register without further examn There are also other Colonies, *e g* Tasmania, which recognize British qualifications, but in which at present no qualifications are granted.

[A Report (5th edition pubd in Jan 1921) as to the conditions under which Med. and Dent practitioners registered or legally qualified in their own country may practise abroad is obtainable from the Council Office, price 2s 6d. (post free U K 2s 10d., elsewhere in the Empire 3s. 1d., outside 3s. 4d) It contains, among other matters, the designa-

tions and addresses of the persons to whom application should be made for forms and further information]

F. POST-GRADUATE MEDICAL STUDIES

In London, in addition to the General Hospital Medical Schools which provide to a limited extent for qualified practitioners, there are the West London Post-graduate College at the West London Hospital, Hammersmith, with a staff of 37 regular lectrs and demrs, the North-East London Post-Graduate College at the Prince of Wales' Hospital, Tottenham, and the London School of Clinical Medicine at the Seamen's Hospital, Greenwich, as well as certain special hospitals where excellent arrangements are made for post-graduate work in particular subjects. The Fellowship of Medicine (1 Wimpole St, London, W 1) formed in 1918, promotes and advertises the provision of facilities for post-graduate work and assists in the cultivation of mutual hospitality between the medical profession at home and their medical brethren overseas. In co-operation with 40 London general and special hospitals, post-graduate courses in all the special departments of medical science are arranged, as well as short intensive courses at regular intervals during the year.

Post-graduate courses are also provided by other Univs, notably Edinburgh and Glasgow.

ROYAL COLLEGE OF PHYSICIANS OF LONDON AND ROYAL COLLEGE OF SURGEONS OF ENGLAND

Address of the Secy., Conjoint Examining Board in England, 8-11 Queen Sq, Bloomsbury, London, WC 1. Applications for admission to the Board's examns should reach the Secy at least 14 days (in the case of the L D S Professional examns, 21 days) beforehand. Agency for the sale of Books of Questions set in past years (9d each)—Taylor & Francis, Red Lion Court, Fleet St, London, E C 4.

Examinations for the Diplomas of LICENCE OF THE R C P of London and MEMBER OF THE R C S of England are held ordinarily in Jan, April, July, and Sept or Oct. Candidates must have passed a Prelim. examn in general education recognized by the Board, and must have passed before commencing the 5-years curriculum of professional study, *a Pre-Medical examn in Chemistry and Physics* conducted or recognized by the Board. Before admission to the Professional examns (known as the *First* and *Final*) they are required to produce certificates of having pursued the prescribed courses of study and practice. The *First* Professional examn (fee, 10 gs) comprises Section I, (a) Anatomy, including Histology and Embryology, (b) Physiology, including Bio-Chemistry, Section II, Pharmacology, Practical Pharmacy, and Materia Medica. A candidate who has passed an examn in the subjects of Section I. or of either part of Section I. and of Section II.

in the examn for the degree in Medicine conducted at a Univ recognized by the Board will be exempted from further examn in such subject or subjects. The subjects of the *Final* Professional Examn are Section I (fee, 4 gs.), (a) Pathology, including Morbid Anatomy, Morbid Histology, and Clinical Path, (b) Bacteriology, Section II—Part I (fee, 10 gs.), Medicine, including Med Anatomy, Forensic Med, and Public Health, Part II (fee, 10 gs.), Surgery, including Surg Anatomy and the use of Surg Apphances, Part III (fee, 6 gs.), Midwifery and Gynæcology. A candidate who has passed an examn for a degree in medicine in the subjects of Pathology and Bacteriology at a Univ recognized by the Board is exempted from Section I.

Students of recognized Univs in England, Scotland, and Ireland, who have passed examns for a degree in Medicine at their Univs in the subjects of the First Professional Examn, may enter for the Final at the expiration of two years from the date of passing in Anatomy and Physiology on production of the required certificates.

Members of certain recognized Indian, Colonial, and Foreign Univs, who have passed examns for the Degree of Doctor or Bachelor of Medicine or Surgery in the subjects of the First Professional Examn, may present themselves for the Final under special conditions. A holder of the diploma of the National Board of Examiners of the U S A can enter for the Final on producing the required certificates of 5 years' study from one of the Univs recognized by the Conjoint Board. The Board also grants Diplomas in Public Health, in Psychological Medicine, in Ophthalmic Medicine and Surgery, and in Tropical Medicine and Hygiene. Candidates must hold a Medical qualification registrable in the U K, or be Graduates in Medicine of a recognized Indian, a Colonial, or a Foreign Univ.

The regulations affecting candidates who were registered as medical students before Jan 1, 1924, are given in the last and previous editions of this *Yearbook*.

For admission to the MEMBERSHIP OF THE R C P (fee, 40 gs., *less* Licence fee, if any, already paid) the minimum age is 25, and a candidate must satisfy the Censors' Board as to his moral character and conduct and pass an examn of such nature and extent as may be determined by the Board. If under the age of 40, he must prove a knowledge of Latin, and of either Greek, French, or German, in addition to proving his professional acquirements. If he has not passed the examns required for the Licence, he must be a registered practitioner who *either* has obtained the degree of Doctor or Bachelor of Medicine at a Univ in the Empire or a foreign qualification entitling him to practise Medicine or Surgery in the country where it was conferred, after undergoing courses and examns which the Censors' Board consider sufficient, *or* has attained the age of 40, and can produce testimonials sufficient to satisfy the Board, and subsequently the Fellows, at a General Meeting, that he ought to be admitted to examn.

The FELLOWSHIP of the R.C.P. is conferred by election on a member of the College of not less than 4 yrs' standing.

Examns for the FELLOWSHIP OF THE R C S are held twice yearly—the 1st Prof in June and Dec, and the 2nd Prof in May and Nov.

TEACHERS REGISTRATION COUNCIL

Constituted by Order in Council, 1912 *Address*—47 Bedford Sq., W C 1

Conditions of Registration (fee, £2) (a) a degree or other qualification approved by the Council, if obtained in respect of a technological subject the applicant must have spent 36 months, after attaining the age of 16, in the practice of the profession or industry in question, and of this period 12 mos must have been concurrent with or subsequent to the course for the degree (or other qualification), (b) successful completion of a course, extending over at least 1 academic year or its equivalent, of training in the principles and methods of teaching, carried on under conditions approved by the Council and accompanied by practice under supervision, (c) experience as a teacher in educational institns accepted for the purpose by the Council for a period varying according to circumstances, but in no case less than 3 academic years

Condition (b) is waived in the case of a teacher who has had not less than 3 academic yrs' experience as Recognized Teacher in Univs and institns of Univ rank approved by the Council for this purpose Condition (b) may be modified in other cases where the Council is satisfied that facilities for the prescribed training do not exist.

EDUCATION AND TRAINING FOR TEACHING
IN ENGLAND AND WALES

The Board of Education have recently consolidated their Regulations on this subject, and introduced several changes designed to promote the unity of the teaching profession and to remove barriers which have existed between its different branches, while giving ample scope for freedom and variety, which they regard as essential in the training of teachers, and encouraging Training Colleges to plan their schemes of training on different lines so as to provide for the requirements of the various kinds of school included in the national system of education.

Courses of Training qualifying for the Board's Certificate for Teachers in *Elementary Schools* are provided in independent Training Colleges and also in the Training Departments which form part of the work of all the Univs (Wales—the Constituent Colleges, except Swansea; Durham—Armstrong College), both for men and (except Cambridge) for women, and also in the Univ Colleges, Nottingham, Reading, and Southampton

The Board recognizes for grants in respect of courses preparatory to teaching in *Secondary Schools* (i.) Departments of all the Univs except Sheffield, (ii.) Reading Univ College, (iii.) 7 other Colleges Cambridge provides for men only, Leeds and Reading for women only

Candidates for admission as *Recognized students* must, unless this condition is specially waived by the Board in any case, be British subjects ordinarily resident in the U K, they must, as a rule, be over 18, and must at least be over 17 on the first day of the academic year for which they are admitted, must give satisfactory evidence of health, character, and suitability for the profession, and must have passed the Preliminary examination for the Elementary School Teachers' certificate or one of the exams in the list on p 593, numbered 7, 8 (b), 9, 10, 11, 12, 13, 14, or some other exam as to which the Board are, in particular cases, satisfied that it is equivalent to these in range and standard, they must sign a declaration of intention to follow the profession of teacher in an Approved School. A married woman is not admissible without the special sanction of the Board

Candidates who satisfy the above requirements as to age, attainments, and character may be admitted as *Private students* without giving the prescribed Undertaking but no grants will be payable on their account except in certain special cases, and the fees chargeable to them will be correspondingly higher

The principal *types of courses* approved are (i) 4-year, including 3 yrs of study for a Univ degree followed by a year of professional training, (ii) 2-year, including a period of prof training taken concurrently with a period of academic study, (iii) 3-year, providing a year of further training for selected students who have completed (ii), (iv) 1-year—(a) prof training for graduates or other advanced students, or (b) a year of partly prof and partly academic study for Certificated Teachers. The foregoing give a suitable training for teaching in Public *Elementary Schools*. Other types are (v) in preparation, extending over not less than a full academic year, for teaching in *Secondary Schools*, (vi) professional instruction, extending, as a rule, over not less than a full academic year, for teaching in *Continuation Schools*, (vii) in preparation for teaching *Domestic Subjects*

As regards (i), a student may be admitted to the 2nd, 3rd, or 4th yr. if he has completed 1 yr, 2 yrs, or the whole of the course for a Degree before entering the Training Dept and is over 18, 19, or 20 as the case may be. A student who has pursued a course of type (i) will not as a rule be certificated as a Teacher unless he has passed a Final examn for a Degree, but the Board may regard as qualified one who has failed to pass if he is specially recommended by the Univ Authorities, or he may be recognized as a temporarily Certificated Teacher and subsequently qualify for permanent recognition

(ii) Suitable Univ. examns forming recognized stages in courses for degrees may, subject to certain conditions, be approved for individual students in lieu of the Board's Final examn. Concessions similar to those above mentioned may be made to students who fail in a Final examn for a degree

(iii) may include preparation for a Final examn for a Univ. degree,

provided an advanced course in the Principles of Teaching is included in it or taken separately, and certain other conditions are fulfilled

For (iv) any candidate who has not already served as a Certificated Teacher for 4 yrs must be over 19 and have passed the Final examn for a Univ degree, or the examn for the Diploma of Assoc in Letters or Science of Univ College, Reading, or an approved School Leaving Certif examn conducted by a Univ, including special advanced papers in English, a foreign language, and one other subject, or the Oxford or Cambridge Higher Local, including Arith and English, Maths or Science, Languages or Hist or Geog, or the Nat Froebel Union Higher certif, or some corresponding or higher examn approved for the purpose. No 1-year student may be allowed to enter for an examn which forms a recognized stage in the course for a Univ degree

(v) Persons who have obtained a Univ degree in Honours or its equivalent may be admitted as Recognized students, and will be eligible for maintenance as well as tuition grants if they sign the prescribed Undertaking. Others who have obtained a Univ degree or a Special Honours Higher Local certif (Ox and Camb) fulfilling the special requirements of the Board may earn tuition grants for the Dept even though not giving the prescribed Undertaking. Students who have been admitted for a 4-year course and obtained a Univ degree in Honours or the equivalent may, on the recommendation of the Univ authorities, take a type (v) course instead of the fourth year of the type (i) course

A person, not under 21, who has obtained an approved degree in a Univ of recognized standing or a Special Honours Higher Local certif (Ox or Camb) fulfilling the special requirements of the Board may on certain conditions be recognized as a teacher in training in an approved Secondary School, the course extending over at least a full school year. If such a teacher has obtained an approved degree in Honours or its equivalent the School will be entitled to a tuition grant

Teachers of any ordinary subject of instruction in recognized schools, etc, are eligible for *Studentships* (a) "Special," not exceeding £100, for full-time courses of advanced study or research either at Univs or institts of Univ rank in the British Empire, or at approved places in foreign countries, these are intended for teachers who are able to obtain a term or longer period of grace from school teaching for the purpose, not for the whole or part of an ordinary degree course; (b) "Assisted," not exceeding $\frac{1}{4}$ of the fees of the proposed course, for approved part-time courses in Univs or institts of Univ rank, teachers so assisted would continue their ordinary teaching work at the School

The *Interchange of teachers between different parts of the Empire* and mutual recognition of certificates and service were among the subjects considered at the Imperial Education Conference held at London under the Chairmanship of the Permanent Secretary to the Board of Education in July 1923, and a report was prepared by a committee of the Conference on I Interchange, II Recognition of (a) service given

elsewhere than in the country of origin—for the purposes of superannuation, (b) previous service—for calculation of salary in case of teachers who migrate, III Recognition of teachers' certificates throughout the Empire

The League of the Empire (124 Belgrave Rd, London, S W 1) promotes schemes for the interchange of teachers between the Mother Country and the Dominions. In 1920 the London County Council ruled that service in any State School of the Dominions should count as London service for the purposes of such interchange. Canadian, Australian, and New Zealand Education Departments have reciprocated. A triennial Imperial Education Conference is held by the League, next meeting, July 14 to 19, 1924.

An Overseas Education League, under the auspices of the Govts of the Dominion of Canada, Newfoundland, New Zealand, and the Depts of Education of Alberta, B C, Manlt, N S, N B, Ont, P E I, Que, Sask, New S Wales, Vict, W Aust, Natal, and Sierra Leone, undertakes the organization of official visits of Teachers to Great Britain and other parts of the Empire, interchange of Teachers and School Inspectors within the Empire, etc. Office of the Hon Organizer in Canada (the Gen Secy, National Council of Education)—Parliament Buildings, Winnipeg.

The Fellowship of the Maple Leaf for the supply of British teachers for Western Canada is interested primarily in Elementary Schools, but also places teachers in Private Schools, High Schools, and Universities Office—13 Victoria St, Westminster, S W 1.

ADMISSION AS UNDERGRADUATES OF THE UNIVERSITIES OF THE UNITED KINGDOM OF PERSONS EDUCATED ABROAD

The following notes relate to the admission of students from other countries proposing to take full courses for a First degree, excluding from consideration those who seek admission with advanced standing on the ground of having already pursued courses in other Univs * and those who seek only to study without aiming at a degree.

A comparison of the regulations of the several Univs of the U K governing admission of such students discloses a general agreement in principle, with divergencies in application

The regulations are drafted on the understanding that the application to a student educated in another country of the ordinary entrance tests might be inappropriate owing to the fact that the tests exacted in the U K have been framed with reference to secondary education curricula, which may be somewhat different from those which obtain in the country from which the student comes, or to the student having reached a stage in his education at which the passing of ordinary entrance tests would involve a wasteful repetition of preparatory studies. They accordingly provide for the acceptance from such a student of other evidence of academic qualifications ordinarily certifs which would entitle to admission to a Univ in the student's own country, together with such further evidence as may be necessary to ensure that no student shall be admitted to a course of study for a degree without a reasonable prospect of his being able to pursue it to graduation, in particular, if the student be one whose mother tongue is not English, evidence that he has a sufficient mastery of this language to enable him to follow courses of instruction conducted in English

The lines along which this policy has been applied in the several Univs may be briefly indicated as follows

Oxford and Cambridge particularize the examns conducted abroad, which they recognize to the extent of accepting pass certifs as exempting from Responses or the Previous Examn respectively. These are not, strictly speaking, Entrance Examns, because in Oxford and Cambridge matriculation follows without further examination upon admission to one of the Colleges, Halls, or Societies, which fix their own entrance conditions, in effect, however, they take the place of the Matriculation Examn of other Univs

Oxford includes in its list (see Appendix A) examns held in France, Germany, Austria, Hungary, Switzerland, Russia, Serbia, Italy, Holland, and, subject to the condition that the student has passed in Latin or

* A résumé of Regulations regarding such concessions is given on pp. 12, 13.

Greek and in one other approved foreign language, in Canada, Australasia, S Africa and Hong-Kong An *Adviser to Colonial and Foreign Students* is attached to the Univ Registry

Cambridge exempts from the several Parts of the Previous Examn candidates who have passed, in the subjects prescribed for those Parts, certain examns (see Appendix B) held in Australasia, S Africa, and the continent of Europe

Exemption may also be obtained, not only from Responsions (and the Examn in Holy Scripture) or the Previous Examn, but also from the Entrance Examns of the other Home Univs, by passing the Oxford or Cambridge Senior Local Examns, which are held in various parts of the British Empire overseas as well as in the U K

London accepts certifs of matricn of Colonial Univs, and (provided they indicate a standard *prima facie* involving an education equivalent in the student's own country to that required in England for matriculation in London) Indian or Foreign certifs, as grounds for exemption from the ordinary Matriculation Examn of students of not less than 19 years of age, but requires all candidates so exempted, except those who have passed under prescribed conditions the Matricn Examn of Adelaide, Melbourne, or West Australia, to undergo in London a shortened form of this examn under Statute 116 (see Appendix C) London also arranges for the holding of its own ordinary Matriculation Examn in the Colonies and self-governing Dominions upon the application of the local Governments As regards graduates, see p 95

Scottish Universities Candidates from the British Dominions or Colonies may be exempted from the Preliminary Examn if they have passed examns which would admit them to a course qualifying for graduation in Arts or Science in Univs or Technical Colleges affiliated to a Univ in the Dominion or Colony from which they come, provided (1) their knowledge of English is sufficient to enable them to follow the courses of instruction with profit, and (2) if candidates for degrees in Engineering, they have a knowledge of Mathematics of a certain specified standard Those whose native language is other than English are required to pass an examn, oral and written, in this language, including set books Students from India are subject to the further condition that they have passed the Intermediate Examn in Arts or Science, as the case may be, in a recognized Indian Univ

As regards students from foreign European countries, the B ès L and B ès Sc and similar "certifs of Maturity or Grades, entitling the holder to enter upon a regular course of study in the Univs of his own country" are accepted subject to the above-mentioned conditions as to knowledge of the English language. Certain Egyptian, Argentine and Chinese certifs are also recognized Provision is not made specifically for the acceptance of other foreign certifs, but the Board has a general dispensatory power in regard to applicants of not less than 21 years of age who satisfy it as to their fitness

N B —In each Univ. the Senatus may for any particular class, attendance on which for a specified period is necessary in order to qualify

for graduation, determine the conditions of admission to such qualifying attendance

The Northern (English) Universities Joint Board Subject to Special Regulations for Entrance to particular Faculties, exemption from the Matriculation Examn is granted to a student who holds the Secondary Education Certif of the Egyptian Ministry of Education, or has passed the Intern Examn in Arts, Sc, or Med of an approved Indian Univ, and may, at the discretion of the Board, be granted to "applicants holding certifs of having passed examns of a standard at least equal to" Oxford Responsions, Cambridge Previous, etc The procedure at Liverpool is as follows Applications, with references, from Foreign and Indian undergraduate students are receivable up to June 1, from Egyptian up to July 31 In respect of Indian and Egyptian undergraduate students the Students' Dept of the High Commr for India and the Egyptian Educational Mission are asked to certify as to the character, qualifications and suitability of applicants

Durham Foreign students may matriculate provided they satisfy a special Committee that they have passed in their own country an examn of a standard deemed sufficient for matriculation, and that they have sufficient knowledge of English to profit by the proposed course of study The Matriculation Examn of the Univ of Sydney is recognized as exempting from that of Durham

Durham Colleges Graduates of Univs in the U K or of other approved Univs are admitted without further examn A candidate educated elsewhere than in Great Britain may matriculate if he has passed examns deemed by the Matricn Board to be sufficient Students in Codrington College, Barbados, and Fourah Bay College, Sierra Leone, may matriculate (and qualify for degrees) locally.

College of Medicine Examns qualifying for a degree in Arts of any Univ of the British Empire are accepted, subject for subject, for exemption from the ordinary matricn examn Candidates from a British Colony who have passed an examn which would admit them to a medical degree course in such Colony are accepted for matricn if the examn satisfies the requirements of the G M C Candidates from India must have passed the Intern Examn of one of the recognized Indian Univs, and be registered on the books of the G M C

Armstrong College Foreign or Colonial students must have passed in their own country an examn of English matriculation standard in the required subjects, and must have a sufficient knowledge of English to profit by the proposed course of study In the case of Indian students no examn lower than the Intern of an Indian Univ will be considered for this purpose

Bristol A candidate educated elsewhere than in the U K may submit to the Senate evidence of having passed examns elsewhere equal to the Matriculation Examn of any Univ of the U K, or to any of the other examns which qualify for matriculation at Bristol, if from an oriental country, he may submit evidence of previous education in his own country and of ability to follow instruction given in English The

Senate may thereupon, if satisfied with the evidence, declare him eligible for matriculation

Wales Candidates who have qualified by examn for a degree of an approved Univ or College, or passed the Matriculation Examn of the Swiss Univs, or the secondary school certif examn of the Transvaal Education Department in the subjects required by the Univ matricn regulations, or, if certified by a Constituent College as possessing sufficient knowledge of English to profit by a degree scheme of study, the Intermediate Examn in Arts or Science of an approved Indian Univ, may matriculate without further examn

Belfast Matriculated students of Univs outside the British Isles may send written statements and certifs which should, as a rule, cover all subjects required for matricn in the Faculty concerned When a certif in any subject is not available, other evidence of proficiency may be furnished The Matriculation Examn of the Joint Matricn Board of the Univs of S Africa is accepted as equivalent, subject for subject, to the Belfast Matricn Examn Entrants who are graduates of a British Univ are not required to pass the Matricn Examn

Dublin admits students who have passed the Matricn Examn of any Univ in S Africa including English, Mathematics, Latin, and one other approved language The Senior Lecturer is empowered to exempt from the Matriculation Examn any student who has passed in the subjects required at matriculation at a public examn which is, in his opinion, of equivalent standard See, however, p 287 regarding compulsory subjects in Arts course

National University of Ireland The Senior Public Examns of Sydney, Melbourne, and Adelaide, the Jaffa Gymnasium Maturité, and the Matricn Examns of Sydney, Melbourne, and New Zealand, and of the Matricn Boaid of S Africa, are recognized as qualifying for exemption from the Matricn Examn The Matricn Examns of other Univs in the British Empire overseas (excluding India) are recognized only in combination with an Intermediate Examn in Arts or Science

London The Examn under Statute 116 held in London, usually about four times a year, comprises four subjects, of which English and either Mathematics or Logic are compulsory. Subjects outside the more usual field of elementary academic study may not be taken. Any certifs that the candidate may present, or any examn. he may have passed, may be taken into account, but in every case he is required to undergo a *viva-voce* examn., and a sound elementary knowledge of English is necessary. Work for the Intermediate Examn may be begun (*e.g.* in October) before passing the Matricn test, this being deferred (*e.g.* until the following May just before the Intermediate)

are open to duly qualified graduates of American, British and other univs in the field of distinctively liberal studies. Applications for an ensuing academic year should be made directly to the Dean of the Graduate School, Princeton, New Jersey, U S A, before March 1.

MICHIGAN *The Riggs Foundation* Fellowships for British graduates \$1200 each, tenable in the Univ of Michigan, one year. Preference to students of History and Economics. Held in 1924 by R I Lovell and Miss M Lindsey.

Many American Universities having " Graduate Colleges " offer Research Scholarships and Fellowships of from \$300 to \$2000 p a which are ordinarily open to Foreign as well as to American students. Nearly all the American Univs other than State Univs, and a few of the latter, offer each year fellowships of from \$200 to \$800 which are open to Foreign students. Most American Univs close their scholarship lists about March 1. The Institute of International Education (522 Fifth Avenue, New York) published in 1923 lists of fellowships, etc, offered to Americans for study abroad and *vice versa*. These may be seen at the American University Union, 50 Russell Sq, London, W C 1.

A tentative plan for the establishment of fellowships for British subjects in American Univs has been formulated by President Frank Aydelotte of Swarthmore College, American Secretary of the Rhodes Scholarship Trust. The plan has been submitted to several influential bodies and has been approved by the Executive Committee of the American Council on Education.

(xxiii) FRENCH UNIVERSITY SCHOLARSHIPS

A scholarship of 8000 fr, open to Australians on the completion of studies in England. Office National des Universités et Écoles Françaises, 96 Bd Raspail, Paris (6^e).

" La Bienvenue Française," 33, Rue du Faubourg Saint-Honoré, founded in 1923, offered hospitality for one year (1923-24) to a British student of science.

(xxiv) INTERNATIONAL FELLOWSHIPS, ETC, OF FEDERATIONS OF UNIVERSITY WOMEN

The American Asscn of University Women offers \$1000 to enable a member of the International Federation of University Women to carry on a year's research in some country other than her own during 1924-25. Applications receivable up to Feb 1, 1924. Address—Prof Agnes L Rogers, Smith College, Northampton, Mass.

The Canadian Federation has founded a Scholarship enabling a woman graduate of a Canadian Univ. to study at a Univ. of any other country represented in the International Federation.

The Swedish Federation's prize of 1000 kr in 1923 was awarded to Mrs Onslow, M A., formerly a fellow of Newnham College, Cambridge.

(xxv) GOVERNMENT GRANTS AND CO-ORDINATING AGENCIES

The estimates for 1923-24 provided under the head "Scientific Investigation, etc.," £196,500, of which £130,000 was for the Medical Research Council—v *infra* (xxvii), £35,000 for the National Museum and Library of Wales, £7750 for the Imperial Mineral Resources Bureau, £9000 for the Royal Society—v *supra* (vi), £3000 for the Solar Physics Observatory, £4000 for the Edinburgh Observatory, and smaller sums for 10 other bodies

The Mineral Resources Bureau (2 Queen Anne's Gate Buildings, London, S W 1) undertakes, in addition to collecting, compiling and disseminating information, to advise on the development of mineral resources

The total expenditure during the year 1922-23 of the DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH was £496,400 This included Headquarters Administration, £32,500, Co-ordinating Boards and Committees, £19,180, Grants to Industrial Research Assocns, £95,300, Fuel Research Board, £45,500, Geological Museum and Survey, £56,000, National Physical Laboratory, £165,000, other grants for investigation and research, £82,900

Grants to individual research workers (£48,000) are made on recommendations by individual professors Notes on the conditions under which such grants are made were republished by the Dept in 1923, price 2d, and the Annual Report of the Dept for 1922-23 contains an explanation of the principles determining these conditions and an account of the working of the system (Cmd 1937, price 4s) During 1922-23 the Dept made 252 allowances to students for training in research in Univs and Colleges, 38 grants to research workers to undertake independent research or act as scientific assistants to investigators of standing, 14 grants to scientific workers to enable them to employ laboratory or clerical assistants or to purchase equipment The system is intended to supplement and not in any way to supersede existing provision, national or local, for post-graduate research

Up to August 1923 the number of *Industrial Research Associations* licensed by the Dept was 25

Developments in the organization of research in the Overseas Dominions are described in an Appendix to the above-mentioned Report

(xxvi) MINISTRY OF AGRICULTURE AND FISHERIES

GRANTS FOR AGRICULTURAL (AND VETERINARY) RESEARCH For some few years past the Ministry has awarded annually Research Scholarships (£200 p a for 3 yrs) to assist promising students—usually honours graduates in Science of a British Univ—to qualify as research workers In 1923 7 were awarded to students of Liverpool, London, Aberystwyth, Bangor, Glasgow, Edinburgh, and Royal (Dick) Vet College In 1921 the Ministry instituted Travelling Research Scholarships for members of staffs of aided research institutions In 1923

SCHOLARSHIPS AND GRANTS FOR RESEARCH 619

3 were awarded to members of the staffs at Manchester, Waltham Cross, and East Malling

The Ministry has allocated (with a view to the concentration at one institution or at institutions working in combination, of the scientific work in each of certain definite groups of subjects) grants-in-aid for the maintenance of research departments of institutions as follows *Agr Zoology*—London School of Tropical Medicine, *Fruit-growing*—Bristol Univ, East Malling Research Station (near Maidstone), *Animal Nutrition and Plant-breeding*—Cambridge Univ, *Plant Physiology*—Imperial College of Science, *Economics of Agr*—Oxford Univ; *Dairying*—Univ College, Reading, *Plant Nutrition and Soil Problems and Plant Pathology*—Rothamsted Experimental Station, Harpenden, Herts, *Crop Improvement and Seed and Potato Testing*—Nat. Inst of Agr Botany, Cambridge, *Animal Pathology*—Royal Vet College, Camden Town, London, N W 1, and the Ministry's Vet Laboratory, Addlestone, Weybridge Grants are also made for research in Plant-breeding to Univ College, Aberystwyth, Animal-breeding (poultry and rabbits) to Cambridge, Bee-culture to Rothamsted Exptl. Station, Glasshouse culture to Waltham Cross Research Station, Silver-leaf disease research to Camb Univ, Testing new varieties of fruit trees to Royal Hortic Soc

A grant has also been made to enable the Agr Depts of the following institutions to supplement in cases calling for special scientific knowledge and training the advice usually given by members of the county Agr Staffs Armstrong Coll, Bristol, Cambridge, Leeds and Manchester Univs, Aberystwyth, Bangor, Cardiff, and Reading Univ Colleges, Midland, S Eastern (Wye), Harper-Adams (Newport), Midland (Sutton-Bonnington, Notts), and Seale-Hayne (Newton-Abbot) Agr Colleges Grant for 1923-24, £28,500

Special research grants amounting in the aggregate to £3745 for work in 1922-23 were made to Cambridge, Edinburgh, Oxford, Leeds, and Bristol Univs, the Imperial College of Science, the Nat Inst of Agr Botany, the Waltham Cross Research Station, Aberystwyth, Armstrong, S Eastern Agr (Wye), Midland and Bangor Colleges

In a leaflet (197) issued by the Ministry in Sept 1920 (revised Sept 1922) information is given regarding some of the above-mentioned grants and generally regarding Agr Education and Research in England and Wales V also p 547

FISHERY RESEARCH Researches likely to lead to results bearing on the development and improvement of fisheries are eligible for advances from the Development Fund as follows 1 *Grants-in-aid of the general work of Independent Marine Institutions*, to aid fundamental researches forming part of the Institution's continuous programme of work Departments of a Univ engaged principally upon education which may be eligible for grants administered by the Univ Grants Committee are not as a rule eligible for these. Applications in prescribed form are receivable by H M Treasury up to Sept 30 for grants to be made in the ensuing financial year They will be referred to the Ministry for report, and may involve informal inspections by representatives of that Dept and of the Development Commission

2 *Grants for Specific Researches* (a) Directed to definite economic ends of use to the Fishing Industry, or (b) "Free" researches Communications with a view to grants under head (a) should be addressed to the Secretary to the Ministry. As regards grants to Instns. under head (b), the work may be carried on either by members of the staff or by workers temporarily attached to the Instn. or by research students working under the guidance of members of the staff, whose qualifications are approved and who are definitely recommended by the Head of the Instn. The Development Commrs will also be prepared to consider applications for additional grants for temporary assistants and for apparatus, etc., to enable members of the staff to prosecute special lines of inquiry. Applications should be addressed to H M Treasury and will be dealt with in the same way as those under par 1. In special cases applications for grants under either (a) or (b) in respect of researches by workers not attached to any recognized Instn may be considered.

The amount provided in the Ministry's estimates for 1923-24 for grants under 2 (a) was £900.

Among Grants for Agricultural Research Work in Scotland in 1923 were to Animal Diseases Research Assocn, £18,500, Rowett Research Inst, £11,000, graduate scholarships, £5400.

(xxvii) MINISTRY OF HEALTH AND MEDICAL RESEARCH COUNCIL

The Medical Research Council (15 York Buildings, Adelphi, London, W C 2), formerly the Medical Research Committee established in 1914 under the Nat Health Insurance Act, are now under the direction of a Committee of the Privy Council. They apply money voted by Parliament or received from private sources for the furtherance of medical research. 4 Rockefeller Medical Fellowships tenable in the U S A during 1923-24 were awarded by the Council. J C Bramwell, N M Dott, Helen Ingleby, H K Ward.

School of Hygiene (Rockefeller Foundation) The Post-graduate Medical Committee, over which the Earl of Athlone presided, reported in May 1921, and recommended, *inter alia*, that a School should be established in London at which further facilities would be provided for the education of the medical practitioner and for research in preventive medicine. On Feb 23, 1922, the Minister of Health announced that the Rockefeller Foundation had expressed their willingness to provide a sum not exceeding two million dollars towards the cost of the establishment and equipment of a School of Hygiene for these purposes, on the understanding that the Government accepted responsibility for the cost of the staff and maintenance of the School, and that he had been authorized to accept the Foundation's offer. As a result of an agreement made between the Minister of Health, the Rockefeller Foundation, and the Univ of London, to which the new School will be attached, a Transitional Executive Committee was appointed under the Chairmanship of the Minister of Health to take the necessary steps for the establishment of the School on a site already

acquired in Bloomsbury Negotiations have been opened with other bodies operating in the same sphere as that proposed for the new School with a view to securing their amalgamation or co-operation, and arrangements have been concluded with the London School of Tropical Medicine whereby it will become part of the School of Hygiene, without loss of its own identity A Charter of Incorporation is to be sought for the Governing Body The Director of the School is Andrew Balfour, C B, C M.G, M D, B Sc, D.P H, formerly Director of the Wellcome Bureau of Scientific Research

(xxviii) RESEARCH IN THE COLONIES

A Committee, appointed in Nov 1920 by Lord Milner, then Secy. of State for the Colonies, to consider what steps could be taken to secure the assistance of the Univs in carrying out research work for the Colonies and Protectorates, reported (Cmd 1472, price 2d) in April 1921 that there should be such substantial augmentation of scientific workers in our Univs as will not only foster research among students but also enlarge the corps of scientific experts to whom the Empire may turn for help in the hour of need They drew attention to the large number of appointments which the Colonial scientific departments offer to men adequately equipped for them (Agric 254, Forestry 106, Analytical Chemists 18, Vet 77, Geol 20, Med 649) and recommended that for appointments requiring research qualifications selection should not be by competitive examination but based on recommendations by Universities or Colleges Among organizations other than the Univs the resources of which are available for assisting in the research work in question are the Imperial Bureaux of Entomology and Mycology, the Tropical Diseases Bureau, the Tropical Diseases Research Fund Committee, and the Advisory Medical and Sanitary Committee for Tropical Africa

The West Indian Agricultural College is described on p 396.

(xxix) RESEARCH IN CANADA, AUSTRALIA, AND AFRICA

CANADA An Honorary Advisory Council for Scientific and Industrial Research was constituted in Nov 1916 under a sub-committee of the Privy Council of Canada which had been formed in the same year to have charge of all measures to foster the scientific development of Canadian Industries It consists of 11 members chosen from the Univs, the Engineering Profession and the Industries of the Dominion With the help of Associate Committees comprising over 140 of the leaders of science and industry it has undertaken or promoted important researches in regard to the utilization of peat and of low-grade lignites, methods of re-forestation, Canadian iron ores, action of alkaline waters on concrete, rust in wheat, and some 60 other subjects By the foundation of *Bursaries*, *Fellowships* and *Studentships* tenable in Canadian Univs provision is made each year for the training of young graduates in the methods of scientific investigation On Feb. 20, 1922, the Administrative Chairman presented a report including, in

addition to a general account of the work of the Council, special notes on overlapping and duplication of effort in scientific and technical work, and on proposals for a *National Research Institute*, for which the Government has made a special grant of \$100,000. The number of grants in aid of researches in 1922-23 was 20 and the number of bursaries for 1923-24, 50.

The Province of Ontario provides annually five scholarships of \$1200, open to local graduates, for research study in France with a view to subsequent commercial, industrial, scientific, or professional work in the Province.

AUSTRALIA has a National Research Council which was formed in Aug 1921. Under its ægis a Pan-Pacific Congress was held during Aug and Sept 1923. A Commonwealth Institute of Science and Industry (314 Albert Street, East Melbourne), which co-operates with existing State organizations in the co-ordination of research, training of investigators, etc., has a Forest Products Laboratory at Perth, and has recently established in Melbourne the nucleus of a small physical, chemical, and biological laboratory. In 1923 two of the most important investigations in which the Institute co-operated were in connection with the prickly pear pest and the cattle tick. It was largely instrumental in the formation of an Australian *Engineering Standards Association* with headquarters at Sydney. The *Australian Institute of Tropical Medicine*, Townsville, North Queensland, is under the control of the Commonwealth Department of Health. The staff, consisting of a Director (R. W. Cilento, M.D.), 3 medical officers, and 2 entomologists with technical assistants, etc., performs educational and diagnostic as well as investigational functions.

The NEW ZEALAND Institute, established in 1867, controls 3 funds which are available for grants to aid scientific workers: the Government Research Grant Fund, Hutton Memorial Fund, and N.Z. Institute Endowment Fund. The Cawthron Institute of Scientific Research at Nelson concerns itself specially with agriculture and fruit-growing.

S AFRICA. The Research Grant Board of the Union of S. Africa, created in 1918 as part of the subsidiary organization of the Advisory Board of Industry and Science, considers questions of detail by which the spirit of research may be fostered amongst students and members of the staffs of Univs., Research Laboratories, and Museums. It has provided (a) Grants of from £25 to £200 in aid of Research by members of the staffs of Univs., etc., awarded in the main to persons who have carried out previous research, (b) Research Scholarships of £80 to £130 p.a. for students at Univs., etc., who have taken their B.Sc. degree and show an aptitude for research, administered under the supervision of heads of Departments of Institutions, (c) Scholarships (temporarily suspended) for study of Commerce and Industries Overseas, £250 p.a., of which 4 were awarded in 1920.

None of these are restricted to any particular number. They depend on the number of suitable applications and recommendations.

(xxx) RESEARCH IN INDIA

Under the new Constitution the development of industries is a Provincial transferred subject and the Government policy in regard to research work is to a large extent determined provincially. An account of the *Indian Institute of Science* is given on p 528, there are *Research Institutes* at Pusa (Agricultural), Dehra Dun (Forestry) and Cawnpore (leather, vegetable oils and tinctorial chemistry, etc), at Muktesar Bacteriological Laboratory some research in animal diseases is done, an Indian Lac Assocn has been formed (financed by a cess on exports), projects are in hand for a School of Mines and Geology at Dhanbad, and a Forest Research Institute in Burma. An *Indian Central Cotton Committee* representing the growers and manufacturers of cotton has been formed at Bombay, which places grants-in-aid at the disposal of Provincial departments of Agriculture for research work on cotton. A project for the establishment of a *Technological Institute* at Bombay is in hand. *Medical Research* is carried out at the Central Research Institute, Kasauli, the Calcutta School of Tropical Medicine and Hygiene, the Bombay Bacteriological Laboratory, the King Institute of Preventive Medicine, Madras, and at Pasteur Institutes situated in Kasauli, Coonoor, Shillong and Rangoon. The Indian Research Fund Association finances researches into special diseases in connexion with one or other of these laboratories, and publishes the results in the *Indian Journal of Medical Research*, which is issued quarterly.

The *Bose Research Institute*, Calcutta, was founded in 1917 by Sir J C Bose, M A, D Sc, LL D, F R S, C S I, who continues to direct its work. This is concerned especially with Plant Biology. Publications *Life Movements in Plants*, vols 1, II, III, *Physiology of the Ascent of Sap*.

(xxxi) RESEARCH IN THE UNITED STATES

The NATIONAL RESEARCH COUNCIL of the U S A, an organization supported during the war largely by the Government but now entirely by private bodies and firms, has published an inventory (Bulletin, Vol 2, No 9, March 1921, \$1, obtainable from the Council Office, 1701 Massachusetts Avenue, Washington, D C) of funds, other than Federal and State Funds, available in 1920 for the encouragement of Scientific Research. It gives particulars of 529 University and College Funds of which the aggregate annual value was 2½ million dollars and of 170 other Funds worth over 18 million dollars per annum. Rockefeller and Carnegie benefactions alone provide over 17 million dollars p a. A revised and enlarged edition of the section of the Bulletin devoted to fellowships and scholarships for advanced work in Science and Technology was issued in Nov. 1923.

The UNIVERSITY CENTRE FOR RESEARCH IN WASHINGTON, constituted in 1921, is maintained by a voluntary association of scholars, to promote and facilitate research in archives, libraries and other collections located in the District of Columbia, on the part of students in the graduate departments of American and Foreign Univs and of others. Technical Divisions of History, Polit Sc, Internat Law and Diplomacy, Economics, and Statistics have been established. Students in foreign Univs and other investigators desiring to avail themselves of its services should apply to the Director of the American Council on Education, 24-26 Jackson Place, Washington, D C

(xxxii) RESEARCH IN FRANCE

Les Ressources du travail intellectuel en France, by MM Tassy and L  ris (Gauthier Villars, 1921), contains lists of "Encouragements et Aides Financiers". The annual value of prizes distributed in France by the national academies and by societies dependent on private initiative is stated to exceed 1,500,000 francs, and an almost equal amount is said to be devoted to subventions to missions, travelling fellowships and other aids to research.

(xxxiii) INTERNATIONAL FOUNDATIONS AND ORGANIZATIONS FOR RESEARCH

FONDATION UNIVERSITAIRE, 11 rue d'Egmont, Brussels, founded in 1920 with a capital of 55 million francs derived from the unexpended balance of the funds of the Commission for Relief in Belgium, aims (1) at helping impecunious young Belgians to take courses in Institutions for higher education and (2) at developing scientific production in Belgium. It makes loans for the first purpose and grants and subsidies for the second. In the year 1921-22 its loans for University study amounted to 844,500 francs, its subsidies to 617,280 francs. The subsidies included grants for study in Brazil 21,208 fr, in European Univs 28,000 fr, for training in Scientific Research 86,416 fr, for research workers 128,589 fr, to periodical publications 332,903 fr. Grants for study in American Universities were made to 34 Belgian graduates and grants for study in Belgian Universities were made to 24 Americans. The Foundation arranges exchange visits of Professors. A club-house was established at 11 rue d'Egmont in 1922 for Belgian Univ Professors.

AMERICAN-SCANDINAVIAN FOUNDATION Travelling Fellowships of \$1000 each for travel and study by American graduates in Scandinavian Univs and *vice versa*, 20 for America, 5 for Denmark, 10 for Sweden, and 5 for Norway. Address—25 West 45th Street, New York City. Applications receivable up to March 15.

FRANCO-AMERICAN SCHOLARSHIP EXCHANGE Administered by the Institute of International Education, 522 Fifth Avenue, New York. Fellowships for American graduates in French Univs (Free tuition, 16; free tuition plus maintenance, 4; 5000 fr, 2). About 28 scholarships for American women in French Lyc  es and   coles Normales:

NOTES ON FOREIGN UNIVERSITIES

The CONFÉDÉRATION INTERNATIONALE DES ÉTUDIANTS was formed in 1919 as an alliance of national unions of university students. In Sept 1923, when a council meeting was held at Oxford, national unions of the following countries had joined the confederation: Belgium, Czecho-Slovakia, Denmark, England, Esthonia, Finland, France, Holland, Hungary, Ireland, Italy, Latvia, Poland, Roumania, Scotland, Serbs, Croats and Slovenes, Spain, Sweden, Switzerland. Twelve of these were represented at the Oxford meeting. For information regarding the English and Scottish unions see p 19. Various national university *students' bureaux* have been formed. A conference of representatives of such bureaux formed in Czecho-Slovakia, Denmark, England, Esthonia, Germany, Holland, Hungary, Latvia, Norway, Sweden, and Switzerland, was held in London immediately before the Oxford meeting. Secretary-General—J. Baugniet, Dr Jur, Avocat, Avenue Mohère, 82, Brussels.

THE LEAGUE OF NATIONS COMMITTEE ON INTELLECTUAL CO-OPERATION has established an International University Information Office which issues a Bulletin. Secretary—Prof O Halecki, League of Nations, Geneva.

AN INTERNATIONAL FEDERATION OF UNIVERSITY WOMEN was founded in 1920 "to promote understanding and friendship between the university women of the nations of the world, and thereby to further their interests and develop between their countries sympathy and mutual helpfulness." Address—92 Victoria St, London, S W 1. International Club-houses: in New York—Women's Univ Club, 106 East 52nd St, and Smith College Club, 133 East 17th St, Washington, D C.—American Assocn of Univ Women, 1634 I St, Philadelphia.—The College Club, 1300 Spruce St, Brussels.—Maison des Étudiantes, Chaussée de Warre, 212, Paris.—American Univ Women's club, 4 rue de Chevreuse (VI^e), London.—The Women's Institute, 92 Victoria St, S W 1. As regards International Fellowships, etc., of the constituent Federations, v Appendix XXIV (xxiv).

A UNIVERSITIES COMMITTEE, under the auspices of the Imperial War Relief Fund, was created in July 1920 on the initiative of Lord Robert Cecil. The aim of this Committee has been to relieve professors, men of letters and science, and students, attached to the Universities of Central Europe and Russia, by the collection and distribution of books, scientific periodicals, food, and clothing. These gifts are administered through the European Student Relief Committee of the World Student Christian Federation. The British share of such gifts amounted in the three years 1920–23 to some £81,000. This year (1924) the Universities Committee is concentrating its main effort on the relief of Russian refugee students in Serbia and German students and professors. Address—General Buildings, Aldwych, London, W C 2.

AUSTRIA

The principal institutions for higher education are the Univs of VIENNA, GRAZ, and INNSBRUCK, the College of Catholic Theology at Salzburg, Polytechnics at Graz and Vienna, School of Mines at Léoben, Schools of Agric and Vet Med, Superior Commercial College, Academy of Fine Arts, College of Music, and School of Oriental Languages at Vienna. A report on the condition of intellectual life in Austria, prepared in August 1922 by Prof de Reynold of the Univ of Berne for the League of Nations (Committee on Intellectual Co-operation), was circulated in Nov to Univs and learned societies in all countries with an appeal to save Austria "from the fate of seeing its higher education and learning disappear from sheer want," and suggested, among other means, utilising the Arbeitsmittelbeschaffungsanstalt, associated with the Univ of Vienna Zentralrat der geistigen Arbeiter, for the supply of books, periodicals, and instruments. Since then Herr S Bosel and other philanthropists have contributed largely towards the maintenance of the Univ of Vienna.

The new School of Medicine, which will be in close connexion with the City Hospital, has received large endowments enabling it to offer ample facilities for advanced study and research. In addition to the regular courses for undergraduates, "Cours libres" in many special subjects, suitable for graduates and practitioners, are given by more than 20 Profs. The "M D Brussels" exams have been discontinued.

A section of Maritime Law was opened in 1922.

The new School of Applied Sciences is also well equipped for research. It has depts of Archit, Aviation (6 Profs), Industrial Chem, Engineering, Mining, Metallurgy, Railways. Admission to the school is by examn—the same for Belgians and foreigners.

It rests with the Faculty concerned to decide on questions of equivalence of foreign academic records with the ordinary Belgian qualifications for admission to Univ courses. Of 388 recipients of Diplômes scientifiques in 1922-23, 59 were foreigners. Total number of students in 1922-23 2110. A "Maison des Étudiants" Co-operative Society managed by students provides cheap and wholesome food and assists students in finding lodgings. A home for girl students offers cheap lodging in comfortable surroundings. Furnished rooms about 100 fr a month, board and lodging from 300 to 600 fr a month. Inquiries by foreign students should be addressed to the Secretary of the Univ, 14 rue des Sols.

The Commission for Relief in Belgium promised in 1922 to build a new library, buildings for colleges of law and philos, and 2 houses for students (men and women).

CZECHO-SLOVAKIA

[The following notes are based on information kindly supplied by the Czecho-Slovak Bureau of Information, 8 Grosvenor Place, London, S.W.1]

Universities and High Schools can be established only by law, and the whole of the educational system is administered by the State School attendance is compulsory for children from 6 to 14 years of age In the gymnasia and "real schools" which receive pupils at or above the age of 10, courses covering 8 years and 7 years respectively lead to Maturity certificates qualifying for admission to the Univs and High Schools Adult education is provided for by univ extension lectures In order to be admitted as a regular student of a Univ it is necessary to pass an exam in Latin Time spent in foreign univs may be included in the prescribed period of study for the doctorate—ordinarily 8 (Med, 10) terms In 1923 the Univs and Technical Institutions of Univ standing had 26,000 students

The Univ founded in 1348 by Charles, King of Bohemia, and amalgamated in 1653 with the Jesuit College of Prague under the name "Charles-Ferdinand," was in 1882 divided into two—a Czech (the Charles) and a German Univ There are also at Prague Czech and German Technical High Schools, having about 5000 and 2500 students respectively, a Higher Commercial School with a 3-years' course, a State Conservatoire of Music, an Academy of Fine Arts, and an

Observatory. A French Institute was founded in 1920, and an Italian Institute has been planned. The Czech Univ has about 250 professors and lecturers, and about 9000 students, including about 1500 women. The German Univ has about 3000 students.

At Brunn (Brno) are the Masaryk Univ (founded in 1919) with faculties of Philos, Science, Med, and Law, Czech and German Higher Technical Schools, Higher Agric and Vet Schools.

At Pressburg (Bratislava) is the Komensky Univ (founded in 1919), with faculties of law, medicine, and philos. It offers excellent opportunities for research in folklore.

There is a Mining Academy at Příbram. Olomouc has a Catholic theological faculty.

SPECIAL FACILITIES AVAILABLE FOR ENGLISH-SPEAKING STUDENTS

The Director of English Seminar, Prague 1, Veleslavínova, 96, is prepared to answer inquiries by students proposing to study at Prague. Many of the Profs speak English or French. Free Czech courses for English-speaking foreigners arranged. American students' club-house.

DENMARK

(Contributed by the President, Anglo-Danish Students' Bureau, London Branch)

THE UNIVERSITY OF COPENHAGEN has always been, and is at present, the only Univ of the country. For some time past there has been a general desire to have one more, and the incorporation of the Danish part of Slesvig in 1920 has intensified this need. There are now plans of establishing a second Univ in Jutland, and the seat of this institution is most likely to be *Aarhus*, the largest city but one (about 100,000 inhabitants), which has many advantages for the realization of such a plan in its great hospitals, library, and museum.

HISTORY AND CONSTITUTION The Univ was opened in 1479, in accordance with a Papal Bull of June 19, 1475. Beginning as a School of Theology, and by degrees adding the other faculties when the need for them arose, the Univ, faithful to its historical traditions, still contains only five faculties: Theology, Law (including Political Econ), Medicine, Arts (Det Filosofiske Fakultet), Science (including Maths). Other subjects, which are in England generally treated as Univ. subjects, are taught at special institutions at Copenhagen, not being incorporated in the Univ., but, like it, under State supervision:

Engineering at the Polytekniske Læreanstalt; *Agriculture* at the Royal Vet and Agr College, *Fine Arts* at the Royal Academy of Art, *Music* at the Academy of Music (Musikkonservatoriet)

The academical year is divided into 2 terms (Semestre), beginning on Sept 1 and Feb 1 respectively Christmas holidays Dec 23-Jan 6 Easter holidays Wed before till Tues after Easter Whitsuntide Sat before till Tues after Whitsunday Long vacation June 9-Sept 1 The number of matriculated students of the Univ proper was on Sept 1, 1923 3660 (including 614 women) as follows studying Theology—436 (12 women), Law—930 (47 women), Economics and Actuarial Science—202 (25 women), Medicine—941 (126 women), Arts subjects—581 (159 women), Maths and Natural Sciences—222 (32 women), others—348 (212 women)

The Univ is a self-governing and, to a great extent, a self-supporting institution besides being a State Univ Thus it relies for its income partly on large endowments of bygone ages, and partly on State aid The rector is elected each year by the joint body of the professoriate called Lærerforsamlingen, and the deans of faculties are elected by the faculties *All tuition is free*, and a very great number of scholarships and fellowships are available to Danish students, often including free residence at one of the colleges Nearly all lectures are open to the public without fee or ticket The only fees charged to students are a Matricn fee of a little more than £1, and a similar fee for examns

Rector *Magnificus* for 1924 is Prof H Munch-Petersen, Dr Jur Administrator is Prof Paul Yohs Yorgensen

ADMISSION (I) According to the Statutes any student who wishes to study at the Univ must matriculate The matricn is, however, not an examn, as the entrance examn will generally have been passed by the student as a Final examn on his leaving the school or institution at which he has been prepared for the Univ Thus the matricn simply consists in paying down a fee once and for all of 22 kroner Candidates must bring (1) a certificate from the school or other Univ attended, (11) birth certificate The student will then in due time receive the document styled "Akademisk Borgerbrev" in proof of his being admitted as "Civis Academicus"

(II) Any matriculated student who wishes to attend the teaching of the Univ, and enter for examns, must enter his name on the annual list kept of all students in the course of the month of Sept of each year The student will then receive without any fee or payment an *Identity Card* for the year, enabling him to obtain cards of admission to lectures, courses, laboratories, etc In brief, with this Identity Card in his possession he enters into his rights as "Civis Academicus"

UNDERGRADUATE STUDIES There is no fixed time for the duration of the courses of studies, the candidate can enter for his examn when he thinks fit However, the courses of studies at Copenhagen are generally longer than those at British Univs, the minimum being usually 5 yrs

ADVANCED STUDY AND RESEARCH The Univ offers great advantages for research students by its excellent laboratories and a library

of more than 500,000 vols and 6500 MSS, which, amongst other things, contains the famous Arnemagnæian collection of Icelandic and a very valuable collection of Oriental MSS, also the still greater Royal Library may be mentioned in this connexion. On the whole, as the Univ is situated in the metropolis of the country, it is unique in that its under-graduate and post-graduate students have at their disposal all the facilities afforded by its central position in the midst of all the most important institutions of the kingdom.

BRITISH STUDENTS with a Matricn certificate from their own Univ will be admitted on the same conditions as Danish students, and degrees and certificates will be open to them. For advanced study and research, British students will be admitted to all laboratories, seminaries, and other scientific institutions, provided accommodation is available. Knowledge of English is very widespread in Denmark.

DANISH DOCTORS' DEGREES will, no doubt, be open to foreign students, but are considered some of the most difficult to obtain, and, as far as can be ascertained, have never yet been taken by any foreigners. After having had his thesis recognized by several censors of the Professoriate, appointed by the Univ, the candidate is required to publish it, and then on an appointed day defend his thesis in public, not only against the said censors as chief opponents, but against any one from the audience who wishes to take part in the disputation. Theses should ordinarily be written in Danish, but a summary in a foreign language may be appended. In special cases, *e.g.* when the subject of the thesis, or the public for which it is intended, makes it advisable, permission may be given to employ a foreign language (as a rule, only English, French, or German). A summary in Danish should then be appended to the thesis.

VACATION COURSES The only vacation course so far given in Copenhagen was a *summer course in Agriculture* at the Royal Vet and Agr College from June 25 to July 25, 1920. This course was given to foreign students, with special reference to British students. The lectures were delivered in English by Professors of the College and other agricultural experts on topics like Organization and Co-operation, Animal and Plant Breeding, Dairy Industry, Seed-Testing, Control of Diseases in Animals and Plants, Education, etc. The course included excursions under the guidance of an English-speaking Agr expert to experimental stations, farms of animal and plant breeders, schools, agr summer exhibitions, cattle and horse shows, dairies, bacon and sugar factories, etc.

STUDENTS' REPRESENTATIVE COUNCILS have been founded by the students of the Univ, as well as those of cognate institutions for each college respectively. The joint representative body of these different councils is the *Danish Students' National Council*.

Information Bureau Foreign students who want to study or travel in Denmark can obtain information concerning studies, expenses, travelling, etc., on application to *Dansk Studieoplysningskontor*, 6 Studiestræde, University, Copenhagen K, Denmark. Branch offices have been established in the central Univ towns of different countries.

FRANCE

For full information regarding the French Univs students in the U K are recommended to apply to the Office National des Universités et Écoles françaises, London Branch, 50 Russell Square, W C 1 This organization, which is under the direction of M Petit-Dutaillis, one of the Inspectors-general of the Department of Public Instruction of France, has branches also in America (at the Institute of International Education, 419 West 117th St, New York), Spain (Madrid and Barcelona), Portugal (Lisbon), Switzerland (Fribourg), Holland (Amsterdam), and Italy (Florence) It has recently published a volume (*Expansion Scientifique et Universitaire de la France*, Les Presses Universitaires de France, 49 Boulevard St Michel, Paris, 1923), containing (1) reports on its own activities and on the Instituts Français of Florence, Naples, Madrid, Barcelona, London, Prague, and Buenos-Ayres, and the French University Mission in Roumania, (2) regulations regarding foreign service by professors, (3) conventions and agreements concerning scientific and university and other educational relations with Italy, Roumania, Jugo-Slavia, Belgium, Luxembourg, Poland, and Czecho-Slovakia, (4) Special examination for foreign students for admission to French University courses, (5) recognition of foreign academic records as equivalent to baccalauréat, licence, etc, (6) statistics of foreign students in French Univs (in 1921-22, 5926, including Jugo-Slavians, 821, Roumanians, 751, Egyptians, 437, British, 410)

The French Univs which grant degrees and most of the other Institutions of Higher Learning in France, as well as the Lycées and Primary schools, are under the direction of the Minister of Public Instruction The degrees, diplomas and certificates obtainable at the Univs are of two kinds—those of the State and those of the Univ, the latter, while attesting with equal authority the same and other courses of study, do not confer the right to practise a profession in

France Further, the unified control of the Univs has resulted in giving to the degrees granted by all of them a uniform value. In this connexion it is noteworthy that the word " Université " is frequently used to denote not what is signified by the English word, but the entire system of French education of all grades, e g " Professeur de l'Université " means a person *qualified* to teach as such, whether in a university or a lycée or college Uniformity in the essentials of administration does not, however, prevent each Univ from having a character of its own, and their differentiation is accentuated by the practice of devoting special attention to the study of Local History, Dialects, Industries, and Economic Conditions The excessive separation from each other of the several Faculties which was enforced during the nineteenth century for political reasons has given place to a close collaboration which greatly furthers the interests of study and research Associated with the Univs are numerous Institutes and Schools for the cultivation of special branches of knowledge, Technology and Research The Office National draws special attention to the advantages for foreigners of studying in a provincial Univ, where initiation into French life is easier and more intimate relations with teachers and fellow-students can be established than in Paris, and where the cost of living is appreciably lower

Admission to courses of lectures in the Faculties of Science and Letters of the Univs can ordinarily be obtained on payment of the prescribed fees by foreign students of either sex, without difficulty and without any preliminary test of their qualifications, and in many places " sections étrangères " have been organized for their benefit, and, for students of the French Language, Literature, History, Institutions, etc, " Cours spéciaux d'études françaises " It is, however, advisable in all cases and necessary for " immatriculation " (entitling, to take part in all the work of the Univ and utilize its libraries, collections, etc), that the student bring with him a passport or birth certificate, and (though the Dean of the Faculty may allow matricn without this if satisfied on other grounds as to the candidate's qualifications) an academic diploma or certificate It is also advisable to have the latter as well as the former *visé*-d by a French Consul On arrival in France a declaration of residence must be made at the Préfecture de Police or Mairie and a certificate, " *récépissé*," of the declaration obtained (free of charge) It may also be necessary to obtain official translations by a " traducteur juré " of the passport, etc

The method of qualifying for a degree is somewhat similar to that prescribed for London External students: continuous residence and attendance on prescribed courses are not required, the candidate's fitness being ascertained merely by examinations For all the State and some of the Univ degrees and diplomas, however, " inscription " at intervals of 3 months is required, but not necessarily at one and the same Univ, and in practice it would be difficult in most cases to pass the exams unless the student had followed the preparatory courses in the Univ

" Inscription " is effected on each occasion by the student himself attending at the office of the Secretary and paying a fee, ordinarily

30 fr *plus* a library fee of 10 fr and, for some courses, laboratory fees. At the first "inscription" must be presented a duly *visé-d* passport or birth certificate with official translation, a diploma or certificate equivalent to the French Baccalauréat and the "récépissé" mentioned above. The Baccalauréat does not correspond with our bachelorship, but marks the satisfactory completion of a course of secondary education. A matriculation certificate of a Univ in the U K is regarded as equivalent to it, but the document, whether a matricn certif or one of equivalent or higher standard, should be accompanied by an official translation and a formal request on stamped (2 fr) paper (obtainable from any stamp-vendor) addressed to the Ministry of Public Instruction for an "équivalence du baccalauréat". All these documents—passport, etc., certificate, translations, "récépissé" and request—must be delivered personally to the Secy of the Faculty or School in which it is desired to register. Graduates seeking to obtain a Doctorat would similarly apply for an "equivalence" of the Licence instead of the Baccalauréat. A decree of July 24, 1922, gives a list of certain degrees which will be accepted without question as equivalent to the French "licence" for admission to candidature for the doctorates in law, science and letters. They include First-class Honours degrees of all the Univs of the U K and the LL B of Scottish and Irish Univs. A Supplementary decree recognizes as equivalent to the French licence for the above purpose L en-Dr, ès-Sc, and ès-Lett of Univs of Laval and Montreal, LL M of McGill, M Sc, M A, and Ph D (in Science or in Arts) of McGill and Toronto.

In nearly all the Univs there are special committees who make it their business to assist foreign students in obtaining all needful information. Students under 28 years of age attending holiday courses in French Univs may obtain tickets at half the ordinary fares for the journey from London and back. In order to get the benefit of these concessions students should apply to the Secretary of the Holiday Course for the requisite vouchers for journeys beyond Paris at least 15 days beforehand, and to the Director of the Office National, 50 Russell Sq, for the journey between London and Paris.

Information regarding details of arrangements for travel to and in France can be obtained free of charge from the Office Français du Tourisme, 56 Haymarket, London, S W 1. Information regarding classes in the French language in London can be obtained from the Institut Français, 1-7 Cromwell Gardens, London, S W 7.

HOLLAND

For full information regarding the Netherlands Univs. students are recommended to apply to the Office of the Netherlands Committee for international academic relations—temp address, 33 Wasstraat, Leyden This Committee was established in 1921 with a view to promoting the study of foreigners in the Netherlands and *vice versa* and to strengthening the relations between Dutch and foreign Univs A *Guide-book for Foreign Students in Holland*, in English, has been published by it The Committee's Secretary has kindly supplied the Universities Bureau with the following summary

The Netherlands Univs —by which term are also denoted here the so-called "Hoogeschole" or High Schools, which are on equal footing with the ordinary Univs—are governed by a Board of Curators, which forms an intermediate body between the Univs and the Government, the Municipality, or the Private Corporation by which they are controlled. Internal matters are regulated by the Academical Senates, consisting of the entire body of professors and presided over for annual terms by one of them, called Rector Magnificus Owing to their relatively modern origin, the Dutch Univs have never possessed the college system The teaching staffs, though quite adequate, are not so extensive as in some other countries, since the system of private lecturers is not very much developed The equipment in the way of laboratories and other means of research is generally excellent, and the attendance at the Dutch Univs being comparatively small, they provide excellent opportunities to students for research and post-graduate work under the direct supervision of the professors

The ordinary courses of lectures are open to everybody at an annual

fee of 300 guilders Persons not entering for examns are allowed to follow one or two single courses at a fee of 40 guilders each

Admission to examns is granted—as far as British students are concerned—to holders of one of the following certificates, which have been specially recognized Bachelor, Master or Doctor in the Faculty of Arts of any Univ of the U K or Laval, Montreal, Toronto, Victoria (Toronto), Adelaide, Melbourne, Sydney, N Z, Cape Town, Allahabad, Bombay, Calcutta, Madras, Punjab Other exemptions may be granted on application in individual cases by the Minister concerned on advice of a Faculty and the Senate

The so-called Academical Statute of 1921 has fundamentally altered the studies at the Univs proper, and leaves the students considerable liberty in the choice of their subjects Full particulars will be found in the guide-book mentioned above The degree of Doctor is acquired after having passed the doctorate examn by writing and defending a dissertation accompanied by at least 6 theses Other languages than Dutch are allowed Exemption from one or more of the Univ examns may be granted to individual foreigners in possession of diplomas or degrees by the Minister concerned on the advice of a Faculty and the Senate, as above

Division of the Academical year in semesters or terms is unknown in Holland The Academical year begins about Sept 20 and lasts until about July 10

The cost of living, everything included, may at present be estimated at about £150-£200

For full information regarding Italian Universities the *Annuario del Ministero dell' Istruzione, Roma*, 1923, may be consulted. The Universities are under State control, which is exercised through a Directorate-general for Higher Education, a department of the Ministry of Public Instruction, but the degree courses are no longer prescribed by the State, nor are the standards and legal values of the degrees uniform throughout the country, because a *Royal decree* of Sept. 30, 1923 (n. 2102), has given a measure of scientific and administrative autonomy to the Universities, so that, still under superior control, each may have its own regulations in conformity with a general State regulation, and its special program of degree courses. These have only an academic value, as after the University studies special State-exams are prescribed for admission to the exercise of professions. The University system is articulated to a Secondary School course of 8 years (5 in the Ginnasio and 3 in the Liceo), culminating in a "Licenza Liceale" obtained normally at the age of 18.

STAFF The chief administrative officer in each University is the *Rettore*, who is appointed triennially by the Government. At the head of each Faculty or School is a *Preside* (appointed by the *Rettore*) or *Direttore* respectively. The instructional Staff consists of *Professori di ruolo* (about 1200 in all—excluding the Free Universities) who receive fixed State salaries, and *Professori incaricati* paid by the Univ.

ORGANIZATION OF STUDIES The ordinary faculties are Law, Medicine and Surgery, Physical, Mathematical and Natural Sciences, Letters and Philosophy. In these four faculties the only degree (laurea) is that of *Dottore*. The degree course covers 4 (in Medicine 6) years. In Engineering a 5 years' course leads to the degree of *Ingegnere* or *Architetto*. Attendance at lectures (which are freely open to the public) is optional, and intermediate examinations are not held, the sole conditions for qualifying for degrees being registration and passing the examn. (esame speciale) at the end of each course and the esame di laurea or general examn., at which a dissertation is presented and publicly discussed and theses are orally defended. Requirements for degrees have hitherto included the following:

In the Faculty of *Law*, 18 obligatory courses.

In the Faculty of *Letters and Philosophy* candidates for degrees take 12 courses. The following are compulsory subjects for the degree in (1) Letters or (2) Philosophy respectively. (1) Italian, Latin and Greek Literatures, History of Philosophy or Theoretic Philosophy, (2) Theoretic Philosophy, Pedagogy, Moral Philosophy, History of Philosophy, Experimental Psychology, Italian and Latin Literatures, either Greek or some Modern Literature or Ancient or Modern History.

In the Faculty of *Physical, Mathematical and Natural Sciences* the doctorate may be taken in Mathematics or Physics or Chemistry or Natural Sciences. A scheme has been prepared for mixed degrees in Physical Science and Maths, and in Physical Science and Nat. Sc.,

intended for teachers who are required to instruct in a group of scientific subjects

In *Medicine* the instruction is of an eminently practical character *Dentistry* is taught as a branch of Medicine, and there is in connexion with each Medical Faculty a School of *Pharmacy* which confers after a 4 years' course a diploma giving the right to practise the profession of Pharmacy, and after a 5 years' course the degree of Doctor of Chemistry and Pharmacy

For the degree of *Engineering* or *Architecture* the first 2 years, devoted chiefly to Mathematics, Chemistry, Elementary Architecture, and Ornamental Design, may be taken in any Univ, and the 3 subsequent years in the Polytechnic at Turin, the Higher Technical Institute at Milan, the Engineering School at Padua, or the Naval School at Genoa. Post-graduate courses leading to a special diploma are provided in Turin and Milan

The *Veterinary* School course covers 4 years and leads to the degree of Dottore in Zooratria

ADMISSION OF FOREIGNERS Foreigners who have completed the entrance requirements of an approved Univ in their own country may enter the Italian Univs, and those who have already completed one or more years of study in their own Univs may be given advanced standing, even to the extent of being allowed, if their studies have already included courses equivalent to those prescribed for an Italian degree, to present themselves forthwith for the final examn without taking any further courses. Except in very exceptional cases, however, a candidate who has not completed at least a year's work in the Italian Univ is not likely to succeed in passing the examn. It is important that foreigners should bring with them properly authenticated academic records and birth certificate countersigned by an Italian consul. Foreign students are exempted from all university fees, and are even eligible for maintenance grants from a fund from which grants are also made to Italians studying abroad. Unmatriculated "uditori" may obtain certificates of attendance at courses and of passing examns

SPECIAL NON-PROFESSIONAL DEGREES (laurea speciali rilasciate a titolo di particolare cultura scientifica) These were instituted in 1917 specifically for foreigners, but are also open to Italians. Like the regular professional degrees they imply 4 years of study and at least 12 courses, but the student is allowed more freedom in his selection of courses and they confer no right to practise a profession. A graduate, whether of an Italian or of an approved foreign Univ, need not spend more than one year in residence. The degrees are conferred only by the Royal Univs

RESIDENCE The Universities do not provide or undertake any responsibility in regard to lodgings. Living expenses are in general lower than in England, especially in Naples, Bologna, Florence and most of the smaller cities

TEACHING POSTS IN SCHOOLS Candidates for posts as teachers of modern foreign languages in Secondary Schools are required to pass

written and oral tests in Italian and in the foreign language, and to give a demonstration lecture. These exams, which are rather severe, are open to foreigners who can produce satisfactory evidence of having had a good general education.

The SERENA FOUNDATION, 1,000,000 lire, for the encouragement of the higher study of English at Italian Univs, is administered by a Committee of the British Italian League. The income is to be divided between the Università Bocconi of Milan and the British Institute of Florence.

SWITZERLAND

[For the following article the Bureau is indebted to the courtesy of the Swiss Legation and the Office Central, Universitaire Suisse, rue de l'Hôpital 30, Berne For further information application may be made to the Office Central]

In the Cantons of the Swiss Confederation, as in the United States of America, Higher Education is legislated for by the constituent states (in the Swiss Confederation, the Cantons) severally, and the only Institution of University grade controlled by the Confederation is the "École polytechnique fédérale" at Zurich At ST GALLEN is a *Handels-Hochschule*, founded in 1899, which receives grants both from the Confederation and from the Canton It has 18 professors and 11 lecturers, and offers four-semester courses, including Economics, Commerce, Law, Finance, Technology, etc

THE CANTONAL UNIVERSITIES

Although the Cantons are free to organize their Univs as they please, untrammelled by federal laws, there exists among them an understanding on the most important points so that it is possible to generalize to some extent in describing them It should nevertheless be borne in mind that such generalizations imply "no uniform prescription but merely coincidence of particular dispositions" For exact information it is necessary to refer to the regulations of the particular Univ in question.

The following list gives (a) the number of professors, (b) the number of regular students, (c) the language of instruction of each of the Univs

BÂLE	(a) 140 , (b) 1000 , (c) German
BERNE	(a) 170 , (b) 1600 , (c) German
FRIBOURG	(a) 70 , (b) 500 , (c) French and German.
GENEVA	(a) 170 , (b) 800 , (c) French
LAUSANNE	(a) 110 , (b) 800 , (c) French
NEUCHÂTEL	(a) 60 , (b) 200 , (c) French.
ZURICH	(a) 100 , (b) 1500 , (c) German

FACULTIES Theology, Law and Political Sciences, Medicine, Letters (philos, languages, history), Sciences (Maths and Nat Sc.) Berne and Zurich have also a faculty of Vet. Med , Lausanne an Engineering School Fribourg and Neuchâtel have no Med faculty.

THE COURSES are organized by *semesters* The winter semester is from the middle of Oct to the middle of March, the summer from the middle of April to the end of July Immatriculation may be at the beginning of either semester and students choose freely the courses they wish to follow, the study plans published by the several faculties being merely intended for the guidance of those who wish to adopt a normal curriculum

DEGREES obtainable are the *Licence* and the Doctorate The former is not ordinarily conferred in the German-speaking Univs Almost all the faculties confer the Doctorate and there are numerous special exams which may be taken with a view to it, each carrying its special Diploma Candidates must prove that they have studied in a Univ during a certain number of semesters, ordinarily 6, of which at least 2 have been passed in the Univ which is asked to confer the degree Graduation fees are from 300 to 400 fr, and, in addition, candidates are required to supply within a certain time after the examn printed copies (generally 200) of their dissertation

IMMATICULATION Regular students (minimum age, 18) must present (a) A certificat de maturité of a recognized Swiss gymnasium or a similar foreign certificate entitling to admission to a foreign Univ (Entrance exams are arranged for students whose certificates are insufficient), (b) certificate of character, (c) passport (or equivalent document) The admission fee varies from 10 to 62 fr and there are sundry other initial charges, *e g* at Berne library 5 fr, Sick Fund 10 fr, General Fund 2 fr

Certain courses are open to unmatriculated persons as "auditors," and admission to others may be obtained from the professors concerned, who in some cases require evidence of suitable preparation The fee for inscription as "auditor" is nominal (*e g* 1 fr), but the student is required to pay instruction fees

INSTRUCTION FEES The system generally adopted is to levy a tax for the semester according to the number of hours per week assigned to the courses taken The rate per hour is ordinarily 5 fr, at Geneva and Zurich 6 fr A student who, *e g* at Bâle, takes an inscription for

20 hours a week would pay 100 fr. At Fribourg each student pays a fixed sum, whatever the number of hours of his courses—winter 60 fr., summer 50 fr.

Special taxes (from about 10 to 50 fr) are levied for the use of laboratories, clinics, etc. Sundry subscriptions, as for Sick Fund, General Fund, Library, etc., amount to from 5 to 25 fr.

SPECIAL INSTITUTIONS AND FACILITIES *Sick Fund* Students are required to insure against sickness expenses (hospital, or doctor and chemist) *Reading Rooms* are organized and administered, for the most part, by the students. *Museums, Libraries*, and other collections in each University town are open to students. *Theatres* generally admit students at reduced rates. *Scholarships* are comparatively unimportant and are not open to foreigners, but *Prizes* open alike to Swiss and foreign students are offered in most faculties. The first prizes range from 500 to 1000 fr.

LODGING Information obtainable from the Secretariat of the Univ., at Bâle and Zurich from the Comités d'Étudiants.

STUDENT ORGANIZATIONS The Comités at Bâle and Zurich manage the reading-rooms, procure lodgings, purchase books, organize conferences, cheap meals and clubs, encourage sports and answer general inquiries. The general body of students constitute the "Fédération Suisse des Étudiants". In each Univ. exist numerous student societies, characterized by the political opinions, social connexions, or religion of their members. Notable among them are those devoted to sport.

UNITED STATES OF AMERICA

In the 670 Universities, Colleges, and Professional Schools which submitted returns for 1919-20 to the United States Bureau of Education there were enrolled in that year 521,754 students, of whom rather more than one-third were women Of these institutions 109 were under public and 561 under private control, 82 were independent professional schools Of 586 Univs and Colleges with undergraduate students 354 were co-educational, and reported 162,558 men and 96,908 women, 117 were maintained exclusively for men and 115 exclusively for women Of the total number of students 59,309 were in pre-matriculation departments and 15,612 were in graduate schools Law students numbered 20,992, medical 14,242, dental 8809, theological 7216, pharmacy 5026, engineering 51,908 For full information about American Universities students in this country are advised to apply to the American University Union in Europe, British Division, 50 Russell Sq, on the continent of Europe to the headquarters of the Union, 1 rue de Fleurus, Paris In Rome there is an American Academy at Porta San Pancrazio 29 In Belgium the Fondation Universitaire, which administers numerous scholarships tenable in American institutions of higher learning, has its office at 74 rue de Namur, Bruxelles In America reference may be made to the Secretary to the Board of Trustees of the American University Union, Prof J W Cunliffe, Columbia Univ,

New York City, or to the Institute of International Education, 522 Fifth Avenue, New York. A recent Australian view of American Univ life and organization is given in *The American University* by E R Holme of the Univ. of Sydney (Angus and Robertson, Ltd, Sydney, 1920, 7s 6d). A description of American Univs from the point of view of a French scientist is given in *Universities and Scientific Life in the U S A*, by Prof M Caullery (Oxford Univ. Press, 1922, 10s 6d). The Bureau of Education of the United States Department of the Interior published in 1921 a Bulletin (No 39 of 1920) on "Facilities for Foreign Students in American Colleges and Universities". This is obtainable from the Government Printing Office, Washington, D C, at 15 cents a copy. The Inst of International Educn has published a *Guidebook for Foreign Students in the U S A* (1924), obtainable in this country from the American Univ Union. An "International House" is being built in New York (Morningside Drive and 124th Street) as a residence club for 500 foreign students. The requisite funds were provided by J D Rockefeller, Junior, who also founded the "International Education Board" (chartered Jan 16, 1923). This Board has established the International Institute of Teachers College (v *infra*, Columbia Univ).

American Professors on leave of absence sometimes receive grants for expenses of foreign travel from the Institute of International Education, and report to the Institute on their observations while teaching in foreign Institutions. Columbia, Pennsylvania, Johns Hopkins, Cornell, Harvard, Mass Inst Tech, and Yale co-operate in arranging exchanges with France of Professors of Applied Science.

For information as to American University and College Scholarships for British and other foreign students, and research in the U S A see Appendix XXIV (xxii), (xxxi), and (xxxiii).

The British Information Library, 44 Whitehall Street, New York, established Dec 1919, for the convenience of Americans desiring information on British current affairs, is a branch of the News Department of the Foreign Office, from which it is well supplied with official documents and other publications. It has become the recognized centre for information on British Empire affairs. It is in close touch with the Dominion Trade Commissioners in New York, and can give information on Dominion affairs. Wherever possible official documents are lent, on request, to American libraries under the usual inter-library loan conditions. Early copies of documents dealing with matters of general interest, such as foreign affairs, finance, education, social welfare, industrial relations, mineral and oil resources, etc., are received regularly directly from London. The Library also has an important file of documents on Indian affairs, and some of the leading Indian newspapers. It is entirely free to the public, and information is gladly given to all enquirers.

AMERICAN DEGREES (non-professional). The following notes are based on a Report presented by a Committee of the American Council on Education to the French Ministry of Public Instruction. The American Colleges, both those which are independent institutions and the colleges of liberal arts within Universities, award the A B (or B S)

degree to students who complete a 4 years' course. Ordinarily the student at the time of admission to the college is about 18 years of age and has completed a 4 years' course in a secondary school. A considerable portion of his work at college belongs, however, to what in European countries is called secondary education. A peculiarity of the American system of grading, both in secondary and in higher institutions, is the weight attached to the length of time spent under instruction, a degree being attainable by gradual accumulation of a specified number of "credits" (certificates of definite periods of time spent successfully under instruction), which thus largely replace the examinations used in other countries for testing the student's capacity at various intervals. The college graduate who aspires to the degree of M A (or M S) proceeds to the Graduate School of a University (the professional schools of law, medicine, etc., with few exceptions, admit undergraduates), and there pursues his studies, either general or, if aiming at a subsequent doctorate, specialized, for one year. The Ph D. requirements are ordinarily "3 years of resident study, beyond the baccalaureate, the presentation of a thesis embodying the results of original research, and the passing of a comprehensive examination testing the candidate's knowledge of his chosen field of learning."

The Report points out that higher education in the U S A is largely autonomous, there being no control by the Federal Government and little control by the political authorities of any State. Such standardization as has been effected has come through the voluntary efforts of groups of institutions having similar ideals and purposes. Conspicuous among these is the Association of American Universities. The Report recommends the admission to candidacy for the State Doctorate of any student holding the M A or M S degree of an institution belonging to the Assocn of American Univs who has specialized in the branch of learning chosen for the work for the doctorate, and proved to the satisfaction of the head of his department and of the Dean of the Graduate School of his Univ his capacity for research, also candidates for the Ph D in one of those institutions who have completed 2 or more years of study for the Ph D, and proved their capacity for research, also holders of a Ph D from one of those institutions. The institutions in question are starred (*) in the list given below. In other cases it is suggested that reference should be made to the Committee, 24-26 Jackson Place, Washington.

Below is given a list of 166 institutions approved by the Association of American Univs. This list has been adopted by most of the Univs of the U K for the purpose of admission of graduates with a view to qualifying for the Ph D degree (v p 14). They may be classified as

I 33 Univs of complex organization, usually with *graduate schools* and certain professional and technological schools. These are the 25 members of the Assocn, and Boston, New York, and Western Reserve and the Univs of Cincinnati, Colorado, Pittsburgh, Texas, and Washington.

VACATION COURSES, 1924

The practice of holding Summer Courses in University towns in the United Kingdom increases year by year. In 1923 there were courses organized by or in connexion with the Universities of Cambridge, Leeds, Liverpool, London, Oxford, Wales, Aberdeen, Edinburgh, Glasgow, and Dublin. In addition, courses in connexion with University Tutorial Classes were held at nine centres. The Board of Education publishes in April lists of such courses, and of many other summer courses unconnected with Universities, and a list of Holiday Courses on the Continent. Regarding some of these, information will be found in Appendix XXV.

The Summer Meeting for University Extension Students and others to be held at CAMBRIDGE will be in two parts. I Aug 1 to Aug 12, and II Aug 12 to Aug 21. The main subject of study will be *Egypt*, and there will be lectures on the country in Ancient, Mediæval, and Modern times. In the *Science* section there will be lectures on recent discoveries. Lectures and classes designed for *Foreign Students*, but open to other members, will deal with English Literature with special reference to great writers who have been educated at Cambridge. There will also be lectures in *Theology*. Accommodation for a limited number of students will be provided in some of the colleges. Apply to Rev. Dr. Cranage, Syndicate Buildings, Cambridge.

The University of LONDON Holiday Course for Foreigners will be held from July 18 to Aug 14. It is of special value to Teachers in Secondary Schools and persons preparing for teaching. It will include Lectures on Stevenson, Kipling, and Wells, on the Sounds of Modern English, on The English Village and Agricultural Labour, Urban Life and Manufacture, and the British Labour Movement, on the History of London, on English Architecture, etc., in addition to classes and exercises in Phonetics. Certificates of proficiency and attendance. Fee, £5. Owing to the Empire Exhibition an unusually large attendance is expected, and application should be made early to the University Extension Registrar, University of London, London, S W 7.

At OXFORD a Vacation Course in the *History of the Middle Ages* will be held from July 28 to Aug 23. It aims to give to *advanced students* and teachers of history opportunities of making personal contact with distinguished mediæval scholars, of reading in the buildings of a famous mediæval foundation, and of breathing the mediæval atmosphere of an historic city. Fee, £10 (£5 5s for either fortnightly part). Apply to the Secretary to the Delegation for the Extension of Teaching, Acland House, Oxford.
